**REPORT DATED 12 MAY 2026 FROM THE MUNICIPAL MANAGER (Adv R DUMEZWENI) TO COUNCIL – HIGH RAINFALL EVENTS THROUGHOUT NDLAMBE MUNICIPALITY JURISDICTION FOR THE PERIOD 4 MAY 2026 TO 8 MAY 2026.**

**PURPOSE**

To submit a detailed report to Council that covers the past High Rainfall Event that occurred between 4 May and 8 May 2026 throughout the jurisdiction of Ndlambe Municipality.

**BACKGROUND**

On 4 May 2026 at 14h00 severe rainfall was experienced throughout the entire jurisdiction of Ndlambe municipality and continued up until 8 May 2026 resulting in severe structural damage to roads and infrastructure as well as damage to residential properties, businesses within towns, residential areas, townships and informal settlements, including farming areas. The extend of the high rainfall was widespread over the entire Sarah Baartman District Municipal area and beyond. In some areas in Ndlambe Municipality rainfall was measured between 150mm and 230mm over the said period.

Although some areas were more affected than others, Ndlambe Local Municipality suffered severe damage and loss of infrastructure because of this extreme weather event.

**AGENDA OF A SPECIAL OPEN NDLAMBE VIRTUAL COUNCIL MEETING TO BE HELD ON, WEDNESDAY, 13 MAY 2026 AT 14H00 VIA MS TEAMS**

---

Infrastructure provides a critical function to residents of Ndlambe in the way of access to private property, access for emergency and service vehicles, residential properties and social services such as schools, clinics etc. The protection and maintenance of such infrastructure is therefore critical.

DISCUSSION

The Ndlambe Municipality High Rainfall Event Damage Report 4 to 8 May 2026 covers each area that is affected with a summary of the damage, interventions, and loss detailed and estimated costs to date.

Attached as **Annexure SC.03** is the Ndlambe Municipality High Rainfall Event Damage: Report 4 to 8 May 2026.

RECOMMENDATIONS TO COUNCIL

1. THAT Ndlambe Council request the Sarah Baartman District Municipality to DECLARE Ndlambe Municipality as a Local State of Disaster relating to the High Rainfall Event that occurred between 4 and 8 May 2026.
2. THAT the Sarah Baartman District Municipality FORWARD the recommendation above to the Provincial Disaster Management Centre (PDMC) in order for the PDMC to escalate the declaration to the National Disaster Management Centre (NDMC).
3. THAT the Ndlambe Municipality High Rainfall Event Damage Report: 4 to 8 May 2026 which incorporates damages, interventions and costing be NOTED.
4. THAT it BE NOTED that the total amount reflected in the report is an estimated amount, not the actual amount of the damages.

**SPECIAL OPEN NDLAMBE COUNCIL MEETING**

**WEDNESDAY, 13 MAY 2026**

**REPORT DATED 12 MAY 2026 FROM THE  
MUNICIPAL MANAGER (Adv R DUMEZWENI) TO  
COUNCIL - HIGH RAINFALL EVENTS  
THROUGHOUT NDLAMBE MUNICIPALITY  
JURISDICTION FOR THE PERIOD 4 MAY 2026  
TO 8 MAY 2026.**

**ANNEXURE SC.03**

# NDLAMBE MUNICIPALITY

## HIGH RAINFALL EVENTS: 04 to 08 MAY 2026

**UPDATE 12 MAY 2026 @ 09h00**

**Period:** 4 May 2026 (14h00) – 8 May 2026 (12h00)

**Area of jurisdiction:** Ndlambe Local Municipality

### **SOCIAL AND ENVIRONMENTAL CHALLENGES & INTERVENTIONS**

1. Numerous houses in informal areas obtained structural damage, flooding damage and community members reported damage to household goods
2. No community members were evacuated to community halls and places of shelters with an exception of one (1) family that was relocated to a place of safety in Alexandria in stead of a community hall and to date is still there.
3. SBDM appointed Disaster Management Coordinator (shared between Ndlambe and Makana) coordinated relief operations via Director: Community Protection Services.
4. All Ward Councillors and PR Councillors, including the Speaker and Mayor requested assistance to the Director: Community Protection Services, thereafter Disaster Coordinator assisted these councillors and community members
5. Damp course, matrasses, blankets and where needed food vouchers were issued to affected community members.
6. The Ndlambe Fire & Emergency Services received numerous call outxs for pump outs of informal areas and properties in towns and townships where flood water, flooded houses
7. The Ndlambe Traffic department closed off with yellow barricades where roads obtained floods, and mud slides, rock falls such as Wharf Street (where 2 vehicles washed into Kowie river but towing companies assisted soonest), no one injured.
8. Roads and mud along critical routes such main road in Bathurst was cleared by Fire department and municipal staff.

9. To date no loss of life was reported during the heavy rainfall event within the area of Ndlambe municipality.
10. Volunteers made available by 1stLife assisting the Ndlambe Fire & Emergency Services when it comes to pump outs, clearing of debris etc.
11. Stenden University Disaster Management Students assisted the Disaster Management Coordinator in affected areas, also to fill and place sandbags where localised flood events were happening.
12. Sandbags were filled by the Infrastructure department and placed at the Ndlambe Fire and Emergency Services (Fire Station) in Port Alfred. Majority of the bags were used to protect properties in wards 8 and 9 where roads were higher built than house, in so doing prevent run off water to run into residential properties
13. Blind estuaries (Boknes, Kasouga) broke through to sea naturally without human intervention.
14. Mr Govender of DEDEAT has indicated that if emergency work is required that trigger EIA requirements, he to be contacted to give verbal, followed by written authorization to safeguard life and property.
15. Kasouga properties in low lying green belt were flooded but due to natural breaching of Kasouga Blind estuary these properties drained naturally.
16. The Kleinemonde East blind estuaries have breached to sea but to date Kleinemonde West estuary has not breached but no properties or infrastructure on the banks are in danger.
17. The Fish River and Kap River reserve infrastructure is secure even though the Fish River informal camp site flooded and an assessment is still needed to be made when can be accessed.
18. The Blue Flag beaches of Kariega and Kellys Beach to date obtained minor structural damage but Middle Beach Blue Flag Beach obtained structural damage to the embankment and need intervention. (Awaiting storm surge and high wave asd\ per SAWS)
19. Boknes beach parking and sections of recreational infrastructure obtained damage when the Boknes blind estuary (lagoon) broke through to the sea.
20. A JOC WhatsApp group was established by the Disaster Coordinator for the Ndlambe region where information and updated information were sent.
21. The Director: CPS, Deputy-Director: CPS and Disaster Coordinator also created a WhatsApp group for critical interventions
22. The Ndlambe municipality Communication Officer submitted regular updates on SAWS warnings of the Ndlambe area, as well as cautionary information. This was also sent to numerous social media platforms and WhatsApp groups and then circulated from there on safety precautions, road closures etc. The local radio station was also updated from SBDM and Ndlambe Communication officer.
23. Reports ranges between 150mm and 230mm of rainfall depending on the area in Ndlambe.
24. The Ndlambe municipality attended the JOC Virtual session on 4/5 and 5/5 and 6/5 and due to interventions could not be part of 7/5 session.
25. Numerous trees had fallen and were cleared by Fire & Emergency Services and Parks and Recreational Sections.
26. The Department of Education has issued notices to schools in Ndlambe area to be closed on 6, 7 and 8 May 2026 due to severe weather conditions.
27. Some of the RDP houses in Ndlambe area were affected however we are still awaiting numbers.
28. Staircase / access path on embankment above Bank lane that creates access for residents to Station Hill has eroded away and require urgent revetment work, as children, elderly use the access path to and from Station Hill to SAPS, CBD and essential services such as hospital

## **AFFECTED COMMUNITIES AND HOUSEHOLDS REPORTED IN INFORMAL SETTLEMENTS**

Issuing of damp course, mattresses, food vouchers and blankets to certain households where needed.

Storm water drainage clearing

Localised Flood intervention

Funeral parlour flooded

Breaching of rivers, estuaries and localised dams filling

### **Infrastructural interventions / challenges reported**

#### **Water reticulation challenges:**

29. Notice was issued by Ndlambe relating to switching off the 2 Reverse Osmosis plants on the Kowie river. This will mean that there be a water shortage within greater Port Alfred area especially high lying areas. Reason for temporary switching off both RO plants pumps are high levels of turbidity in the raw water caused by rainfall run off. This is to protect the RO membranes and associated treatment equipment from damage. (Short term)
30. The worse area affected by lack of water to residents is in Greater Alexandria area due to lack of electricity (storm damage) since 5<sup>th</sup> May 2026 (Tuesday night) resulting that no water can be pumped from the Dune well fields and water from Cannon Rocks RO plant via the pump station To Alexandria.
31. The Cannon Rocks RO plant at present is operating on a limited capacity due to lack of raw water from bore holes in Boknes which also don't have electricity supply.
32. No electricity at the Bushmans Reverse Osmosis plant since 4 May afternoon till Tuesday 5 May at midnight, resulting in no water production for Wards 3 and 4 for a period of a day and a half. Status currently power restored and operational.

## Sewerage challenges:

33. Boknes Road informal settlement septic tanks collapsed due to heavy rain in the Alexandria
34. Informal areas in Bathurst also experienced septic tanks collapsing.
35. Additional sewerage pump out trucks were hired by the Infrastructure Directorate to assist with pump outs of septic tanks that were flooded throughout the whole of Ndlambe

Septic tanks compromised (Ward 1)

## Road network challenges:

36. Prior to start of rain after warnings were issued by SAWS storm water drains were inspected. This is in line with the storm water maintenance plan.
37. EPWP teams continued to clean storm water drains during rain event where due to high volume of water blocked drains
38. Storm water drains could not cope with the large volume of water in numerous settlements
39. Various road networks, in towns, settlements and townships have obtain severe structural damage (detailed photo report see from Directorate: Infrastructural Development)
40. Two low-water bridges in townships washed away cutting off community members from essential services.
41. The recent construction of sewerage pump lines, not completed, has resulted in severe structural damage to the road, making the roads not accessible for residents.
