NCA014/10/2026
REPORT DATED 20 OCTOBER 2026 FROM THE MUNICIPAL MANAGER TO COUNCIL: THE PROCLAMATION OF MUNICIPAL PROPERTY AS A NATURE RESERVE.

PURPOSE

The purpose of this item is to provide for the Council Resolution pertaining to the proclamation of municipal property as a Nature Reserve which will include all of the necessary details required by the provincial conservation authorities for the proclamation of the Nature Reserve.

BACKGROUND

In order to proceed with the process to proclaim the Nature Reserve, the Eastern Cape Parks and Tourism Agency (ECPTA) requires that the Council Resolution to be passed and reflect the particular details pertaining to the proposed Nature Reserve proclamation (e.g., the descriptions of the relevant properties, the name of the Nature Reserve, the assignment of Management Authority, The recommended wording for the amendment of the Council Resolution is provided in full under the "Recommendation" section of this document.

The aim is to have the relevant listed municipal properties declared as Nature Reserve in terms of the National Environmental Management: Protected Areas Act (No. 57 of 2003). The Ndlambe Municipality will remain the registered owner and the responsible authority for the municipal properties.

LEGAL IMPLICATIONS

The municipal properties that will be declared as a Nature Reserve will attain the legal status and protection as a Nature Reserve in terms of section 23 of the National Environmental Management: Protected Areas Act (No. 57 of 2003), and the Ndlambe Municipality will be responsible and recognized as the Management Authority of the **Qhangwanathi Nature Reserve** in terms of section 38(3) of the National Environmental Management: Protected Areas Act (No. 57 of 2003).

See Annexure C.05

RECOMMENDATIONS TO COUNCIL

1. The Council of the Ndlambe Municipality passed a Council Resolution pertaining to the proclamation of municipal properties as a Nature Reserve with the following:

   (i) The Ndlambe Municipality is the registered owner of the immovable properties listed below, and the municipal Council consents to have such properties declared as Nature Reserve, to be named and known as the **Qhanqwanathi Nature Reserve**, in terms of section 23(1)(a)(ii) of the National Environmental Management: Protected Areas Act (No. 57 of 2003).

   Remainder of the Farm 347 in the area of the Ndlambe Local Municipality, Division of Bathurst, Eastern Cape Province. Held by Title Deed Number T104003/2002, in extent 107.5090 Hectares (One Hundred Seven and Five Thousand Ninety Ten Thousand).

(ii) The Ndlambe Municipality agrees to be assigned and accept such assignment as the Management Authority for the **Qhanqwanathi Nature Reserve**, in terms of section 38(2)(a), section 38(3), and section 39(1) of the National Environmental Management: Protected Areas Act (No. 57 of 2003).

(iii) The Ndlambe Municipality may enter into a co-management agreement with a suitably qualified and resourced party (e.g., conservation partners) to help support the ongoing management of the Nature Reserve, as provided for under section 42 of the National Environmental Management: Protected Areas Act (No. 57 of 2003).

(iv) The Accounting Officer / Municipal Manager of the Ndlambe Municipality is duly authorized to perform any and all such acts relating to the signing of the necessary documents, on behalf of the Ndlambe Municipality as the registered landowner, pursuant to the execution of the abovementioned resolutions contained herein.

***

NCA015/10/2026
REPORT DATED 21 OCTOBER 2026 FROM THE MUNICIPAL MANAGER TO COUNCIL: REPORT ON REVIEW OF HUMAN RESOURCES POLICIES: GRIEVANCE RESOLUTION POLICY AND ACTING ALLOWANCE POLICY: SENIOR MANAGERS

PURPOSE

For Council to review and adopt the Human Resources Policies.

BACKGROUND

It is imperative that the Human Resources Policies should be reviewed to ensure cnsistency with the current applicable legislations. However, it is worth noting that ever since the last reviews there has been no major shift on legislative change that impacts on Human Resource. Furthermore, the Auditor General of South Africa requires that such policies be tabled before Council.

DISCUSSION

Attached as **Annexure C.06** is the Human Resources Polices.

RECOMMENDATIONS TO COUNCIL

THAT the following Human Resources Policy **BE REVIEWED AND ADOPTED;**

NO.	TITLE	CUSTODIAN(S) RESPONSIBLE PERSON
1.	Grievance Resolution Policy	Corporate Services
2.	Acting allowance Policy: Senior Managers	Corporate Services

***

NCA016/10/2026

REPORT DATED 20 OCTOBER 2026 FROM THE OFFICE OF THE MUNICIPAL MANAGER TO COUNCIL: ADOPTION OF THE REVIEWED LOCAL ECONOMIC DEVELOPMENT (LED) STRATEGY

PURPOSE

To request Council to consider and adopt the reviewed Local Economic Development (LED) Strategy of the Municipality, the LED Strategy provides strategic framework for promoting inclusive economic growth, job creation, enterprise development and better quality of life for municipal residents.

BACKGROUND

The Municipality as mandated by Section 152 of the Constitution of the Republic of SA 1996, recognises the critical role LED has in dealing with local economic challenges and creation of an enabling environment for the betterment of local livelihoods.

The current LED Strategy has been reviewed with the assistance and help the Department of Co-operative Government and Traditional Affairs (Cogta-EC). During the consultation process with relevant municipal departments and stakeholders was undertaken.

The process entailed involvement of stakeholder inputs and relevant inputs that wereincluded in the strategy. The outcome of the process is the reviewed LED Strategy that provides interventions for the duration of the 5 years .

The implementation of the Strategy will be based on the approved Municipal budget availability and in some instances where additional funding is sought, external funding agencies will be approached for consideration.

The LED Strategy is attached as **Annexure C.07**

RECOMMENDATIONS TO COUNCIL

1. THAT Council ADOPTS the reviewed Local Economic Development (LED) Strategy as a guiding strategic framework for economic intervention within the Ndlambe Local Municipality.

2. THAT Council NOTES that the LED Strategy may be reviewed periodically to ensure alignment with policy, legislation and municipal economic planning developments.

***

NCA017/10/2026

REPORT DATED 21 OCTOBER 2026 FROM THE MUNICIPAL MANAGER TO COUNCIL: WRITE OFF OF IRRECOVERABLE INDIGENT AND DECEASED CONSUMER DEBTS AT SEPTEMBER 2026

PURPOSE

For Council to approve the writing off of Indigent and Deceased Consumer debt as at 30 September 2026.

BACKGROUND

Ndlambe Municipality historically processed debtor write-offs annually at financial year-end. Following guidance received from Provincial Treasury during the mid-year assessment review, the Municipality commenced implementing a quarterly debtor write-off process from the fourth quarter of the 2025/2026 financial year. This approach will continue going forward to improve financial management, reduce significant impairment adjustments at year-end and distribute the financial impact more evenly across reporting periods.

Furthermore, the **Local Government Equitable Share (LGES) Formula and Explanatory Framework**, as issued annually by National Treasury, provides that the equitable share is intended to fund free basic services and support the cost of services where municipalities are unable to fully recover revenue from poor households. The equitable share therefore assists in addressing uncollectable revenue in respect of indigent, poor and deceased consumers.

USER SECTION (FINANCE: REVENUE) COMMENTS ON FINDINGS

Indigent Debtors

The proposed write-off of indigent debtor balances arises from the inability of qualifying households to settle outstanding amounts. These balances have accumulated due to the following:

1. Consumption exceeding the free basic water allocation of 6 kilolitres per month. The Municipality is currently implementing appropriate water demand management and restriction measures within the constraints of the available resources and within the applicable legislative and policy framework, to curb excessive consumption beyond the free basic allocation and promote sustainable usage.
2. First-time registered indigent consumers with historical arrears incurred prior to approval of indigent status, during which period no subsidy was applied and the consumers were unable to afford payment of municipal services.

Indigent subsidy is allocated on a monthly basis to registered indigents and in cases where prior financial years debt is uncollectable as indigent households are not handed over for legal collection hence Council authorization is requested to write-off the arrears.
Indigent subsidies are applied monthly to qualifying households. However, arrear debt relating to prior financial years is often not recoverable, as indigent households are not subjected to legal collection processes.
Accordingly, Council approval is required to write off such arrear balances.

See **Annexure C.08**, for detailed listing/breakdown of the total writeoff Amount per debtor per ward.

Deceased Debtors

The Municipality's consumer database comprises 28 819 active rates, taxes and services accounts, consisting of 25 823 ownership accounts and 2 997 occupier accounts.

A total of 4 400 accounts (17%) of owner accounts are registered in the names of deceased property owners. Of these deceased-owner accounts:

- 3 336 are registered indigent households;
- 28 are paying households; and
- 1 036 are non-paying or poorly paying households.

An analysis of the non-indigent deceased-owner accounts indicates that 97% have property values below R350 000, highlighting that the majority of these properties are of relatively low value and are associated with households experiencing limited ability to pay.

Of the 4,047 deceased debtor accounts as at 30 June 2026, only 1,193 were registered as indigent. This was attributable to the following challenges:

- Estate administration: In most cases, no registered estate or appointed executor could be identified, complicating the determination of liability and recovery of outstanding debt.

- Occupancy and accountability: Certain properties were vacant or unoccupied, or had no identifiable responsible party to assume liability for the municipal account.

- Property ownership and business registrations: Properties registered in the names of owners who are directors of companies, including those properties that are used by other directors of companies as their property addresses on their CIPC/CK records, complicated the verification of actual occupancy, liability and eligibility for indigent support.

- Reluctance of beneficiaries: Beneficiaries of deceased estates were often reluctant to nominate occupants for indigent registration due to concerns about potential property claims, delaying the regularisation of accounts.

- Additional compliance requirements: Applications involving company directors required additional committee approval and compliance checks in line with Auditor-General requirements, extending the processing time.

- Verification and register updates: External verification against the Department of Home Affairs database and the biannual vetting of the indigent register resulted in additional deceased debtors being identified and removed from the indigent register.

- Property valuations: Although the majority of these properties had valuations below R350,000, eligibility for indigent support remained subject to the applicable policy criteria and registration requirements.

The amended Indigent Policy approved for the 2026/2027 financial year addresses these challenges by introducing automatic indigent classification for qualifying properties with a value of R250,000 or less, subject to the policy criteria. This has improved the Municipality's ability to classify qualifying deceased-owner accounts as indigent without relying solely on the previous application and verification process.

As a result, by September 2026, 3,336 of the 4,400 deceased debtor accounts were classified as active indigents, compared with 1,193 registered indigents as at 30 June 2026. This demonstrates the impact of the revised policy in extending indigent support to qualifying households while improving the accuracy of the Municipality's indigent register.

The newly deemed/automatically classified indigent accounts have been excluded from the current debtor write-off listing, as further verification is being undertaken to confirm that the properties and accountholders meet all the applicable criteria of the approved Indigent Policy.
The current approved budget for debtor write-offs amounts to R43,873,932. The balances of the newly activated deemed/automatic indigent accounts amounted to R42,181,000 as at September 2026. In addition, the year-to-date balances relating to normal indigent accounts and deceased debtors amounted to R3,996,629.59 and R7,676,575.84, respectively, resulting in a combined balance of R11,673,205.43. When projected over the four quarterly write-off periods, the estimated requirement for normal indigent and deceased debtor write-offs amounts to approximately R46.6 million, already exceeding the available budget.

The deemed/automatic indigent accounts were therefore not specifically provided for in the current budget, as the inclusion of these balances would significantly exceed the Municipality's available funding for debtor write-offs. The write-off of these accounts will need to be considered in future budget processes, taking into account the extent of the outstanding debt and the Municipality's financial capacity. Measures to strengthen revenue collection and identify additional funding sources will be necessary to ensure that provision can be made for these write-offs in future budgets without placing further pressure on the Municipality's financial sustainability.

See **Annexure C.08**, for detailed listing/breakdown of the total write-off Amount per debtor per ward.

RECOMMENDATION TO COUNCIL

1. THAT the comments of the Finance Department: Revenue Section **BE NOTED.**

2. THAT the request for "Indigent household debt" write-off amounting to R3 996 629.59 **BE APPROVED.**

3. THAT the request for "Deceased account holders' debt" write-off amounting to R7 676 575.84 **BE APPROVED.**

***

NCA018/10/2026

REPORT DATED 22 OCTOBER 2026 FROM THE MUNICIPAL MANAGER TO COUNCIL: COMPLETION OF THE 10 INNOVATIVE SUSTAINABLE BUILDING TECHNOLOGY (ISBT) HOUSES AT THE KENTON-ON-SEA ECOSUN GREEN VILLAGE.

PURPOSE

The purpose of this report is to seek Council approval for the allocation of the remaining project funds amounting to R1 199 937.56 towards the completion of the 10 Innovative Sustainable Building Technology (ISBT) houses at the Kenton-on-Sea EcoSUN Green Village during the 2026/27 financial year.

BACKGROUND

Ndlambe Local Municipality commenced with the construction of 10 Innovative Sustainable Building Technology (ISBT) houses at the Kenton-on-Sea EcoSUN Green Village as part of an innovative human settlement's initiative aimed at demonstrating the use of sustainable and alternative building technologies.

The Municipality received a total amount of R2 511 964.17 from the Department of Human Settlements for the implementation of the project. To date, total project expenditure amounts to R1 312 026.61, leaving an unspent balance of R1 199 937.56.
The project was initially implemented through the appointed contractor, SQT. However, construction activities were subsequently suspended due to licensing, regulatory and compliance challenges, particularly in relation to the requirements of the National Home Builders Registration Council (NHBRC) and Agreement South Africa.

The Municipality has now sourced a suitably capable contractor to complete the outstanding works. It is therefore necessary for the remaining project funding to be allocated in the 2026/27 financial year to enable the Municipality to proceed with and complete the project.

SOURCE OF FUNDING AND YEAR OF ALLOCATION

The project is funded by the Department of Human Settlements.

The remaining project funding of R1 199 937.56 is required to be allocated to the project 's contractor fees during the 2026/27 financial year to facilitate completion of the outstanding works.

FINANCIAL IMPLICATIONS

The financial position of the project is summarised as follows:

Description	Amount
Total funding received	R2 511 964.17
Expenditure to date	R1 312 026.61
Remaining balance to be allocated	**R1 199 937.56**

The proposed allocation therefore does not exceed the remaining funding available for the project.

DISCUSSION

The allocation of the remaining project funds is necessary to enable the Municipality to complete the outstanding works on the 10 ISBT houses and bring the project to completion.
Completion of the project will also ensure that the funding already invested in the development is safeguarded and that the intended objectives of the EcoSUN Green Village initiative are realised.

COMMENTS FROM OTHER DEPARTMENTS

Nil.

RECOMMENDATIONS TO COUNCIL

THAT Council approves the allocation of R1 199 937.56 during the 2026/27 financial year for the completion of the 10 Innovative Sustainable Building Technology (ISBT) houses at the Kenton-on-Sea EcoSUN Green Village.

***

NCA019/10/2026
REPORT DATED 20 OCTOBER 2025 FROM THE MAYOR TO COUNCIL: SECTION 52 QUARTERLY REPORT FOR THE QUARTER ENDING 30 SEPTEMBER 2026

PURPOSE

To submit the first quarterly report for the financial year 2026/27 to Council for noting.

BACKGROUND

For Council to exercise their oversight role on a quarterly budget statement performance report attached as **Annexure C.09** is to be submitted to Council In terms of section 52 (d) of the Municipal Finance Management Act, (Act 56 of 2003) (MFMA).

Section 52 (d) of the MFMA "The mayor of a municipality must within 30 days of the end of each quarter submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality.

DISCUSSION

Section 52 quarterly report period of 1st July 2026 to 30 September 2026 is attached as **Annexure C.09**

RECOMMENDATION TO COUNCIL

THAT the first quarter budget statement performance report **BE NOTED.**

2. THAT Management IMPLEMENTS the actions as identified during the Risk Assessment.
3. THAT Management ensures ongoing monitoring of emerging risks affecting their department.
4. THAT the Risk Appetite be introduced and it be approved by the Council as part of the Risk Management Policies.
5. THAT the quarterly target set on the Risk Register should also be aligned with the SDBIP and the Budget.

6. THAT Operational Risk Registers for all the Directorates be developed for the 2026/2027 Financial Year.
7. THAT the Consequence Management Policy be reviewed and presented in the next Risk Committee Meeting.
8. THAT the draft SOPs as required by COGTA on the Non-Negotiables Booklet be presented in the next Risk Committee Meeting.
9. THAT all the Annual Target should be broken down into quarterly targets.
10. THAT the budget for the implementation of Risk Action Plans be included on the Risk Register.
11. THAT Treasury and COGTA be invited to the Municipality for the training on the calculation of the Risk Appetite for the Municipality.
12. THAT Management develop and submit a Risk Appetite and Risk Tolerance Framework for consideration by the Risk Committee and approval by Council during the 2026/2027 financial year.
13. THAT the performance of the Risk Chairperson be evaluated annually for consistency with the requirements.

NCM017/08/2026
REPORT DATED 20 AUGUST 2026 FROM THE MUNICIPAL MANAGER TO THE COUNCIL: PUBLIC PARTICIPATION PROCESS: REQUEST TO PURCHASE A PORTION OF THE ROAD RESERVE OF ERF 1014 (PROSPECT LANE), PORT ALFRED: ESTATES SECTION

COUNCIL RESOLVED

a) THAT the motivation submitted by the owners, S D and C B Buso of Erf 1015, Seaview Terrace, Port Alfred, requesting the purchase of a portion of the road reserve of Erf 1014 (Prospect Land), Port Alfred, **BE NOTED**.

b) THAT approval **BE GRANTED** for the commencement of a public participation process, in accordance with the applicable legislative prescripts, in respect of the proposed disposal of 197 m² of municipal property for the purpose of regularising the existing encroachments, comprising a carport, water tanks and a gate, as indicated on Layout Plan No. 9096, subject to the following conditions:

- All costs associated with public notices, administrative processing, surveying, subdivision, conveyancing and transfer shall be borne by the applicant.
- The public participation process shall include publication in local print media, placement of notices on municipal notice boards, and publication on the official website of Ndlambe Municipality.
- Upon completion of the public participation process, a comprehensive report containing all comments, objections and representations received shall be submitted to the relevant Ward Committee and Council for final consideration.

d) THAT it **BE NOTED** that a portion of the road reserve of Erf 1014 (Prospect Land), Port Alfred, measuring approximately 197 m², is the subject of the proposed disposal and that ownership of Erf 1014 (Prospect Land) vests in William Shepherd under Deed of Transfer No. T536/1837.

e) THAT it **BE NOTED** that the affected portion of land qualifies as non-viable property in terms of Clause 9.6.1 of the Ndlambe Municipality Land Disposal Policy and may be considered for disposal by way of an out-of-hand sale to the adjoining landowner, subject to compliance with all statutory requirements.

f) THAT it **BE NOTED** that, in terms of Section 77(1) of the Spatial Planning and Land Use Management By-Laws, 2015, read with Section 122 of Ordinance 20 of 1974, ownership of land designated as a public street or public place vests in the Municipality upon confirmation of subdivision.

NCM018/08/2026
REPORT DATED 20 AUGUST 2026 FROM THE MUNICIPAL MANAGER TO THE COUNCIL: PUBLIC PARTICIPATION PROCESS: REQUEST TO PURCHASE PORTIONS OF ERF 950 (STREET) AND ERF 394 (PUBLIC OPEN SPACE), BOESMANSRIVIERMOND: ESTATES SECTION

COUNCIL RESOLVED

a) THAT the application dated 20 May 2026 submitted by Mirinda de Beer, Professional Town and Regional Planner, on behalf of Mr Johannes Gerhardus Strydom, registered owner of Erf 310 Boesmansriviermond, requesting the purchase of portions of Erf 950 Boesmansriviermond (Street) and Erf 394 Boesmansriviermond (Public Open Space), **BE NOTED**.

b) THAT approval **BE GRANTED** for the commencement of a public participation process in terms of the applicable legislative prescripts regarding the proposed disposal of:

- 174 m², being a portion of Erf 950 Boesmansriviermond (Street); and
- 28 m², being a portion of Erf 394 Boesmansriviermond (Public Open Space),

for the purpose of regularising the existing encroachments by Erf 310 Boesmansriviermond, namely the extension of the property through boundary fencing and a permanent outbuilding onto a portion of Erf 950 Boesmansriviermond, and the encroachment of a timber deck on stilts and boundary fencing onto a portion of Erf 394 Boesmansriviermond Beacon Certificate (WG27).

c) THAT the public participation process **BE CONDUCTED** subject to the following conditions:

- All costs associated with public notice shall be borne by the applicant.
- The process shall include publication in local print media, placement on municipal notice boards and publication on the official website of the Ndlambe Municipality.
- Upon conclusion of the public participation process, a comprehensive report containing all comments, objections and representations received shall be submitted to the relevant Ward Committee for consideration and a final report submitted to Council for consideration and a final decision regarding the proposed disposal of the affected municipal land.

d) THAT it **BE NOTED** that Erf 950 Boesmansriviermond is zoned Transport Zone 2 and Erf 394 Boesmansriviermond is zoned Public Open Space 1 and registered in the name of the Ndlambe Municipality under Deed of Transfer No's. T8958/1950 and G249/1972, respectively.

e) THAT it **BE NOTED** that the affected portions of Erf 950 Boesmansriviermond and Erf 394 Boesmansriviermond are regarded as non-viable municipal property in terms of Clause 9.6.1 of the Ndlambe Municipality Land Disposal Policy and may therefore be considered for disposal by direct sale (out-of-hand) to the adjoining landowner, subject to compliance with all statutory and municipal requirements.

NCM019/08/2026

REPORT DATED 20 AUGUST 2026 FROM THE MUNICIPAL MANAGER TO COUNCIL: JOINT VENTURE AGREEMENT: NDLAMBE MUNICIPALITY / NELISA-MAKHI TRUST PROPOSED DISPOSAL OF ERF 3133, KARIEGA HEIGHTS, KENTON-ON-SEA: SUBMISSION OF INDEPENDENT VALUATIONS AND DETERMINATION OF PURCHASE PRICE: ESTATES SECTION

COUNCIL RESOLVED

a) THAT it **BE NOTED** that Condition 3(ii) of Council Resolution NCM018/10/2025 dated 31 October 2025 required three independent professional valuations to be obtained to determine the market purchase price of Erf 3133, Kenton-on-Sea, with the highest valuation constituting the agreed purchase price.

b) THAT it **BE NOTED** that the following independent professional valuations were obtained in respect of Erf 3133, Kenton-on-Sea:

   i) Penny Lindstrom Valuations (Registration No. 4968/9) dated 1 June 2026, determining a market value of R6 150 000 excluding VAT;

   ii) Black Dot Property Consultants (Registration No. 5063) dated 11 June 2026, determining a market value of R4 160 000; and

   iii) Letlaka Ndamase (Registration No. 5435/7) dated 5 June 2026, determining a market value of R3 900 000.

c) THAT it **BE APPROVED** that, in accordance with Condition 3(ii) of Council Resolution NCM018/10/2025, the highest valuation obtained, being the valuation undertaken by Penny Lindstrom Valuations in the amount of R6 150 000 excluding VAT, be accepted as the agreed purchase price for the proposed disposal of Erf 3133, Kariega Heights, Kenton-on-Sea.

d) THAT it **BE CONFIRMED** that Erf 3133, Kariega Heights, Kenton-on-Sea, is not required for the provision of the minimum level of basic municipal services as contemplated in section 14 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003), and that the disposal of the property will not adversely affect the Municipality's ability to provide such services.

e) THAT it **BE NOTED** that all costs associated with obtaining the independent valuations were borne by the Nelisa-Makhi Trust in compliance with Condition 3(iii) of Council Resolution NCM018/10/2025.

f) THAT it **BE APPROVED** that the disposal of Erf 3133, Kariega Heights, Kenton-on-Sea, to the Nelisa-Makhi Trust proceed subject to the following conditions:

i) The purchase price shall be R6 150 000 excluding VAT.

ii) All costs associated with the transfer of Erf 3133, including conveyancing fees, Deeds Office fees, transfer duty (where applicable), and any other costs necessary to effect registration, shall be borne solely by the Nelisa-Makhi Trust.

iii) Transfer of the property shall be effected in accordance with the provisions of the Deeds Registries Act, 1937 (Act No. 47 of 1937), as amended.

iv) Within three (3) months of registration of transfer, the Developer shall submit the necessary land use application for approval of the proposed business park development and shall comply with all applicable statutory, zoning and planning requirements.

v) The Developer shall formally accept, in writing, all conditions imposed by Council prior to transfer of the property.

vi) The Draft Addendum to the Joint Venture Agreement between Ndlambe Municipality and the Nelisa-Makhi Trust, attached as an annexure, be approved and finalised by the duly authorised representatives of both parties, subject to the mutual acceptance of the terms thereof by Ndlambe Municipality and the Nelisa-Makhi Trust.

vii) The Draft Addendum to the Joint Venture Agreement between Ndlambe Municipality and the Nelisa-Makhi Trust, attached as an annexure, be approved and finalised by the authorised representatives of both parties upon mutual acceptance of the purchase price of R6,150.000 excluding VAT by both Ndlambe Municipality and the Nelisa-Makhi Trust.

viii) The redevelopment of Erf 3133 Kenton-On-Sea shall comprise a business park incorporating business storage and boat storage facilities, subject to all required statutory approvals being obtained.

g) THAT the Municipal Manager **BE AUTHORISED** to sign all agreements, transfer documentation and any ancillary documentation necessary to give effect to the disposal and transfer of Erf 3133, Kenton-On-Sea.

NCM020/08/2026

REPORT DATED 20 AUGUST 2026 FROM THE MUNICIPAL MANAGER TO COUNCIL: PUBLIC PARTICIPATION PROCESS: REQUEST BY UNITED ETHIOPIAN CHURCH OF AFRICA TO PURCHASE ERVEN 8270 AND 8271, THORNHILL, PORT ALFRED – APPROVAL TO INITIATE PUBLIC PARTICIPATION PROCESS: ESTATES SECTION

COUNCIL RESOLVED

a) THAT the applications submitted by the United Ethiopian Church of Africa dated 8 May 2026 and 11 May 2026 for the possible acquisition of Erven 8270 and 8271, Thornhill, Port Alfred, **BE NOTED**.

b) THAT it **BE NOTED** that the properties are municipal assets and that any decision regarding their disposal will be subject to a full statutory evaluation process, including public participation and compliance with the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003).

c) THAT approval **BE GRANTED** for the initiation of a public participation process in terms of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) and the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003), subject to the following conditions:

   i. **Cost of Public Participation**

      The applicant shall be responsible for all costs associated with the publication and administration of the public participation process.

   ii. **Post-Public Participation Submission**

      Upon completion of the public participation process, a comprehensive report containing all comments, objections and representations received shall be compiled and submitted to the relevant Ward Committee for consideration, after which it shall be submitted to Council for consideration and decision-making.

d) The it **BE NOTED** that the properties are registered in the name of the Ndlambe Local Municipality under Title Deed No T51490/2010 and comprise a combined extent of 3298 m².

e) THAT it **BE NOTED** that this resolution does not constitute approval of the disposal of the properties or approval of the proposed development.

f) THAT it **BE NOTED** that the public participation process is a statutory requirement and does not constitute approval of the proposed disposal or development.

***

NCM021/08/2026

REPORT DATED 20 AUGUST 2026 FROM THE MUNICIPAL MANAGER TO THE COUNCIL: PUBLIC PARTICIPATION PROCESS: REQUEST TO PURCHASE A PORTION OF REMAINDER ERF 1111 KENTON-ON-SEA (PUBLIC OPEN SPACE): ESTATES SECTION

COUNCIL RESOLVED

a) THAT the application dated 20 May 2026, submitted by M E H Sülter & Son Professional Land Surveyors on behalf of Idtek Solutions (Pty) Ltd (Registration No. 2014/174093/07), the registered owner of Erf 1911 Kenton-on-Sea, which property is utilised for The Jerries Hotel and associated restaurant facility, requesting the purchase of approximately 267 m², being a portion of Remainder Erf 1111 Kenton-on-Sea, known as the Joan Muirhead Nature Reserve, **BE NOTED**.

b) THAT approval **BE GRANTED** for the commencement of a statutory public participation process in terms of the applicable legislative prescripts regarding the proposed disposal of approximately 267 m², being a portion of Remainder Erf 1111 Kenton-on-Sea, for consolidation with Erf 1911 and the reinstatement of two timber viewing decks.

c) THAT the statutory public participation process **BE CONDUCTED** subject to the following conditions:

- All costs associated with the statutory public participation process shall be borne by the applicant.
- The process shall include publication in the local press, placement on municipal notice boards and publication on the official website of the Ndlambe Municipality.
- Upon completion of the public participation process, a comprehensive report containing all comments, objections and representations received shall be submitted to the relevant Ward Committee for consideration.
- Thereafter, a final report shall be submitted to the Council for consideration and a final decision regarding the proposed disposal of the affected municipal land.

d) THAT it **BE NOTED** that Remainder Erf 1111 Kenton-on-Sea, measuring 109.7328 hectares, is zoned Public Open Space Zone III, is known as the Joan Muirhead Nature Reserve, and is registered in the name of New Kenton Prop (Pty) Ltd under Deed of Transfer No. T55596/2000.

e) THAT it **BE NOTED** that, in terms of section 77(1) of the Ndlambe Municipality Spatial Planning and Land Use Management By-Law, 2015, read with section 122 of Ordinance 20 of 1974, ownership of land designated as Public Open Space vests in the Municipality upon confirmation of the relevant subdivision.

f) THAT it **BE NOTED** that the approximately 267 m² portion of Remainder Erf 1111 Kenton-on-Sea is regarded as non-viable land in terms of Clause 9.6.1 of the Ndlambe Municipality Land Disposal Policy, as it cannot reasonably be utilised or developed independently and can only be incorporated into the adjoining property, Erf 1911 Kenton-on-Sea. The portion may therefore be considered for disposal by direct sale (out-of-hand) to the adjoining owner, subject to compliance with all applicable statutory and municipal requirements.

g) THAT it **BE NOTED** that approval of the commencement of the statutory public participation process shall not be construed as approval of the proposed disposal of the municipal land, and that the matter shall be referred back to Council for a final decision after completion of the public participation process and consideration of all comments, objections and representations received.

NCM024/08/2026
REPORT DATED 20 AUGUST 2026 FROM THE MUNICIPAL MANAGER TO COUNCIL: APPROVAL OF THE IDP, TARIFF AND BUDGET PROCESS PLAN 27-28

COUNCIL RESOLVED

1. THAT Council notes that the 2027/28 IDP, Tariff and Budget cycle takes place across the 4 November 2026 local government election and must provide for both outgoing-term closure and incoming-Council priority-setting.

2. THAT Council adopts the 2027/28 IDP, Tariff and Budget Process Plan, including Annexure A and Annexure B, as the Municipality's annual process and timetable for preparation and adoption of the 2027/28 planning, budget, tariff and performance package.
3. THAT Council confirms that adoption of the Process Plan approves the process, structures, responsibilities and timetable and does not determine or restrict the incoming Council's lawful five-year political and strategic direction.
4. THAT the Approved Process Plan be publish and circulate from 30 August 2026.
5. THAT the Municipal Manager commence the open nomination and verification process for the expanded IDP Representative Forum during September 2026, in accordance with the Process Plan.
7. THAT all directors, deputy directors, responsible managers and relevant officials be instructed to submit complete, accurate and evidence-supported transition, financial, tariff, project, risk, sector and performance information within the timeframes in Annexures A and B.
8. THAT each directorate produces an implementation plan that meets the specific activity and time frames of the approved Process Plan which their directorate is responsible for.
9. THAT the Municipal Manager, through the IDP Steering Committee, monitor implementation of the Process Plan and report material delays, risks or required changes to the Mayor and Council.
10. THAT the incoming Council be provided with the verified Municipal Transition and IDP Baseline Report within ten working days after its first meeting and be invited to confirm or lawfully amend the remaining process and structures.
11. THAT an induction booklet be developed for the upcoming Councillors, containing comprehensive information on the various departments within Ndlambe Municipality, the services rendered by each department, and the relevant contact details of departmental representatives. The booklet will serve as a valuable reference tool to assist the new upcoming Councillors during their induction and enable them to effectively engage with the relevant municipal departments when addressing matters within their respective wards.

REPORT ON IMPLEMENTATION OF COUNCIL RESOLUTIONS

ANNEXURE C.04

		progress on the Project. **PREVIOUS PROGRESS** The progress on Contract 15 Pipeline is currently at 98% completion in respect of the physical infrastructure works. The contractor has commenced with the hydrostatic testing of the pipeline and is currently attending to repairs on the first leak detected during the testing process. It should be noted that the contractor has experienced delays due to insufficient water availability required for testing purposes. Consequently, the limited water supply currently available is being carefully rationed between pipeline testing activities and the provision of water to the community. In this regard, water supply to the community will continue to take precedence should available water volumes decline further.		after which further testing will be conducted to verify the integrity of the pipeline.	
		30 MARCH 2023			
2.	NCM016/ 03/2023	Report Dated 15 March 2023 from the Municipal Manager to Council: **On-Site Verification of Municipal Buildings And Land Leased to Various Tenants as State The Current Lease Schedule: Estates Section.**	Infrastructure/ Estate.	The status quo remains unchanged, pending receipt of an updated verification report on all municipal buildings and land from the service provider, after which the exercise will continue.	

		COUNCIL RESOLVED 1. THAT it BE NOTED that this verification exercise will now be extended to determine whether any other municipal buildings or vacant land is used by any other tenants without the necessary lease agreements being in place. 2. THAT a progress report on what has been done so far be submitted in the next Council meeting. **PREVIOUS PROGRESS** The status quo remains unchanged, pending receipt of an updated verification report on all municipal buildings and land from the service provider, after which the exercise will continue.			
		31 OCTOBER 2025			
3.	**NCM027/ 10/2025**	Report dated 23 October 2025 from the municipal manager to Council: Supply Chain Management report for the quarter ended 30 September 2025 **COUNCIL RESOLVED** **1.** THAT the Supply Chain Management report for the quarter that ended 30 September 2025 and the supporting documentation in this report **BE NOTED.** **2.** THAT a detailed report on the ABSA Devco contract be submitted in the next Council	Municipal Manager/ Finance	The Dept of Human Settlement is busy engaging with the state attorney to get an opinion. So, we are still waiting to get feedback from the Dept.	

		meeting. **PREVIOUS PROGRESS** a) THAT BE NOTED that it was resolved in the meeting on the 21 May 2026 to obtain a legal opinion on the matter and a full report thereof will be submitted once Ndlambe has received a legal opinion.

   Step One: Immediate superior 5
   Step Two: Head of Department 6
   Step Three: Municipal Manager 6
8. POLICY MONITORING AND EVALUATION 7

1. PREAMBLE

The Municipality believes in ensuring the highest standards of professional and ethical conduct. In pursuing these, the Municipality shall make all efforts to resolve grievances as quickly as possible with the utmost concern for reconciling and respecting the privacy concerns of employees.

2. PURPOSE

The purpose is to ensure a fair environment to resolve problems and conflict as quickly as possible, through formal measures beyond informal and verbal interventions, and to ensure substantive and procedural fairness by resolving problems as quickly and as close to their source as possible and dealing with conflict through procedural and consensual means.

3. SCOPE

This policy applies to all employees of the Municipality who fall within the scope of the South African Local Government Bargaining Council, and it is deemed to be a condition of service in accordance with clause 13.1.1 of the Main Collective Agreement.

4. LEGISLATIVE AND POLICY FRAMEWORK

- Constitution of the Republic of South Africa Act 108 of 1996
- Labour Relations Act 66 of 1995 (the Act)
- SALGBC Main Collective Agreement 2015 (as amended, extended or replaced from time to time), in particular Section C, Clause 13 (Grievance Procedure), Clause 23.20 (definition of grievance) and Annexure 5 (Grievance Form)
- Municipal Systems Act 32 of 2000
- Municipal Structures Act 117 of 1998
- Local Government: Regulations on appointment and conditions of employment of senior managers, dated 17 January 2014
- Local Government: Municipal Staff Regulations, 2016 (issued in terms of Section 72, read with Section 120 of the Municipal Systems Act 32 of 2000)
- Local Government: Guidelines for the Implementation of the Municipal Staff Regulations, 2016 (issued in terms of Section 72, read with Section 120 of the Municipal Systems Act 32 of 2000)
- Municipal Finance Management Act 56 of 2003
- Employment Equity Act 55 of 1998
- Basic Conditions of Employment Act 75 of 1997
- Skills Development Act 97 of 1998

5. DEFINITIONS

All terminology used in this policy shall bear the same meaning as in the applicable legislation, or as defined and / or explained in the Glossary of the Human Resources Policies Manual.

In addition, the following definition from the Main Collective Agreement applies:

Grievance means a complaint by an employee or group of employees against another employee and/or any act or omission of the employer which adversely affects an employee in the employment relationship, excluding an unfair dismissal, a written allegation of misconduct, or any other dispute which is regulated by a separate procedure in the agreement.

Day means Monday to Friday, excluding public holidays, unless indicated otherwise by the context.

Immediate superior means the first level of supervision to whom the aggrieved employee reports.

Head of Department means the senior manager responsible for the department in which the aggrieved employee is employed, and includes his or her nominee.

Municipal Manager means the municipal manager of the Municipality, and includes his or her nominee.

Shop Steward means a trade union representative as defined in the Act.

6. PROBLEM STATEMENT

Speedy resolution of grievances is very important to avoid litigious long processes. Grievances that are not resolved within the time frames of the collective agreement create conflict, delay and avoidable referrals to the bargaining council.

7. POLICY PROVISIONS

7.10 Grievance resolution framework

7.1.1 The grievance resolution framework is aimed at providing management and staff members of the Municipality with a credible mechanism for resolving staff grievances fairly, objectively and expeditiously.

7.1.2 A staff member may not use the grievance resolution mechanisms:

7.1.2.1 to amend any performance agreement or terms and conditions of any performance agreement concluded between that staff member and the Municipality;

7.1.2.2 to process a disciplinary matter or dismissal; or

7.1.2.3 for the purposes of collective bargaining.

7.1.3 A grievance in terms of this policy does not include an unfair dismissal, a written allegation of misconduct, or any other dispute which is regulated by a separate procedure in the Main Collective Agreement.

7.1.4 All grievances shall be resolved as soon as possible and at the lowest possible level in the reporting structure.

7.1.5 A grievance that is brought to management's attention shall be considered in a fair manner.

7.1.6 Neither a staff member nor his or her representative shall suffer any prejudice, directly or indirectly, including victimisation or occupational prejudice, in their employment because they lodged or participated in a grievance in terms of this policy.

7.1.7 The grievance proceedings shall be conducted in compliance with the standards of procedural fairness.

7.1.8 The parties to the grievance shall disclose relevant documents which may assist to resolve a grievance except that no party is required to disclose information that:

7.1.8.1 is legally privileged;

7.1.8.2 the Municipality cannot disclose without contravening a prohibition imposed on it by any law or order of any court;

7.1.8.3 is confidential and, if disclosed, may cause substantial harm to a staff member or the Municipality; or

7.1.8.4 is private personal information relating to a staff member, unless that member of staff consents to the disclosure of the information.

7.1.9 All proceedings and meetings relating to a grievance shall be considered to be confidential.

7.1.10 An aggrieved staff member may be assisted by a fellow employee, a shop steward or a union official at any stage of the grievance procedure, but may not be represented by a legal practitioner.

7.1.11 Nothing in this policy shall prevent a trade union from pursuing a dispute in its own capacity in terms of any agreed or other disputes procedure, provided it has the right in law to pursue such dispute.

7.1.12 An aggrieved staff member who has referred a grievance shall take reasonable steps to exhaust the grievance procedures prior to referring a dispute to the bargaining council, provided that where a grievance has not been resolved to the satisfaction of the aggrieved party at the final step of the procedure, that party may refer the grievance to

the Council for adjudication, provided that a dispute has been declared and the party is entitled in law to declare such a dispute.

7.1.13 The parties shall take steps to ensure that employees and managers are informed about this procedure and are trained to implement it effectively.

7.11 Roles and responsibilities

7.2.1 The Municipal Manager or his / her delegated assignee(s) accept overall responsibility for the implementation and monitoring of the policy.

7.2.2 The financial implications related to implementing this policy shall be qualified and quantified by Human Resource Management in consultation with the Chief Financial Officer.

7.2.3 The immediate superior, the Head of Department or his / her nominee, and the Municipal Manager or his / her nominee shall, at the step for which each is responsible, endeavour to resolve the grievance within ten (10) days and shall inform the aggrieved employee or employees of the outcome in writing.

7.2.4 Heads of Department shall ensure that the grievance forms prescribed in Annexure A are available in their departments and that supervisors are trained on this procedure.

7.2.5 Shop stewards, fellow employees and union officials assisting an aggrieved employee shall participate in the procedure in good faith and in accordance with its time frames.

7.12 Grievance procedure

The grievance procedure below gives effect to Clause 13 of the SALGBC Main Collective Agreement, 2015, which is deemed to be a condition of service.

Step One: Immediate superior

7.12.1.1 An aggrieved employee or group of employees must lodge a grievance in writing with his or her immediate superior on the prescribed form in Annexure A, setting out the complaint and the desired result.

7.12.1.2 Should the grievance concern the conduct of the employee's immediate superior, the employee may proceed directly to Step Two, provided that he or she submits the grievance on the prescribed form.

7.12.1.3 Should the grievance concern the conduct of the Head of Department, the employee may proceed directly to Step Three, provided he or she submits the grievance on the prescribed form.

7.12.1.4 The immediate superior shall, wherever practically possible, endeavour, in consultation with the affected employee or employees, to resolve the grievance within ten (10) days of the grievance having been referred to him or her and shall inform the employee of the outcome in writing.

7.12.1.5 The employee may, if he or she so wishes, be assisted by a shop steward, fellow employee or union official.

Step Two: Head of Department

7.12.2.1 If a grievance has not been resolved to the satisfaction of the aggrieved employee or group of employees within ten (10) days of lodging in terms of paragraph 7.12.1.4, the employee or employees may refer the matter in writing within ten (10) days to the Head of Department or his or her nominee.

7.12.2.2 The Head of Department or his or her nominee shall arrange a meeting to consult and hold discussions with the affected parties in an attempt to achieve a resolution.

7.12.2.3 The employee or employees may be assisted by a fellow employee, shop steward or union official at such a meeting, and the immediate superior may also be required to attend.

7.12.2.4 The Head of Department or his or her nominee shall endeavour to resolve the grievance within ten (10) days of the grievance being referred and shall inform the employee of the outcome in writing.

Step Three: Municipal Manager

7.12.3.1 If the grievance has not been resolved to the satisfaction of the aggrieved employee or group of employees within ten (10) days of the referral in terms of paragraph 7.12.2.4, the employee or employees may refer it in writing to the Municipal Manager or his or her nominee within ten (10) days.

7.12.3.2 The Municipal Manager shall hold a meeting, attended by the employee or employees and their representative, if required, and any other persons who, in the opinion of the Municipal Manager or his or her nominee, should attend.

7.12.3.3 The Municipal Manager or his or her nominee shall hear details of the grievance, including proposals to resolve the issue, and shall endeavour to reach an agreed outcome within ten (10) days of the referral in terms of paragraph 7.12.3.1.

7.12.3.4 The Municipal Manager or his or her nominee shall inform the employee or employees in writing of the outcome of the hearing, and such outcome shall be final in terms of this procedure.

7.12.3.5 If a grievance is against the Municipal Manager, the aggrieved employee may refer the grievance to the Mayor or Executive Mayor, who may either seek to resolve the grievance himself or herself or engage the assistance of an appropriate Senior Manager of another Municipality to help resolve the grievance.

7.12.3.6 If a grievance has not been resolved to the satisfaction of the aggrieved party, that party may refer the grievance to the Council for adjudication, provided that a dispute has been declared and the party is entitled in law to declare such a dispute.

8. POLICY MONITORING AND EVALUATION

8.1 This policy shall be implemented and effective once recommended by the Local Labour Forum and approved by Council.

8.2 Non-compliance to the stipulations contained in this policy shall be regarded as misconduct, which shall be dealt with in terms of the Code of Conduct.

8.3 The Head of Corporate Services shall carry out the monitoring and evaluation of the policy's implementation.

The grievance form below corresponds to Annexure 5 of the SALGBC Main Collective Agreement, 2015, and must be used for every grievance lodged in terms of this policy.

9. **ADMINISTRATION** 6

1. Preamble

1.1 This policy regulates acting appointments to, and the payment of acting allowances in respect of, senior management positions in the Municipality, namely the position of Municipal Manager and the positions of managers directly accountable to the Municipal Manager (section 56 managers).

1.2 The policy gives effect to the Municipality's obligation to ensure continuity of governance and administration when a senior manager is absent or a senior management post is vacant.

2. Definitions

In this policy, unless the context indicates otherwise:

2.1 **"senior manager"** means a municipal manager or acting municipal manager appointed in terms of section 54A of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000), and includes a manager directly accountable to a municipal manager appointed in terms of section 56 of that Act.

2.2 **"Municipal Manager"** means the municipal manager appointed in terms of section 54A of the Systems Act.

2.3 **"acting appointment"** means the temporary assignment of an employee to perform the duties of a more senior position in terms of this policy.

2.4 **"consecutive days"** means successive calendar days, and expressly includes Saturdays, Sundays and public holidays as stipulated in the Public Holidays Act, 1994 (Act No. 36 of 1994).

2.5 **"total remuneration package"** means the total cost of a senior manager's remuneration to the Municipality, including salary, pension contributions, medical aid contributions and other forms of payment or benefit.

3. Scope of application

3.1 This policy applies to all employees of the Municipality who are appointed to act in a senior management position, namely:

3.1.1 a Senior Manager (section 56 manager) acting in the position of Municipal Manager; and

3.1.2 a Manager or Deputy Director acting in the position of a Senior Manager (section 56 manager).

3.2 Municipal Managers and managers directly accountable to the Municipal Manager fall outside the scope of the collective agreement on conditions of service of the Eastern Cape Division of the SALGBC, and this policy accordingly applies to them in place of clause 16 of that agreement.

4. Qualifying period: counting of days

4.1 An acting allowance becomes payable only where the employee acts in the higher position for a period of not less than 10 (ten) consecutive days.

4.2 The 10 consecutive days shall be counted as consecutive calendar days, and Saturdays, Sundays and public holidays shall be counted in determining whether the period of 10 consecutive days has been served. The qualifying period is therefore not interrupted by weekends or public holidays falling within it.

4.3 Where the employee acts for less than 10 consecutive days, no acting allowance is payable in respect of that period.

5. Authority to appoint

5.1 Senior Manager acting as Municipal Manager: Where a Senior Manager is to act in the position of Municipal Manager, the acting appointment is made by the Municipal Manager, subject to the circumstances and periods prescribed in terms of the Systems Act, as amended by the Local Government: Municipal Systems Amendment Act, 2022.

5.2 Manager/Deputy Director acting as Senior Manager: Where a Manager or Deputy Director is to act in the position of a Senior Manager, the acting appointment is made by the Municipal Manager.

5.3 No acting allowance may be paid unless the employee has been duly appointed in writing in accordance with 5.1 or 5.2 before the acting period commences.

5.4 Unless operational requirements dictate otherwise, acting appointments shall be confined to employees who report directly to the applicable acting position.

6. Calculation of the acting allowance

6.1 Where a Senior Manager acts in the position of Municipal Manager, the acting allowance shall be calculated at an annual rate equal to the difference between the

Senior Manager's current total remuneration package and the total remuneration package of the Municipal Manager as determined by the municipal council, and shall be paid in addition to the employee's own remuneration for the period of the acting appointment.

6.2 Where a Manager or Deputy Director acts in the position of a Senior Manager, the calculation of acting allowance paid to the Manager/Deputy Director performing the acting duties in the Senior Managers post shall be based on 60% of the total remuneration package of the Senior Managers post in which the employee acts, and shall be paid in addition to the employee's own salary for the period of the acting appointment.

6.3 Where an employee's salary is equal to or higher than the commencing notch of the salary scale of the post in which the employee acts, an acting allowance fixed at 2,5% (two comma five percent) of the employee's basic salary shall be paid.

6.4 The acting allowance shall be apportioned on a daily basis for any incomplete month within the acting period, calculated on the same consecutive-day basis set out in clause 4.

7. Interruption of the acting period

7.1 Any interruption of less than three consecutive days in total shall be deemed to form part of the acting period if occasioned by any of the following circumstances:

7.1.1 illness supported by a medical certificate;

7.1.2 family bereavement; or

7.1.3 attendance at court as a witness, if subpoenaed.

7.2 Any other interruption shall be regarded as a break in service of the acting period, and clause 4 shall apply afresh to any resumed acting period.

8. Review and duration

8.1 Subject to operational requirements, acting appointments to vacant posts shall be reviewed within 3 (three) months of the date of appointment.

8.2 Vacant posts on the Municipality's approved staff establishment should be filled within 6 (six) months unless there is a compelling reason not to do so.

8.3 An acting allowance shall cease on the day the employee vacates the acting position or the substantive incumbent resumes duty, whichever occurs first.

9. Administration

9.1 The acting appointment and the basis of the allowance must be recorded in writing, signed by the appointing authority referred to in clause 5, and submitted to Corporate Services and Finance for implementation in the payroll.

9.2 Any dispute regarding the application of this policy shall be dealt with in terms of the Municipality's grievance procedure.

CHAPTER 01

Chapter1

1. Executive Summary

The revised Ndlambe LM's Local Economic Development Strategy 2023-2028 seeks to set out a strategic path and trajectory for local economic development over the next 5 years.

It took longer than expected to review the 2014-2019 strategy owing to a number of reasons that will be discussed later in the situational analysis of this document. Following the completion of the Integrated Development Plan for the year 2022-2027, Ndlambe LM embarked on a development of the Local Economic Development Strategy in line with he 1998 White Paper on Local Government.

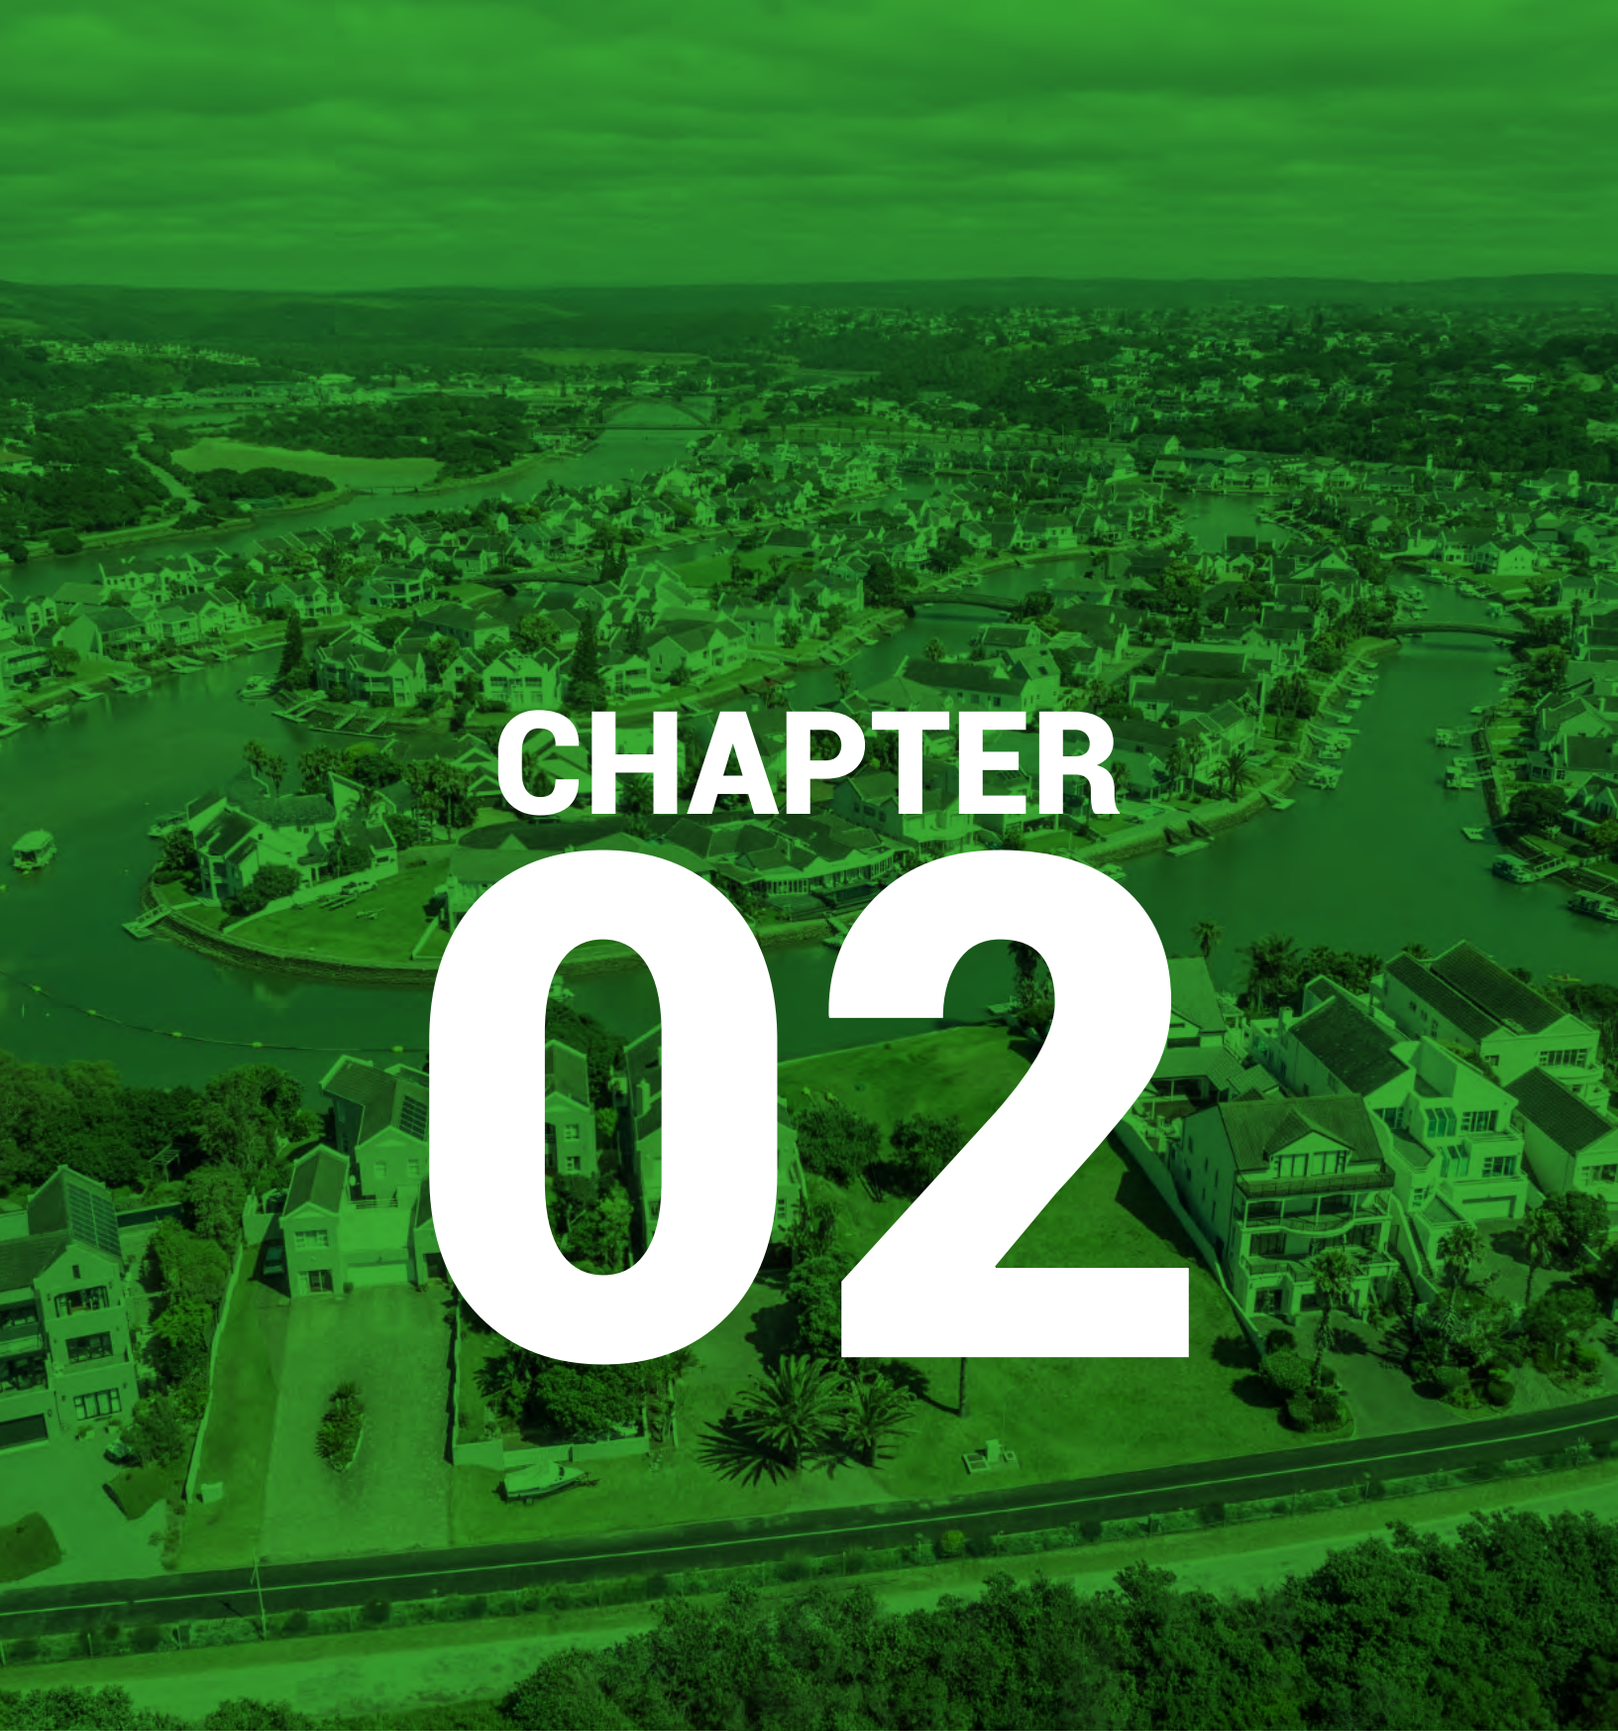

The IDP places Local Economic Development as one of the Key Performance Area under the stewardship of the Municipal Managers Office in line with the 1998 White Paper on Local Government. It embarked on this process as obligated by Chapter 7, Section 152 of the Constitution of the Republic of South Africa Act No. 108 of 1996 to promote socio-economic development within its jurisdiction, and in concurrence with the White Paper on Local Government of 1998, which mandates the municipality to create a conducive and enabling environment for socio-economic development to take place.

The strategy contained herein is based on an **Integrated Strategic Planning Model (ISPM)** and is an outcome of a rigorous socio-economic review, the review of the performance on the 2014-2019 LED objectives, and a consultative process of all relevant stakeholders, including but not limited to, COGTA, DEDEAT, Ndlambe LM Council and departments.

In developing the strategy Ndlambe LM considered the **key guiding principles of Local Economic Development** set up by National Local Economic Development Framework with emphasis on a development approach, which works with National and Provincial Governments, Private sector, regional institutions, faith-based institutions, civil society and many others to fulfil a local vision of Economic Development. The following literature was also reviewed in formulating this strategy document: -

The main strategic goal of the Ndlambe Local Economic Development Strategy is to attain a sustainable economic growth, with a growth rate that exceeds the provincial rate which is a barometer with which to measure the performance of this coastal municipality. The projected growth rate is underpinned by an increase in output, employment growth and increase in household income in urban and rural hinterland in the next five years. The NLM also seeks to use the LED Strategy as a guiding document to deliver on the objective of job creation, poverty eradication and thus improve the quality of lives of the residents of the municipality.

CHAPTER 02

Chapter 2

Strategy Development Approach

The model that has been used to revise the LED strategy of the Ndlambe Local Municipality is as follows:

Key phases as outlined in the ISPM were carried out and implemented through various integrated activities which solicited inputs from internal and external municipal stakeholders at different engagement and public participation platforms. Each of the activities and inputs resulted in various outputs that constituted critical components of the strategy as contained in the full text of this document whilst others have been included as annexures to the Revised Strategy. The Provincial Department of Cooperative Government and Traditional Affairs (COGTA), the Department of Economic Development Environment and Tourism (DEDEAT) also formed part of the consultative meetings with outputs formulating what is to be the LED Strategy document.

LEGISLATIVE CONTEXT FOR LOCAL ECONOMIC DEVELOPMENT

Constitution of the Republic of South Africa: Act 108 of 1996:

The most important legislation is the Constitution of the Republic of South Africa (Act 108 of 1996). Section 152(1) outlines the objectives of local government as follows:

- To provide democratic and accountable government for local communities
- To ensure the provision of services to communities in a sustainable manner
- To promote social and economic development
- To promote a safe and healthy environment
- To encourage the involvement of communities and community organisation in the matters of local government
- **Section 153,** Places an obligation on local government to promote social and economic development.
- Furthermore, section 154 asserts that national and provincial governments, by legislative and other measures must support and strengthen the capacity of municipalities to manage their own affairs, to exercise their powers and perform their functions.

White Paper on Local Government (1998)

Developmental local government is local government committed to working with citizens and groups within the community to find sustainable ways to meet their social, economic, and material needs and improve the quality of their lives.

The Constitution enshrines the rights of all people in our country to dignity, equality before the law, freedom, and security. It affirms our rights to freedom of religion, expression, culture, association, and movement, as well as our political, labour and property rights.

The Constitution commits government to take reasonable measures, within its available resources, to ensure that all South Africans have access to adequate housing, health care, education, food, water and social security.

The reality in our cities, towns and rural areas are far from this ideal. Many of our communities are still divided. Millions of our people live in dire poverty, isolated from services and opportunities.

The previous local government system did very little to help those with the greatest needs. The current transitional system has not yet been able to do much to reverse these long-standing patterns of inequity and unmet human needs.

In the future developmental local government must play a central role in representing our communities, protecting our human rights, and meeting our basic needs. It must focus its efforts and resources on improving the quality of life of our communities, especially those members and groups within communities that are most often marginalised or excluded, such as women, disabled people, and very poor people.

Developmental local government has four interrelated characteristics:

Maximising social development and economic growth.	**Integrating and coordinating**
Democratising development	**Leading and learning.**

These four characteristics of a developmental local government are further explained below.

Maximizing social development and economic growth.

The powers and functions of local government should be exercised in a way that has a maximum impact on the social development of communities - in particular meeting the basic needs of the poor - and on the growth of the local economy. Through its traditional responsibilities (service delivery and regulation), local government exerts a great influence over the social and economic well-being of local communities.

The implication for the Ndlambe LM LED Strategy is to provide a mandatte for LED to create and enabling environment for sustainable economic growth.

New Growth Path

The New Growth Path (NGP) is government's action towards targeting mass joblessness, poverty and inequality. The growth plan identifies where employment creation is possible with success indicators being jobs, equity growth and environmental outcomes. The short to medium term outcomes is to support labour absorbing activities especially in infrastructure, agriculture value chain and light manufacturing services whilst also promoting Small Micro Enterprises (SMEs), Black Economic Empowerment (BEE), education and skills development.

The NGP aims to create five million jobs by the year 2020 with contributions from various government sectors and private sectors. The job drivers with potential for mass employment creation identified in the growth plan are:

- Infrastructure for employment and development, including enegrgy, transport, water, telecommunication and housing.
- Improving job creation in economic sectors such as agriculture, agro-processing, mining, manufacturing sectors, tourism and certain high-level services, and across all value chains.
- Seizing potential of new economies, green economy and growing knowing in industry norms and practices.
- Investing in social capital and public services.
- Spatial development, especially in rural development.

The identified job drivers will influence provinces and localities in a different manner due to different factors; therefore, localities must adopt the broad drivers in the NGP to their circumstance and locality.

Implications for LED in Ndlambe Local Municipality:
The new national LED framework situates Ndlambe Local Municipality at the centre of leading the economic development of their space. The local municipality must ensure proper coordination and implementation of economic interventions in various communities falling under its jurisdiction and ensure that there is closer collaboration within its local municipalities as well as other neighbouring municipalities and/or provinces and other spheres of government to ensure a prosperous regional economy.

The Ndlambe Local Municipality should in collaboration with its stakeholders identify key economic sectors that are in line with NGP job drivers and create employment opportunities in these sectors. The job drivers should be tailor made for the local municipality taking into consideration the available local resources. LED projects must target development in rural areas, seizing opportunities in agriculture, green economy and manufacturing sectors. In this regard the situational analysis highlights the comparative and competitive advantage of the municipality in Agriculture, Tourism and Renewable Energy. All these sectors are aligned to the NGP and the PIDS.

National Development Plan (Vision 2030)

The overall purpose of the National Development Plan (NDP) is to develop an economy that will create more jobs, is more inclusive, more dynamic and in which the fruits of growth are shared equitably, and poverty is eliminated. The plan envisages an economy that serves the needs of all South Africans and proposes the creation of 11 million jobs by 2030 by means of:

- Realising an environment for sustainable employment and inclusive economic growth.
- Promoting employment in labour-absorbing industries.
- Raising exports and competitiveness.
- Strengthening government's capacity to give leadership to economic development, and
- Mobilising all sectors of society around a national vision
- Provide for the following Key economic strategic development areas (Employment and economy; economic infrastructure; environmental sustainability; integrated and inclusive rural economy).

An implication is that NLM LED Strategy needs to contribute into the achievement of the following objectives of the NDP:

Chapter 3:	Economy and Employment: The proportion of working adults in rural areas should rise from 29% to 40%.
Chapter 6:	Inclusive rural economy: An additional 643 000 direct jobs and 326 000 indirect jobs in the agricultural sector, agro-processing and related sectors by 2030.
Chapter 13:	Building a capable and developmental state: A state that is capable of playing a developmental and transformative role. Staff alt all levels have the authority, experience, competence and support they need to do their jobs.

National Framework for Local Economic Development in South Africa:

The National Framework for LED in South Africa sets out the roles and responsibilities of government in terms of conducting LED. At a provincial level, the primary responsibility of government is to ensure adequate leadership and support for the local level, while local government is responsible for direct policy making (i.e., development of by-laws, ensuring the proper rezoning of land, administering policy programmes and projects, initiating economic development programmes), thus the LED strategy/ plan would be the road – map for economic intervention in the municipal space.

The 2014-2019 Draft National LED Framework for RSA is a guide and strategic implementation approach for all bodies involved in improving local economies. The framework focuses on the role of the state in assisting and supporting local municipalities, leaders and communities in realising own collective objectives.

The National LED Framework is based on four strategic pillars:

Policy Pillar 1: Building a Diverse Economic Base

This pillar responds to the twin imperatives that will create more jobs, as stated in the National Development Plan: faster, more inclusive growth. From a local government perspective, to increase and sustain the revenue base of municipalities, local economic development strategies must be underpinned by a robust, sustainable competitive diverse economic base as set out in the New Growth Path, the Industrial Policy Action Plan and other sector focused programmes of the state.

Therefore, the programmes under this pillar focus on growing the local economy through industrial and sector-specific investment and development programmes (e.g. *Tourism, Mining, Agriculture, Manufacturing,* etc.), and through the spatial targeting of functional economic regions and other areas where economic activity is concentrated or projected (growth points) such as metros and secondary cities.

Programmes under this pillar are driven by private sector investment. The primary role of local government is to provide strong economic governance through a supportive and enabling business environment, unblocking constraints to investment, and providing regulatory certainty.

Policy Pillar 2: Developing Inclusive Economies

The pillar responds to the second of the twin imperatives of the NDP: more inclusive growth, and its notion that to improve the living standards and ensure a dignified existence for all South Africans, the economy must create decent work and sustainable livelihoods.

This pillar focuses on economic and spatial inclusivity aspects in municipalities. The programmes in this pillar are underpinned by pro-poor government programmes and interventions that target the second economy, including: support to the informal economy; sustainable livelihoods programmes in communities; inner city economic revitalization, township development, rural economy, youth and women empowerment, and leveraging economic opportunities from the Expanded Public Works Programme, including the Community Work Programme.

Policy Pillar 3: Developing learning and skilful economies.

One of the principles of the 2006 Framework was that people are the single greatest economic asset in development, and increasing their skills leads to increased opportunities for stimulating local economies. The new Framework gives skills development it a distinctive focus due to its centrality, its potential impact on youth and on women and its **impact on** developing a globally competitive and adaptable local economies.

Local Growth and Development Strategies must be supported by clear skills plans.

Policy Pillar 4: Enterprise Development Support

Based on the potential impact of a growing and well supported SMME sector, the Department has maintained this as a core pillar, from the 2006 Framework *(this was before the new Department was announced). The programmes contemplated under this pillar are intended to strengthen the DTI's Integrated Approach to SMME & Co-operatives Development Action Plan and will focus on the role of local government in such areas as incubation support; provision of enabling infrastructure for SMMEs; provision of advisory and referral support to cooperatives, etc.* This pillar is also crosscutting in the sense that it complements programmes within the other pillars: e.g. value chain opportunities from the pillar Building a **Diverse Economic Base and Developing Inclusive Economies.** This pillar also has a strong element of Youth and Women Empowerment.

Policy Pillar 5: Economic Governance and Infrastructure

The 2014-2019 Framework seeks to position local government as a significant contributor to national development goals. This pillar is the single most important pillar that seeks to strengthen local government's role in economic development.

It is directly linked to Outcome 9 in terms of promoting an Accountable, Responsive, Efficient and Effective Local Government System. It consists of institutional systems and processes that support economic activity. Programmes that are targeted under this pillar include the following: Improving the role of municipal leadership in local economic development in terms of capacity building, lobbying, and advocacy.

Efficient provisioning of land and land-use for economic development; efficient provisioning economic infrastructure through such programmes as the Municipal Infrastructure Grant; Mainstreaming Revenue collection into LED; developing Local Economies as Distinct Brands; Improving the

regulatory environment and Reducing Red Tape and Promoting Public-Private Dialogue. Unlike other pillars, the successful implementation of this one is primarily the role of municipalities.

The revised Framework offers a set of Enabling Policy Pillars, which without the implementation of the core Policy Pillars will not be possible:

- Organizational Development and Institutional Arrangements
- Research, Planning and Strategy
- Funding and Finance
- Human Resources and Capacity Development
- Monitoring and Evaluation; and Knowledge Management

This LED Framework takes its que from the policy mandates from National LED Framework. The national economic development context set out herein as well as the identified strategic challenges for Local Economic Development present a perspective of which the Reviewed National Framework was formulated.

The meaning of Local Economic Development: There is a need for national government to provide greater clarity as to the meaning of LED, with particular emphasis placed on guiding LED activities and planning in small town and poorer municipalities. Such a requirement is also equally important even at metropolitan and urban cities so that a commonly shared understanding of LED is fully developed. Ndlambe Local Municipality must define LED in its context taking into consideration the economic realities and the existing economic assets.

Poor intergovernmental relations *on LED*: strengthening greater integration and closer cooperation amongst LED stakeholders and sector departments involved is pivotal for effective implementation of LED. Such integration should extend to all economic development stakeholders including the spheres of government, business sector and community sector.

Productive partnerships: LED should be structured and organized in such a manner that it maximises the potential for credible and productive partnerships between private and public sector. Equally important is the building of an effective private sector business development services sector to enhance local competitiveness through benchmarking and the upgrading of industrial clusters.

A clear communication and knowledge sharing programme: Disseminating good practice is as much important as communicating worst practice in LED so that the latter are avoided and former encouraged. Moreover, building LED networks and sustainable knowledge platforms are crucial for enhancing high level hands-on systemic learning.

Capacity constraints: The capacity of staff, improving the profile and professionalization of LED require significant investment. This is more so in urban and metropolitan municipalities wherein there is greater tendency of trivializing and equating LED to an insignificant and "back-bencher" aspect of broader municipal development.

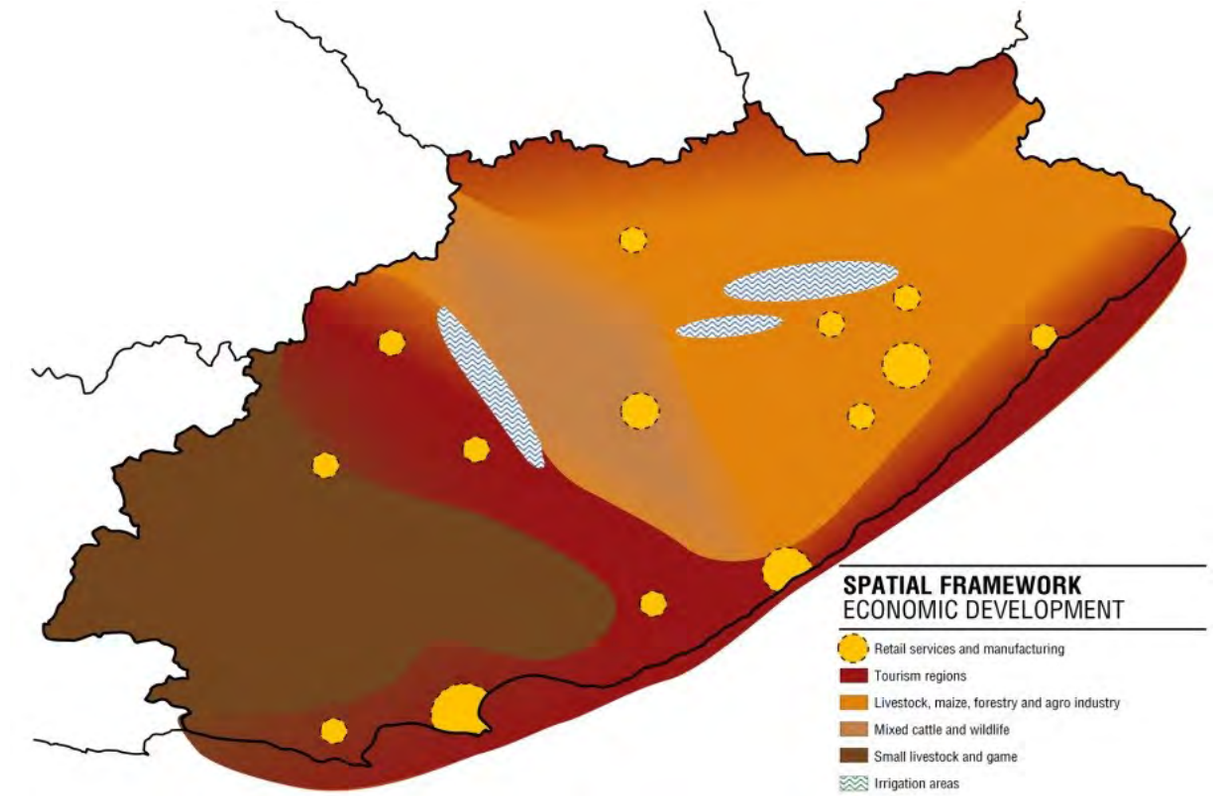

Differentiated approach on LED support: The practice of LED in large cities, small towns and poorer municipalities is not the same and so too is the scale of LED initiatives across these municipalities. Evidence based and contextually relevant differentiated LED support package and approach needs to be applied at various municipalities. (Funding approach for each municipal LED Section must consider the economic environment of each municipality, whilst also implementing the Consttutional mandate (job creation, poverty reduction) ultimately leading to the betterment of community people's lives.

Funding for LED: Addressing the financing and financing challenges of LED, especially for less well-resourced municipalities outside of the major cities is an important consideration for the National Framework design. Funding should be geared towards the targeting of investments and their coordination, be aimed at better coordination of fragmented funding sources, and be better defined with its products better packaged. (There must be a relook on th fuding model for municipalities as the model is fundamentally skewed towards bigger mucipalities with econimic endowments and a fluent industrial economy. Lower category municipalities lacking economic endowments and industries bear the brunt of minimal budget with high service delivery expectations. Ndlambe is not immune to this reality as a smaller muncipality) Ndlambe LM must reconsider its budget stance for the LED Unit as the current budget will obfuscate the objectives of local economic development in the municipality .

Poor investment in economic information: Improving economic data for understanding local economies, identifying competitiveness and enhanced LED planning are vital for effective LED.

Dedicated focus on supporting the "Second Economy": Second economy programmes such as Urban Renewal, informal economy, Expanded Public Works Programme, Integrated Rural Development, Small Medium Enterprises, Youth development.

EASTERN CAPE PROVINCIAL SPATIAL DEVELOPMENT PLAN: FINAL DRAFT

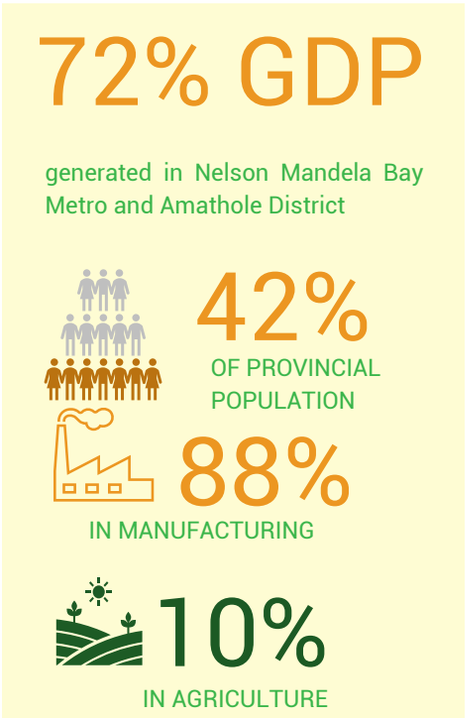

-

ECONOMIC SYNTHESIS

The contextual analysis reported economic growth and development remains heavily spatially concentrated in the Eastern Cape, with 72% all GDP generated in Nelson Mandela Bay Metro and Amathole District, which contain 42% of provincial population.

This is especially the case in manufacturing, where 88% of all provincial GDP is produced in these two districts. Commercial agriculture remains concentrated in the areas of the former Cape Province with only 10% of all agricultural GDP generated in the former Transkei districts of Alfred Nzo and OR Tambo. There is some evidence that the increases in employment that have been observed in recent years until the impact of the current recession have been accompanied by a shift from formal to informal employment. This is especially the case in the former homeland areas where high rates of informal employment and economic inactivity indicate 'disguised unemployment' on low-income, survivalist enterprise. The major urban centres containing the large economic drivers are still located primarily in the western portion, focused around Gqeberha (formerly known as Port Elizabeth) and kuGompo (formerly East London).

However, recent analyses of socio economic and migratory trends point towards the growth of the 'second' or informal economy compared to the decline or stagnation of the formal 'first 'economy. In a spatial and physical context, this trend towards informal business and employment could better sustain the more flexible, dispersed rural settlement and informal settlement environment and appears to have not forced large scale urban change on the landscape.

According to the PGDP Assessment Final Report (2009) "diversifying the manufacturing base and developing tourism are at the heart of the PGDP. To extend industrial growth beyond reliance on a relatively small number of volatile export markets clustered around the automotive sector, the PGDP advocates diversification of industrial and economic production through four inter-dependent strategies, developing agro-industries to enhance local beneficiation and spread economic opportunity in rural communities; secondly, transforming the auto sector to enhance local content and increase competitiveness; thirdly, diversifying manufacturing by enhancing export capacity. The economic synthesis continues being relevant to date albeit some elements of the blended econimic systems in SA require updating.

Land Use Management

The massive demand for urban and peri-urban land requires strong, integrated and transparent land use planning and management systems at a local level, where potential land use conflicts can be resolved. The Contextual Analysis has already identified the improvement of land use management systems, especially in the rural areas, as one of the most important spatial planning requirements for the future. In communal land areas it is also vital that potential conflicts overland allocation, planning and management between local government and traditional authorities are resolved.

Settlement planning

The extensive demand for urban and peri-urban sites requires high-quality integrated planning, again at a local level, between the main government service providers in housing; water, waste and sanitation; education and health; roads and transport. Provincial and local government has not generally been effective at anticipating and planning for urban and peri-urban settlement and service demand. It is vital that strong and integrated settlement planning capacity is built at local level to provide well planned, located and serviced urban and peri-urban sites. In the absence of such planning most land around the towns of the province risks the continued development of ugly, poorly serviced, peri-urban sprawl.

This scenario presupposes that improved integrated settlement planning will be achieved within the next 15 to 20 years, enabling formalisation of compact settlements located in settlement regions, cities and settlement corridors along effective transport routes. downstream beneficiation: and finally, promoting provincial tourism to create

employment and raise incomes in rural areas." In terms of the four PGDP strategies, the economic spatial framework should relate strongly to the spatial frameworks generated for rural development and infrastructure, with a particular emphasis on the transportation framework necessary to ensure successful economic development in both urban and rural areas.

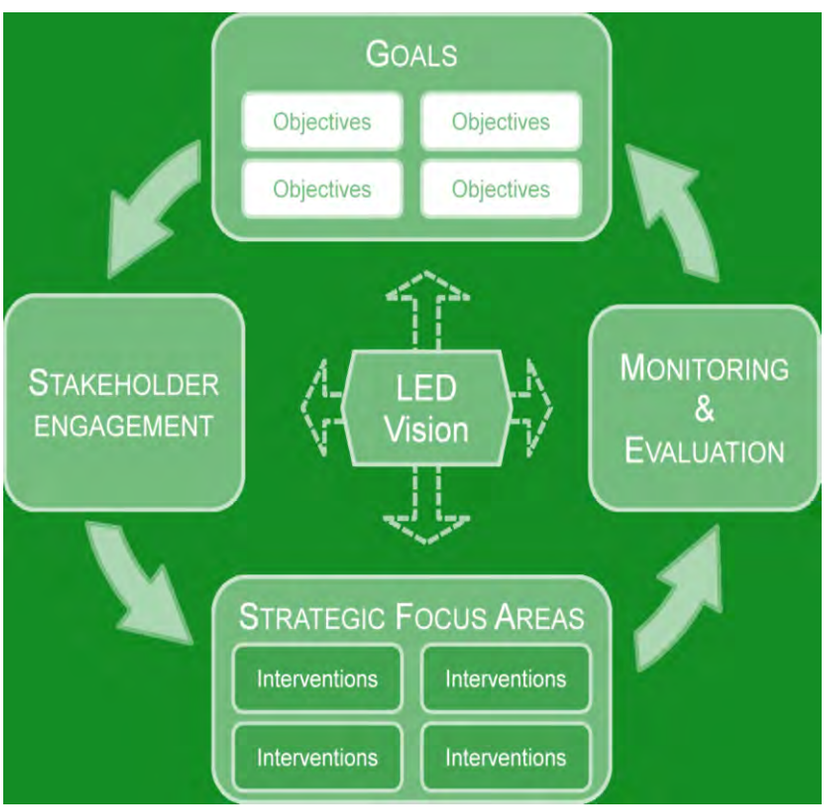

An additional spatial dimension needs to be generated around the tourism promotion strategy. The PSDP needs to underpin the Tourism Master Plan in reflecting the tourism development regions where priority tourism infrastructure initiatives could be invested in to enable private and community investment, job creation and increased incomes through tourism (particularly in rural areas).

INTRODUCTION - NDLAMBE LM LED STRATEGY -2022-2028

The Local Economic Development Strategy (LEDS) of the Ndlambe Local Municipality (NLM) is based on the lessons of the strategic research process, baseline analysis as well as the emergent stakeholder consensus on what the real socio-economic challenges and problems statements of the Ndlambe area, and how these could be systematically addressed through short, medium to long-term strategic interventions and strategies.

This section articulates a new strategic direction and course for economic emancipation for the Ndlambe LM Municipality.

Planning framework: Fig 1

Source:(World Bank, 2002. Local Economic Development; Quick Reference)

The World Bank describes these five (5) elements of local economic development as follows:

Vision: The vision usually describes the stakeholders' *(community, private sector, Municipality on-governmental organizations)* agreement on the preferred economic future of the economy.
Goals: Goals are based on the overall vision and specify desired outcomes of the economic planning process.
Objectives: Objectives set performance standards and target activities for development. They are time bound and measurable.
Programmes: Programmes are set out approaches to achieving realistic economic development goals. They are time bound and measurable.
Projects: Projects implement specific program components. They must be prioritized, and all cost must be established. They are time bound and measurable.

SOCIO-ECONOMIC FRAMEWORK

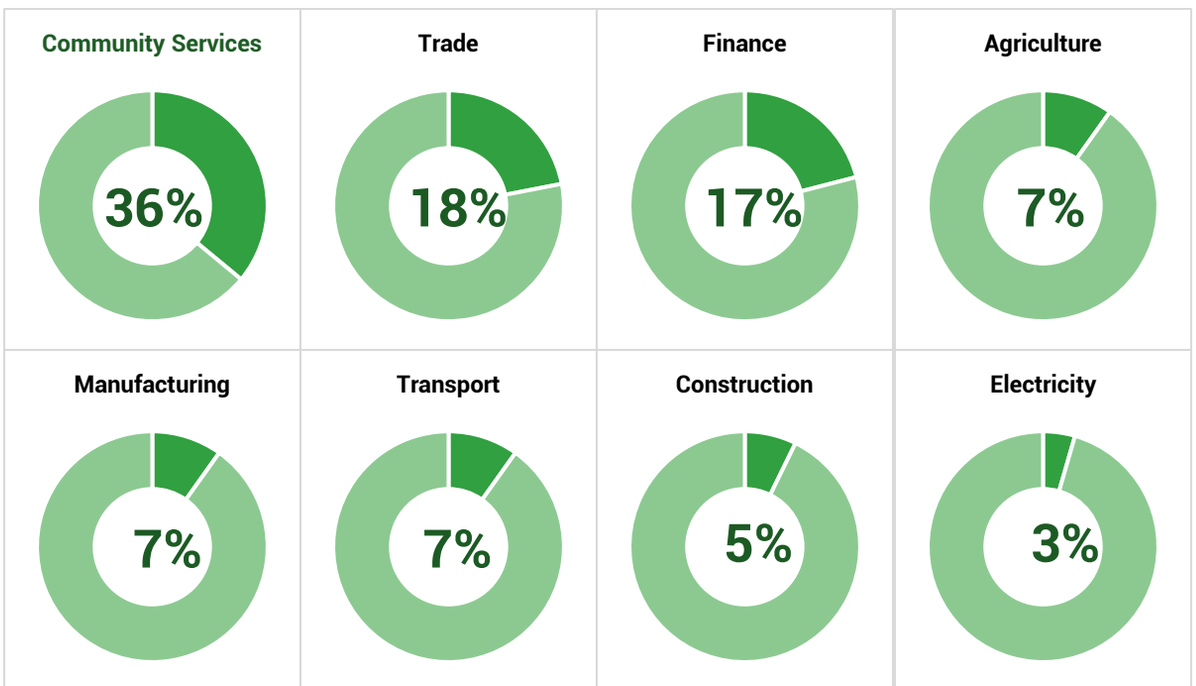

The basic sociological framework is about the relationship between the distribution of socially valued goods and the culture that gives goods their social meaning. A socio-economic framework is about the relationship between allocation, distribution, culture, and preferences.

The Socio-Economic Framework covers the following subcomponents:

- σ Economic Framework
- σ Tourism Framework
- σ Social Facilities Framework

Economic Framework:

Economic Sectors within Ndlambe LM:
The main Economic sectors of Ndlambe LM are as follows:

Employment Status

More than 62% of the population is either unemployed (24%) or not economically active (38%). Within the economically active age group, only 36% are employed and nearly 1% did not specify their employment status meaning that they are most likely employed in the informal sector. Although the unemployment rate is lower than that of the Eastern Cape Province, the dependency ratio is still high as over 64% of the population is dependent on the income of 36% of the population.

The rapid decline in the Gross Value Added (GVA) per sector for most industries over the past 6 years, more so in the Agricultural sector, which once had the highest GVA in the region, has led to a reduction in employment opportunities in the area. The high levels of unemployment suggest the need to broaden the income base of the people through skills development and promote labour intensive industries such as the agriculture and construction and diversification of the economy into other sectors (e.g. tourism, services, SMME's etc.).

Ndlambe LM Interventions to reduce unemployment

1. Appropriate skills development.
2. Sustainable resource management.
3. SMME awareness programmes including business registration.
4. Red-tape reduction for entrepreneurs to thrive.
5. Efficient distribution of grants
6. Non-Governmental Organisations support.
7. Non-financial support.
8. Revitilisation of township economies.
9. Package sector specific interventions to promote enterprise.

SECTOR PLANS

The preparation of the Ndlambe LED Strategy was informed by the following Sector plans

- Local Economic Development Strategic Plan 2009-2014
- Integrated Waste Management Plan
- Ndlambe Municipality: Broad Socio-Economic Profile 2008
- Ndlambe Housing Sector Plan 2009-2013
- Ndlambe Municipality Draft Housing Sector Plan 2011-2016
- Kenton-on-sea Town Planning Scheme By-Laws
- Final Integrated Development Plan (IDP) - 2023/2024

VISION

A Coastal municipality focusing on real estate and leisure, retention and attraction of private sector investment in order to create a diverse, inclusive and sustainable local economy that generates employment, supports local businesses and improves the quality of life for all residents.

Aim is to reduce/alleviate poverty through the reduction of unemployment. Furthermore, to maximise economic resources for the benefit of the populus, the rural poor in line with the Vision **2030**.

MISSION

To unlock the municipality's economic potential by supporting agriculture, tourism, small enterprises and investment, while providing quality infrastructure and services that promote inclusive, sustainable and resilient local economic development.

GOALS AND OBJECTIVES

- Building Of Economic Infrastructure
- Investment Promotion And Economic Development
- Tourism Development And Real Estate
- Diversification Of The Economy
- Skills And People Development
- Creation Of Employment
- Economic Retention And Investment Promotion
- Poverty Reduction
- Maintenance Of Economic Infrastructure

2.1 Situational Analysis

A comprehensive situational analysis led by COGTA was conducted with input from the LED Unit and representatives of the Department of Economic Development Environment and Tourism. Inputs from consultative sessions with consultants employed by COGTA to produce a Master Plan for the Ndlambe LM also form part of the situational analysis report. Also, the internal committee established by a Council resolution comprising of (Finance, CS, CPS, Infra, Town planning, PMU) and DOA.

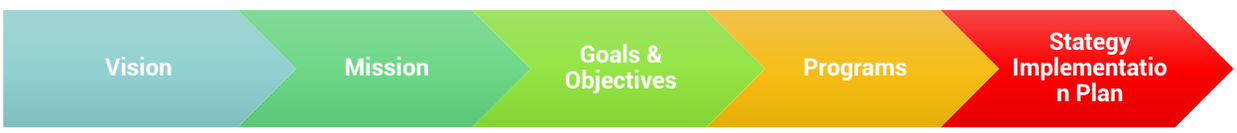

The following preconditions for the successful implementation of local economic development are outputs of the extensive discussions from various consultative sessions.

- The sector-based plans should be developed and be aligned to the Local Economic Development Strategy and the Intergrated Development Plan (IDP)
- Appropriate options for institutional arrangement of the implementation of the LED strategy should be recommended and implemented, e.g. establishing a Cooperative Development Center facilitating easy access to grant funding from Sector Departments and Agencies geared towards Small Enterprise Development.
- Linked to Socio-Economic Infrastructure and Infrastructure development, there is a need to focus on labour absorbing sectors with potential to create more jobs
- Programs with linkages with neighbour municipalities to take advantage of opportunities and encourage economies of scale should be encouraged. The R58 between Makhanda and Port Alfred is a typical example of how collaboration between municipalities can achieve. Agriculture is another sector where Ngqushwa LM, Ndlambe LM and Makhanda can collaborate sharing critical infrastructure e.g. Pack Houses, Processing Plants, Mechanisation etc.
- The existing LED projects which were not fully implemented should be concluded e.g. the completion of the Kowie River rebuilding of the masonry wall be completed.
- Find an alternative sector that can replace the job losses emanating from the closure of Chicory SA. *We are aware of initiatives from both the NLM and the ECDC that seek to resuscitate Chicory SA.*
- Review the utulisation of the Municipal Infrastructure Grant dedicated to SMMEs and consider LED Unit as an implementer of the programmes.
- Private Public Partnership with National, Provincial, International partners should be strengthened especially around the Tourism Sector and thus facilitate an increase in the participation of the previously disadvantaged whose participation in this ever-growing sector has been reduced to cultural dancing.
- SMME development should be encouraged through tailored programs of support and development especially with infrastructure which is perceived as a catalyst in ushering the previously disadvantaged into the mainstream of the provincial economy whilst building a data bank of skills base from the emergent SMMEs.
- The 2022-2027 Revised Ndlambe IDP puts skills development as a catalyst to economic development by developing diverse and critical skills and thus reduce imports of critical skills and increase exports of critical skillls to other provinces.

2.2 Strategy Development.

The strategy development process builds from the outcomes of the implementation review for 2014-2019 LED strategy and situational analysis assessment which includes sector contribution analysis to the GGP, sector plans and other strategic documents developed by other sector departments both national and provincial, state entities and inputs from private business.

The outputs of the above processes are summarised in different paragraphs and chapters which are contained in full text in this document.

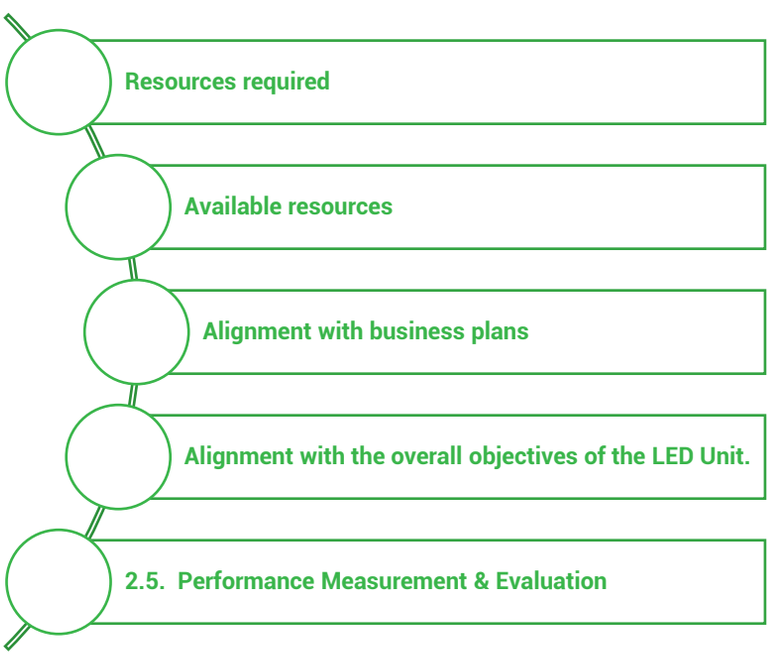

2.3 The Departmental Business Planning Process

The process involves all units under the LED Deparment to deliberate on the goals and objectives, programs and their implementation. The programs must find expression in in the overall Municipal Strategic Goals and Objectives.

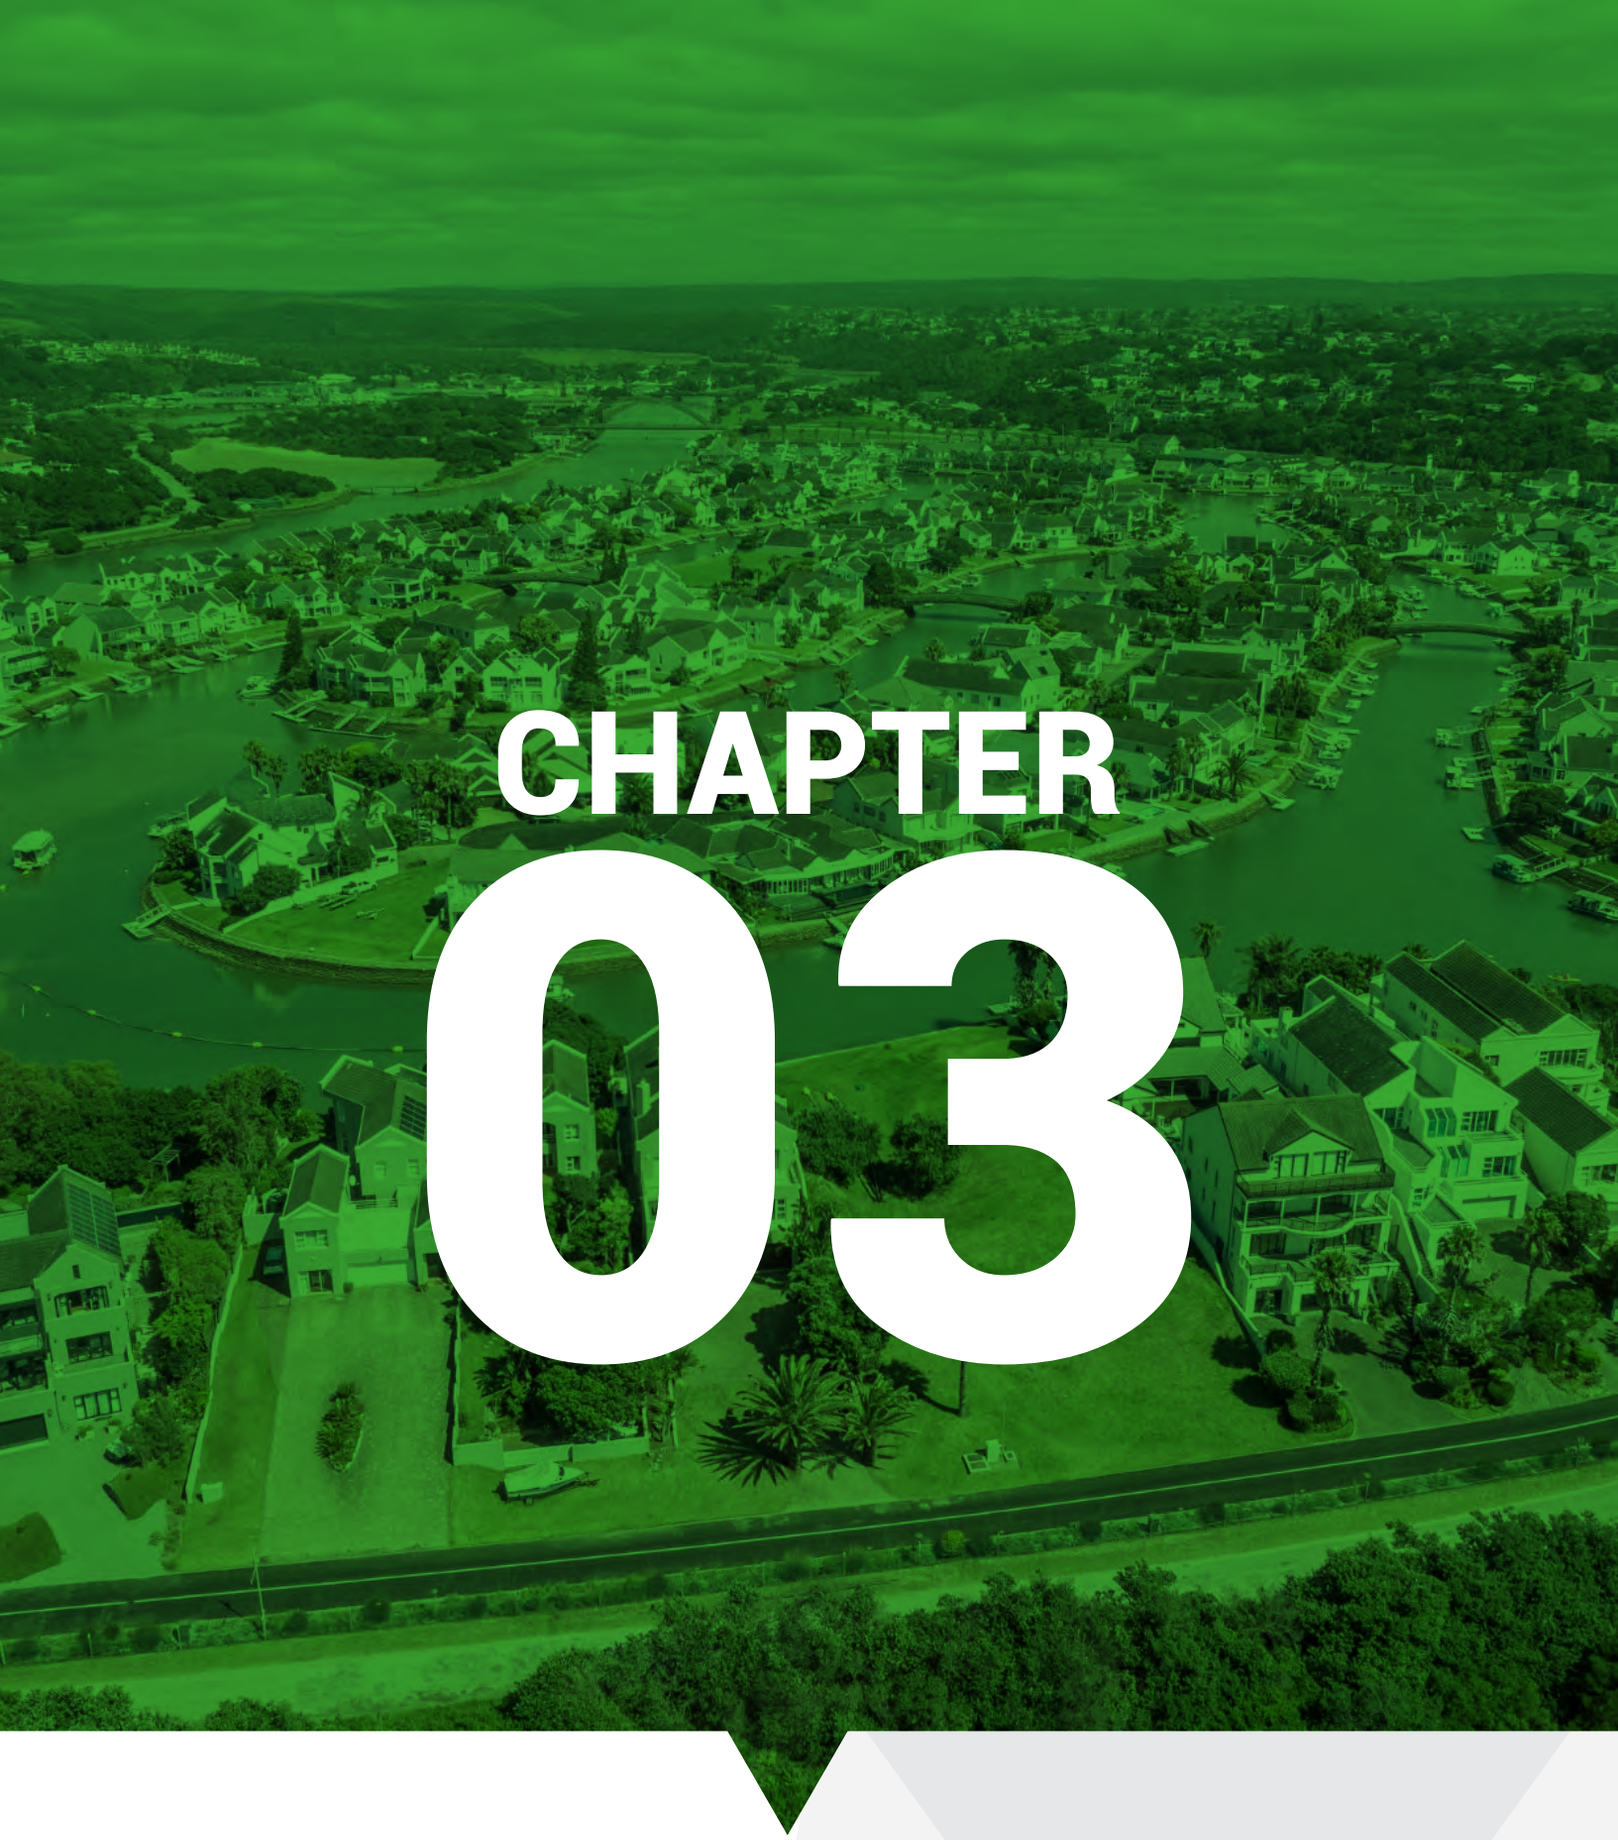

Business Plan development for each of the programs will follow, which will include the resourcing of the different programs. The business plan must not only be aligned to the overall LED Strategy, but to the IDP and the programs of sector departments to pave access to collaborative funding.

2.4 The Departmental Budgeting Process

The budgeting process will be linked to business plans developed by the LED Unit. The budgeting process will follow a simple format, namely:

The process of perfomance measurement and evaluation will be undertaken in intervals using a performance management system prescribed by the municipality. Assessments and evaluations will be conducted on a quarterly basis and consolidated into an annual report.

CHAPTER 03

Chapter 3:

The LED Concept and Strategic Alignment.

3.1. The Relevance of the LED Concept to Ndlambe LM.

The concept of Local Economic Development ("LED") concept has gained prominence in development theory and practice over the last three decades since the dawn of democracy in South Africa. As a result, numerous concepts and definitions on LED have emereged, partially overlapping, partially complementary and partially contradictory".

As a concept, LED has gone through phases as follows:

3.1.1. Phase One: Focus on Place Marketing.

This phase focuses strongly on the marketing of locations to external investors, often linked with incentive systems such as:

- Tax breaks
- Reduced costs of public services
- Infrastructure development
- Skills development and employment support

3.1.2. Phase Two: Focus on Economic Potential and Competitiveness.

During Phase Two, focus changed to endogenous economic potential, striving to support the competitiveness of existing firms, promoting entrepreneurship and business start-ups, usually done through:

- Entrepreneurship development and training programmes
- Business support and business linkage mechanisms
- Providing access to finance
- Skills and rural development
- Sectoral development

3.2. Strategic Alignment of the Led Strategy

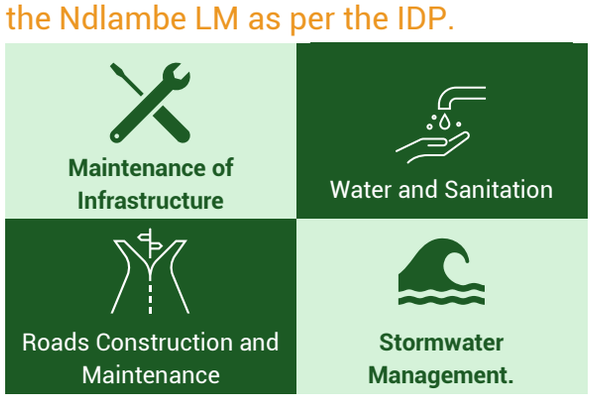

This Strategy is aligned to the Ndlambe Local Municipality of 2022-2027 IDP. The alignment is further extended to policy imperatives and policies across all the three spheres of government. The following policy framework informs this strategy:

- District Development Model (Adopted and launched by the Hon. Cyril Ramaphosa)
- Eastern Cape's Vision 2030.
- Ndlambe LMs IDP 2022-2027
- National Development Plan.
- The National Framework for Local Economic Development.
- The White Paper on Local Government.
- Municipal Structures Act, No. 117 of 1998
- Eastern Capes Small Town Revitilisation Program.

3.3. Alignment to Ndlambe's IDP-2022-2027.

Ndlambe LM views Local Economic Development as a crosscutting priority with each department/unit contributing towards economic development programmes especially around infrastructure development. The IDP places Local Economic Development as a Key Performance Area in line with the 1998 White Paper on Local Government, with the following priorities in the next 5 years: -

3.3.1. Top 4 Development Priorities of the Ndlambe LM as per the IDP.

The Ndlambe LED Strategy will, between now and the next review, commit the Municipality to diversify, intensify and upscale the support for key economic drivers such as, Tourism and Enterprise Development priorities, while at the same time building the Agriculture Economic Development capacity of the municipality to create the conducive environment in which public private investment can be realized and flourish.

The Ndlambe LM will ensure that the LED activities will take into consideration the activities of the Sarah Baartman District and the Eastern Cape Province in which it is situated and, with its partners to increase resources devoted to technical and financial assistance to these key economic priorities.

Local Economic Development strategy has a lifespan of at least three years or five years at most. This document is intended and produced to guide the economic direction of municipality. In the document are, economic opportunities identified and milestones to be achieved. At the heart of the document is the realistic implementation plan with clear outputs, outcomes, and deliverables and timelines.

Principles Underpinning The Development Of The Ndlambe Led Strategy

Hereunder are the set of core principles giving direction to this LED Strategic Plan.
The way in which a municipality approaches the development of its LED Strategy makes a big difference to the sort of strategy that emerges and to its impact on local communities. The following principles are intended to provide useful guidance to the development of LED.

Inclusive, Democratic Participation for Better Decision-making

The process of developing an LED Strategy must be inclusive and encourage as much participation as possible. Such participation will help ensure that there is a greater number of people committed to working for a realization of the strategy. The process plan for its development must make provision for all interest groups and communities to participate in and contribute to developing the LED Strategy of the municipality. Where target groups – especially in poor or marginalized communities – are not organised to represent their own interests, proactive measures must be planned to engage them and build their capacity to participate effectively.

Cooperative Government, Alignment and Integration

The LED Strategy process must strengthen cooperation between the different spheres and sectors of government, as well as promote aligned and integrated planning between and across spheres and sectors. The process must allow for consultation with relevant District and Local Municipalities as well as sector departments in the province and nationally, especially around initiatives that will require collaboration. This kind of cooperation should also enhance an appreciation and more effective use of the broad range of resources held by various arms of government to promote socio-economic development.

Empowerment

The LED Strategy must address the inequalities and spatial distortions of the apartheid economy. Targeted interventions must especially promote the inclusion and empowerment of poor black people, women, rural people and the disabled, both individually and as communities. National instruments for economic empowerment and affirmative action should be put into practice locally through LED Strategies that build and optimally use the capabilities of the labour market.

Sustainability

It is the responsibility of municipalities to ensure that local development is sustainable economically, environmentally, institutionally, and socially. LED Strategies must benefit not only the current generation but also the generations to follow. LED projects and programmes should be appraised for their viability and sustainability. Attention must be given to sustainable use of scarce resources as well to building skills and institutions that will strengthen the long-term capabilities in the local economy.

Realistic assessment of local capacity

The municipal LED Strategy must be based on a realistic assessment of the current level of development and the actual capacity of the municipality. Local municipal stakeholders, rather than consultants, should drive the process of LED planning and implementation. The strategy must also take account of the current capacity for and level of service delivery by the municipality. For example, where basic service needs are not being met the LED Strategy could consider an improvement of the rollout of basic services as a necessary means to build the platform for economic growth and development, and poverty reduction.

Good governance

Good governance has been shown to be an important factor in enabling economic development by increasing confidence in the public system and encouraging investment. LED strategies must therefore include

interventions that strengthen democratic, inclusive, accountable, transparent and efficient governance and administrative management practices, both within the public sector as well as non-governmental local and regional development partners.

Evaluation and learning

Institutions that learn from experience can adapt and change to meet the challenges of a dynamic global economy. Those who drive the development and implementation of the NLM LED Strategy should consciously evaluate and learn from their experiences. The drafting, planning and implementation of the municipal LED Strategy will be repeated in a number of cycles as deemed appropriate by the municipality. This provides the opportunity for stakeholders to evaluate and learn as they progress through the LED planning and implementation process. This purposeful learning from experience is an important part of the process of building capacity for economic growth.

NDLAMBE LM LED VALUES AND PRINCIPLES

All stakeholders of the Ndlambe Local Municipality commit themselves to the following key values and principles:

- σ To promote women, youth and disable-person 's participation in economic activities.
- σ To empower local communities as primary beneficiaries of socio economic and new economic opportunities
- σ To support and further the course of black economic empowerment in the area.
- σ To facilitate meaningful partnerships between government, business and labour sectors
- σ To promote fair and transparent participation in local economic development activities
- σ To promote local spending mechanisms and buying of locally produced products
- σ To deliver infrastructure development in a manner that promotes SMME 's and local labor.

These principles are common and mandatory mechanisms that the NLM and its stakeholders will adhere to in the rolling-out of this Economic Strategic Development trajectory.

DEVELOPMENT GOALS

Goals at a local municipal level should be linked to district, provincial and national goals (where appropriate) to ensure that the local LED Strategy is aligned with other policies and strategies. Goals are development thrusts, which flow directly from the vision. They represent the specific areas in which the

LED strategy will focus to achieve its vision.

It is a collective economic force that can generate sufficient economic energy and momentum to create a series of sustainable opportunities to achieve the set short, medium and long-term objectives of any strategy.

The goals of the NLM LED Strategy are based on the following rationale:

- NLM has a relatively youthful population with an age structure that is similar to the national one.61,6 % of the population fall within the 15-to-65-year bracket which indicates high level of employment eligibility. There is relative deficit of males aged 40 to 65, possibly indicating out migration.
- There are only two dominant sectors that provide employment to the people of NLM. The highest employer is the Agriculture, Forestry & Fishing sector which employs 47, 7%. The second highest employer is Community/Social Services sector with 10.2%. There is a serious need for diversification into other sectors that are not vulnerable to market price fluctuations unlike the "primary sector industries and diversification that relieves burden from the state. (How do we capture the growth on contract employment during summer holidays (House aides)?
- In the NLM, the number of Africans living in poverty is equal to the national average of 40%. NLM has more illiterate number of African and historically disadvantaged individuals (HDI) than the national average. The inequality levels (measured by the Gini Coefficient) are better in NLM as compared to the national statistics.
- Over the years, the NLM Gini Coefficient has been above 0. This indicates that there are signs of inequality, be it income or wealth. This also stipulates that averagely, the gap between the rich and the poor is widened regardless of the government efforts to reduce such a gap. The Gini Coefficient has been increasing since 2017.
- Regardless of not being a separate sector under the standard industrial classification (SIC), Tourism remains one of the biggest contributors to the NLM economy as it contributed an average of 47.45% from 2001 to 2010. In monetary terms, between R400-$450 million was spend on tourism in NLM. (There is a need for transformation) Establishment of the office in Alexandria (ABTO) Several statistics point to a decline in the revenue generated from tourism since 2008 and hence, research needs to be done to acertain the possible reasons behind that decline with a motive to arrest that trend.
- Strategies that fulfill the national LED vision are robust and inclusive local economies exploiting local opportunities, real potential, and competitive

advantages, addressing local needs and contributing to national development

NLM Local Economic Development Goals

Based on the comprehensive strategic analysis and rigorous stakeholder consultative process, the NLM and its partners have identified the following key development GOALS as the core drivers of this LED strategy and plan.

To achieve the stated economic vision for the area, the NLM and its partners commit themselves to the following strategic goals: The municipality has identified the following Strategic Goals for the NLM LED Strategy 2029

3.4. Ndlambe LED Strategic Thrusts

Strategic thrusts are high level initatives derived from the municipality's strategic vision, and they serve to guide action plans towards the implementation and achievement of LED goals and objectives.

Strategic Goals

- To alleviate / reduce poverty and unemployment.
- To transform the economy to create sustainable communities.
- Small Town Revitilisation and Township Economies.
- To ensure appropriate provision of critical municipal infrastructure.
- To develop business attraction, retention, expansion programmes that considers Small Medium and Micro Enterprises, including Big Business.

GOALS	OBJECTIVES
Alleviation of Poverty and Unemployment.	Stimulate Local Economic Development via stimulus programs e.g. Packaged Incentives for SMMEs. Promote and support local economic initiatives inparticular the ones in townships. Poverty reduction and job creation.
Transform township economies in order to create sustainable communities.	Facilitate the development of new industries for both the rural and urban center econimies.
Increase service delivery on the Small Town and Township Revitilisation programs.	Rapid Industrial Development and improved Township Economic acitivity.
To ensure appropriate provision of reliable municipal infrastructure.	Creating access to Socio-Economic infrastructure to facilitate enterprise development especially in townships.
To develop business attraction, retention, expansion programs that prioritise both small and big business.	Increased investment in agriculture and its value chain to stimulate new business, and retention of existing business and jobs thereof. Making provision for stimulus packages for business retention and attraction.

OBJECTIVES (Elaborated)

Employment Creation:

- Utilise of labour-intensive programmes. [EPWP + CWP] - creation of database to align people to programmes.
- Database of SMME's to access the sector (30%).
- Reduction of red tape (make it easy for business to operate).
- Facilitation of PPP's initiatives with high employment opportunities.
- Enhance the implementation of programmes to reach greater value and reducde dependency on CPWP.
- Identify key areas for investment.
- Development of new sectors and industries.
- Regeneration of existing sectors to expand job creation.
- Enhancing of critical infrastructure to facilitate new developments/investments
- Cosmetic face lift of the city to make it attractive to investment.

Economic Retention Objectives:

- Encourage growth of existing sectors while attracting new investors to create employment opportunities within communities.
- Ensure economic diversification to promote a diverse range of industries to strengthen the

economy and reduce dependency on any single sector, e.g Agriculture (Chicory Production.)
- Business expansion seeks to ensure expansion in their operations. accessing new markets and increasing productivity.
- Infrastructure development e.g. Investment in transport, communication networks to attract investment into the area.
- Entrepreneurship support that would foster a conducive environment and venture into more creative entrepreneurship i.e technical skills not your traditional business.

Poverty reduction
- Appropriate skills development targeting existing and new sectors.
- Sustainable resource management both economic and social.
- SMME awareness programmes including business registration, business information and counselling.
- Facilitation of financial and non-financial support for SMMEs.
- Red-tape reduction for entrepreneurs to thrive.
- Deliberate local procurement for SMMEs for economic retention.
- Efficient distribution of grants
- Supporting NGOs involved in economic development

Maintenance of Economic Infrastructure:
- Energy – 2050 (reduce growing demand by 50%)
- Freight transport infrastructure.
- Facilitate domestic and cross border movement to enable diversification and trade and development – 2050.
- Water infrastructure water to be more responsive, robust and become more proactive – 2050.
- ICT development infrastructure and telecommunication.

Skills Development and Training:
- Skills audit must be conducted, working with stakeholders to enhance capacity in line with the Human Development Index of the municipality. [achieve 20% per quarter].
- Public Private Partnerships are an important funding model for government.
- Hire institutions of higher learning per year
- Working with SETAs (learnership and internship programmes)
- DFIs, SEDFA to partner with the munipality in the provision of critical skills.
- Tailor made literacy programmes for ages between 15 and 65 years to encourage social enterprise and self-help programmes.

Led Objecives According to the National Led Framework.

Ndlambe LM's LED objectives are aligned to the broad objectives of the Local Economic Development Framework. See below

Objective 1	•To launch a more effective fight against poverty, inequality and unemployment through the development of innovative and inclusive local economies.
Objective 2	•To support the potential of local economies to grow and develop the national economy.
Objective 3	•To raise awareness on the significance of regions, metropolitan municipalities and localities as focal points in generating national prosperity.
Objective 4	•To intensify the support for local economies in realising and building their economic potential, their diversity, levels of employment and the creation of decent work for communities.
Objective 5	•To strengthen intergovernmental coordination of economic development planning and implementation and between government and non-governmental sectors.

3.4.1 The strategy Implementation.

The municipality views LED as an integral part of the municipality whose functions cuts across its internal departments, provincial and national departments, including private sector and other local stakeholders. In this regard the municipality would employ the following methods in facilitating the implementing the LED strategy:

- Integrated sector approach;
- Sector based; and
- National Economic Development Strategy (Department of Trade and Industry)

Such methods will be explored to accommodate various stakeholders with the intention of improving their contribution in the attainment of the objectives of this strategy. The Ndlambe LM will, during its Strategic Review and Service Delivery and Budget Implementation Planning (SDBIP), consider the projects highlighted in the Local Economic Development Strategy and strengthen the key performance area of Local Economic Development in the SDBIP to be implemented in the financial year by its departments including the department of Infratrustructure, Community Services, as they relate to SMME and Local Economic Development.

3.5 Performance Measurement.

The LED strategy is reviewed annually and an annual report on the implementation of the strategy will be developed and tabled through portfolio committees of the municipality. Critical in the measurement of performance of the LED Unit is the PMS Unit (Performance Management and System) which keeps all the divisions of the municipality on their toes. It is important to keep tabs on the LED Unit to measure performance against set targets annually. It is at this juncture that goals and objectives may be tweaked in alignment with current conditions either economical, politcal or otherwise. This therefore reinforces the fact that a Strategy Document is not a static document that only requires adjustment after a five-year period even if the set objectives are unattainable during the set term. There also must be a deliberate cooperation between the LED Unit and PMS Unit to trouble shoot challenges and bottlenecks before the end of the financial year reporting.

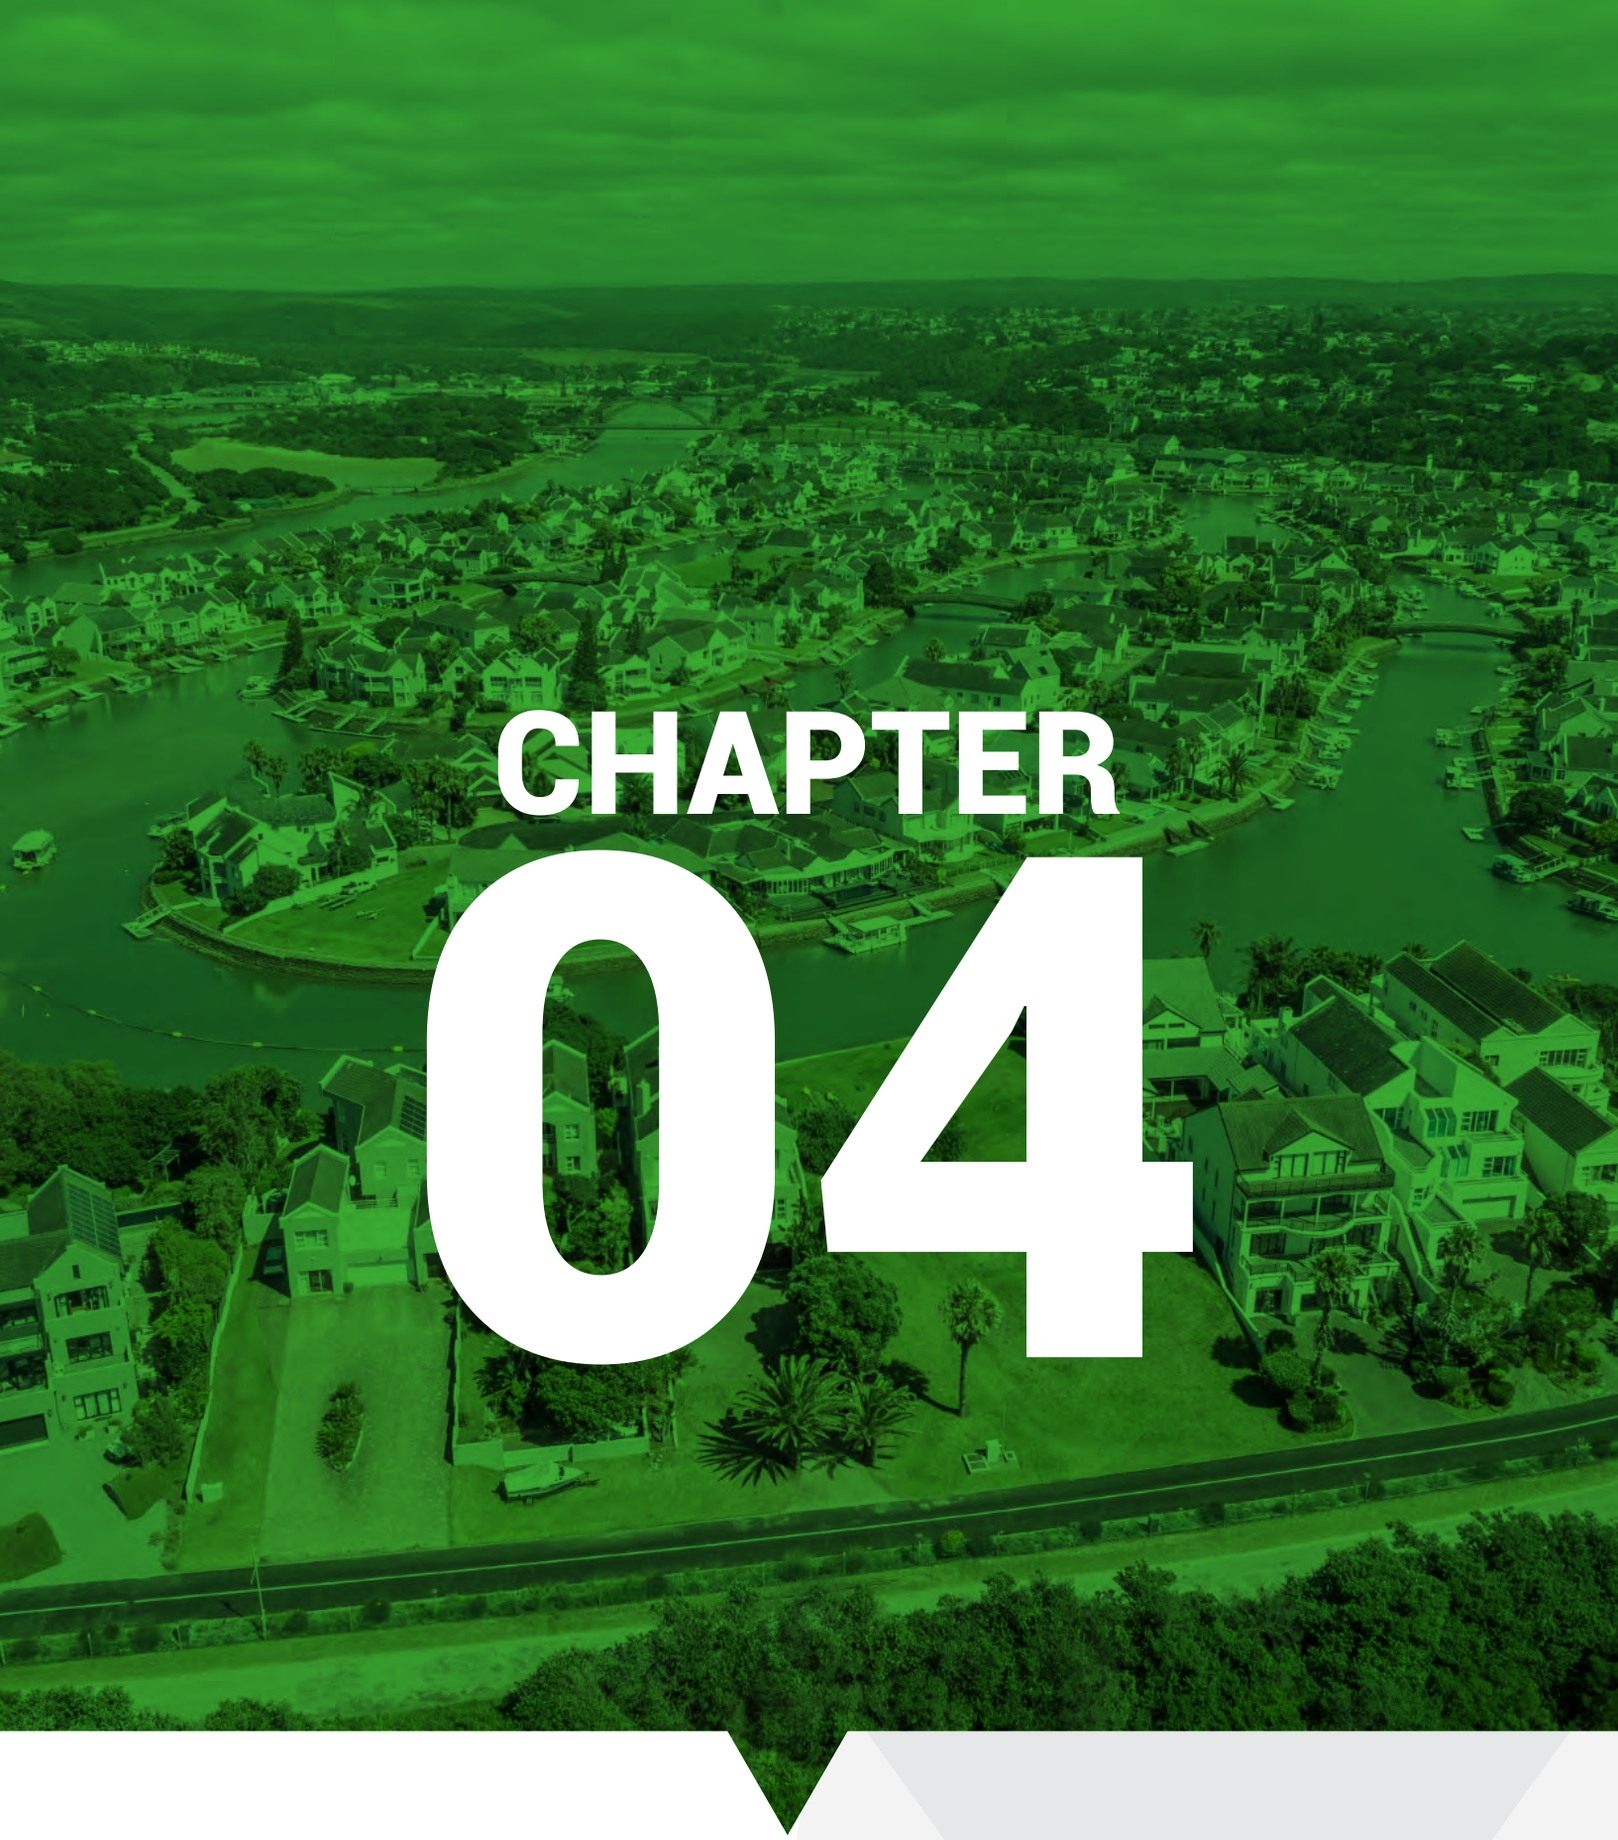

3.6 Institutional arrangement for implementation and monitoring of the strategy

A project implementation plan for the five years will be developed. The Local Economic Development Forum, Black Business Chamber and other relevant stakeholders are envisaged as an integral part in monitoring the implementation of the strategy. The stakeholders include the LED forum and the sector-based LED stakeholders e.g. Local Tourism Organisations, Investment Committees, etc. The role of the Business Chambers can never be ignored albeit operating independently of government structures.

These stakeholders are important and critical tools required in bridging the communication gap and obtaining a common understanding between the local municipality and the communities at large. Furthermore, these forums also provide the platform for the Local Municipality to form partnerships during the implementation of the strategy.

.

The main role of the LED Unit in this regard is to create an enabling environment for the implementation of the LED projects. The role could include but not limited to, social facilitation, feasibility studies, business plan development, governance framework development, facilitation of partnerships depending on the nature of the project.

CHAPTER 04

Chapter 4

4. Implementation review for 2014-2019 strategy

4.1 Vision

Develop a vibrant and diversified economy that offers a better quality of life for all.

4.2 Mission

Efficiently and **sustainably** employ all available resources to catalyse economic growth through investment in **infrastructure** and promoting **skills development**, thereby creating a **better quality of life for all.**

4.3 Values & Principles

- All stakeholders of the Ndlambe Local Municipality committed themselves to the following key values and principles:
- To promote women, youth and disable-person 's participation in economic activities
- To empower local communities as primary beneficiaries of socio-economic and new economic opportunities.
- To support and further the course of black economic empowerment in the area.
- To facilitate meaningful partnerships between government, business and labour sectors.
- To promote fair and transparent participation in local economic development activities.
- To promote local spending mechanisms and buying of locally produced products.
- To deliver infrastructure development in a manner that promotes SMME 's and local labour.
- These principles are common and mandatory mechanisms that the NLM and its stakeholders will adhere to in the rolling-out of this Economic Strategic Development trajectory.

4.4 Strategic Pillars

The 2014-2019 strategy had the following 4 pillars:

Pillar 1 – Sector Prioritisation

The following criteria are useful considerations to be taken into account when deciding which sectors should be regarded as priorities for the allocation of resources:

- Is there a strong, positive linkage between the sector and the area's Natural Resource Base?
- Does the identified sector have strong linkages with current economic activities
    - For example, agriculture
- Is there direct/indirect linkage to existing value chains?
- Does this sector have notable employment potential?
- Is there market potential for the end product, or for products at various points along the value chain, either locally or globally?
- Does the area currently have the necessary skills base to develop this sector, both currently and in the future? If not, is it possible to attract the necessary skills?
- Can we make use of State assets in the expansion of this sector?
- Can this sector create sustainable jobs?
- Would focus on this sector be supported by the principles outlined in the IDP, PGDP and NSDP?

Based on the above, the following priority sectors were identified in Ndlambe:

Given the wealth of projects and interventions which are already in the pipeline, the strategy must focus on giving life to the identified projects which meet the Strategic aims of the Ndlambe Local Municipality.

Pillar 2 – Strategic Infrastructure Development

Infrastructure plays a critical role in promoting economic growth through enhancing productivity, improving competitiveness, reducing poverty, linking people and organisations through telecommunications and contributing to environmental sustainability.

The importance of infrastructure in creating an enabling environment for Local Economic Development cannot be overlooked. Infrastructure delivery must be optimized in such a manner as to enhance economic development and sustainability.

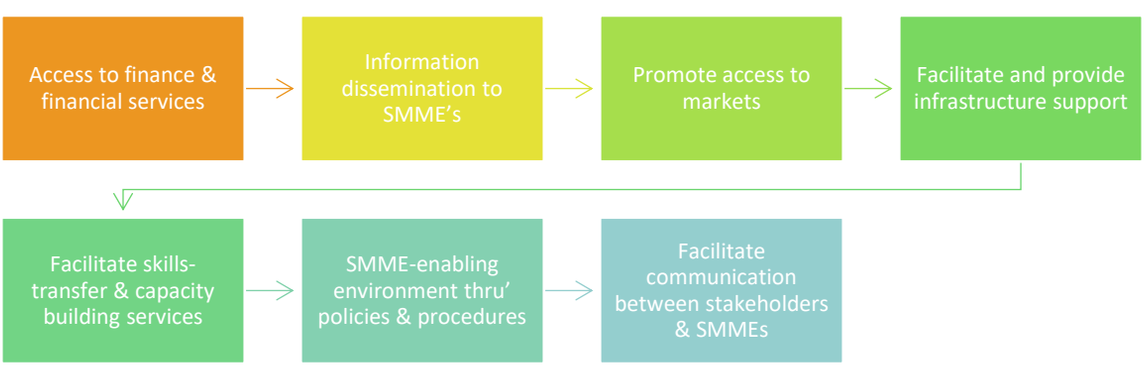

In particular, the following strategic infrastructure must be in place to develop the priority sectors as identified above:

- Adequate potable water to meet the demands of the residents, the influx of holidaymakers and a certain amount of future expansion of the existing urban settlements
- Roads infrastructure – it is imperative that the roads infrastructure is seen as a strategic asset. The road network enhances the accessibility of the municipal area as a tourism destination, whilst also facilitating transport of goods to/from/through the area.
- (ICT)
- Adequate sewerage infrastructure to meet current and future demands, especially when cities and towns are strained by urban influx.

Pillar 3 - Business Support Initiatives

To arrive at a situation where SMMEs are sufficiently developed to access and exploit the opportunities identified, significant resources need to be mobilised in respect to building capacity and providing ongoing support. The general purpose of SMME development and business support initiatives are depicted in the diagram below.

Purpose of Business Support Initiatives

Support can be offered through both training and direct services. Training programs set out to equip emerging entrepreneurs with the necessary skills to contribute to and benefit from the economy. A range of capacity building programs could be offered, usually covering the following general and specific skill sets:

- Writing a business plan
- Market intelligence
- Retail: Buying, Costing, Pricing, Selling
- Money management
- Stock control
- Financial management
- Governance
- Business communication
- Budgeting
- Record-keeping to meet SARS and Business Enterprise Compliance
- CIPC requirements

A mechanism should be introduced to provide entrepreneurial support services which would assist emerging entrepreneurs to manage and overcome the most common obstacles to economic participation. Such services could include:

- On-site business advice and support
- Supervision during the drafting of a business plan
- Incubation
- Business counselling
- Mentorship services

Pillar 4 - Skills Development

The identification, development, management and continuation of investment all require the availability of competent personnel in the local municipality, the district municipality, within communities and among private sector investors. Capacity gaps are currently most evident at the municipal level, where officials grapple with interpreting, implementing and enforcing legislation in the context of a complex set of regulatory requirements, whilst also carrying larger-than-necessary loads due to the number and type of unfilled posts especially within the LED Unit. Communities too, are often disadvantaged by the complexities of the regulatory environment. They are further often unable to fully exploit the potential benefits of investment because of limited skills and the turn around time.

Skills development must, therefore, address both the municipal and private sectors. It is essential that investment and skills development are systematically linked with the overall direction that the municipality has identified for the economic growth of its region.

Pillar 5 – Social Upliftment

Social Upliftment programmes are generally associated with Poverty Alleviation and not often with local economic development. However, the potential to make a significant impact through social upliftment projects is so great that it is deemed a pillar in the LED Strategy. Indeed, the current levels of poverty provide an opportunity for the Municipality to lobby for increased public sector input into this region. Whilst the social upliftment projects in themselves will have a beneficial impact on the beneficiaries, there will be significant spin-offs which are likely to contribute to the development of the local economy, if the projects, programmes and policies are correctly implemented.

The report on LED strategy projects implementation is a collection of projects and programs funded and co-implemented by Ndlambe LM, District Municipality, Provincial and National government, other state-owned entities and private sector as part of implementing the 2019-2023 strategy. This review of implemented LED projects is meant to foster a greater understanding of the progress with regards to the implementation of LED Projects, lessons learnt about what works, with the view of forstering more partnerships with key role players in the local economic development space. The limited funding for Local Economic Development dictates that the Ndlambe LM taps into other levers of government, sector departments and other institutions whose programmes resonate with the ideals of the local municipality.

PILLAR 1- SECTOR PRIORITISATION

2019-2023 PROJECTS AS PER THE STRATEGY	PROGRESS	2023-2028 LED PROJECTS PROPOSED
Small Scale Chicory Farmer support.	• Funding secured from the ECDC for emerging Chicory Farmers. • Provision of non-financial support to the emering Chicory Farmers. e.g. support with remuneration of labour working the lands. • Provision of the training on Business Management for Chicory Farmers. Note! Most emerging Chicory Farmers are women.	• Ensuring the participation of Black Farmers in the Chicory Production. • Attracting Youth into the ranks of Chicory Production and thus increase the youth participation. • Develop a register of underutilised pockets of land owned by government and develop partnerships to utilise the land for chicory production. • This will increase the contribution of emerging chicory farmers in the chicory production.
Developing a register of underutilised/unused pockets of land owned by government (Transnet, Public Works, Municipality) for purpose of chicory production.	• The LED Unit has organised about 400 hacters of unused land from the municipality. • Established partnerships with both Ngqushwa LM LED Unit and Makhanda to access pockets of unsed land in Fish River and greater Makhanda.	• Developing a Memorandum Of Agreement with Ngqushwa and Makhanda LM to form a Tri-Pod in the production of chicory so as to increase the participation of the PDI in the entire Agri-Sector.
Increase access to Mechanisation for Chicory Farmers.	• Organised non-financial support from the National Department of Agriculture and Rural Development for additional Mechanisation for Emerging Chicory Farmers. • One of the main challenges for emerging farmers is the cost of mechanisation during the planting season. • Secondly, there are few tractors to loan to the farmers during the planting season	• Obtained additional Mechanisation from the National Department of Agriculture and Rural Development.

Pillar 2: STRATEGIC INFRASTRUCTURE DEVELOPMENT

LED PROJECTS AS PER THE 2019-2023- LED STRATEGY	PROGRESS	2019-2023 LED PROJECTS FOCUS
Development of Tourism Infrastructure Projects.	The municipality in partnership with developed a funding proposal to the National Department of Tourism to fund Tourism Infrastructure Projects in the Ndlambe Municipal Area. The projects are as follows: • Krantz Communal Space • Refurbrishing of the Kowie Riverbanks Stone Walls. • Middle Beach – Development of the First Aid Room and Ablution Facilities for compliance with the Blue Flag Status Requirements.	The following projects were completed and are currently being utilised by the public: - Krantz Communal Recreational Space. Middle Beach First Aid Room and Ablution Facilities. Kowie River Refurbrishment – in Progress.

Pillar 3: BUSINESS SUPPORT INITIATIVES

2019-2023 PROJECTS AS PER THE STRATEGY	PROGRESS	2023-2028 LED PROJECTS PROPOSED
Forging strategic partnerships with Development Finance Institutions, Sector Departments and Government agencies geared towards SMME Development.	Bilateral Agreements with the ECDC, SEDA (SEDFA), NDA, DSB(Department of Small Business), for the provision of non-financial support to SMMEs (Formal & Informal).	Strengthening relations with like-minded institutions for the provision of both finance and non-financial support to SMMEs.
Establishment and co-founding of LTO (Local Tourism Organisation).	The LTO is well established in Ndlambe LM and has been pivotal in the branding of the municipality and bringing in new products to stimulate Tourism. Ndlambe LM is percieved as destination for Business, Tourism & Leisure. In recent years St Andrews hotel has enjoyed a lot of support from government for conferencing and events. This is testimony to the rebranding of the municipality as a conferencing venue owing to its transquility, convenience and favourable conditions for both conferencing and business. The silver lining of COVID-19 is that Ndlambe is perceived as a destination for Business Tourism and a place where business transactions can take place amidst leisure and tranqullity.	New Hiking Trails are being established. Accommodation establishments to increase the number of beds in Port Alfred and surroundings. Establishment of an International Convention Center in Port Alfred to put Ndlambe LM in the map as a preferred destination for conferencing. (We must be deliberate on this for it to be successful)
Tourism awareness campaigns	Marketing of annual events to stimulate Tourism Annual diary for events has been established in collaboration with business. e.g Music Festivals, Sporting Events, Ox Braai annual celebrations. Forming partnerships with local Business Chamber to remove bottlenecks in the way business is conducted. More that Three Hundred Thousand people criss-cross Ndlambe during the Festive Season, with some attending events. Support for Emzini Lounge to host events. Emzini Lounge is located at Burthurst and provides a source of livelihood in area charecterised by the heavy scourge of unemployment.	LED to develop a fundng proposal to DEDEAT for signature events to be hosted across Ndlambe LM. The funding request also includes the funding of a Communal Public entertainment space for Alexandria.
Enterprise Development.	Destination Marketing exhibitions events have been attended yearly at a provincial and national level.	There is a potential of forming partnerships with other municipalities who have demonstrated experience in hosting of signature events. Ndlambe LM requires at least 2 signature events per quarter to

2019-2023 PROJECTS AS PER THE STRATEGY	PROGRESS	2023-2028 LED PROJECTS PROPOSED
		cement itself as a destination for Tourism and Leisure.
Greening, Conservation of biodiversity	Although this responsibility falls within the ambit of Community Services, it is however a platform for job creation under the Commuity Works Programme. There exists an opportunity for SMMEs to access work on the removal of allien species, and rehabilitation of species and exotic plants that are getting into extinction.	There is a need for the Ndlambe LM to develop a Biodiversity Plan linked to the SPATIAL DEVELOPMENT FRAME and Land Use Management Strategy). The Municipality needs to respond to annual request for proposals for hosting of annual events in partnership with provincial and national departments of environment. Events such as the Greening and Biodiversity Events.
Enterprise Development and Support	More than 64 have be provided with equipment, tools of trade, by the National Department of Small Business with the Minister handing over the equipment to all the SMMEs. This is a watershed for the SMMEs in Ndlambe LM.	The LED Unit will develop a tool for monitoring and evaluation of the utilisation of funds and equipment funded by and through the municipality by key strategic partners.

Pillar 4: SKILLS DEVELOPMENT AND TRAINING

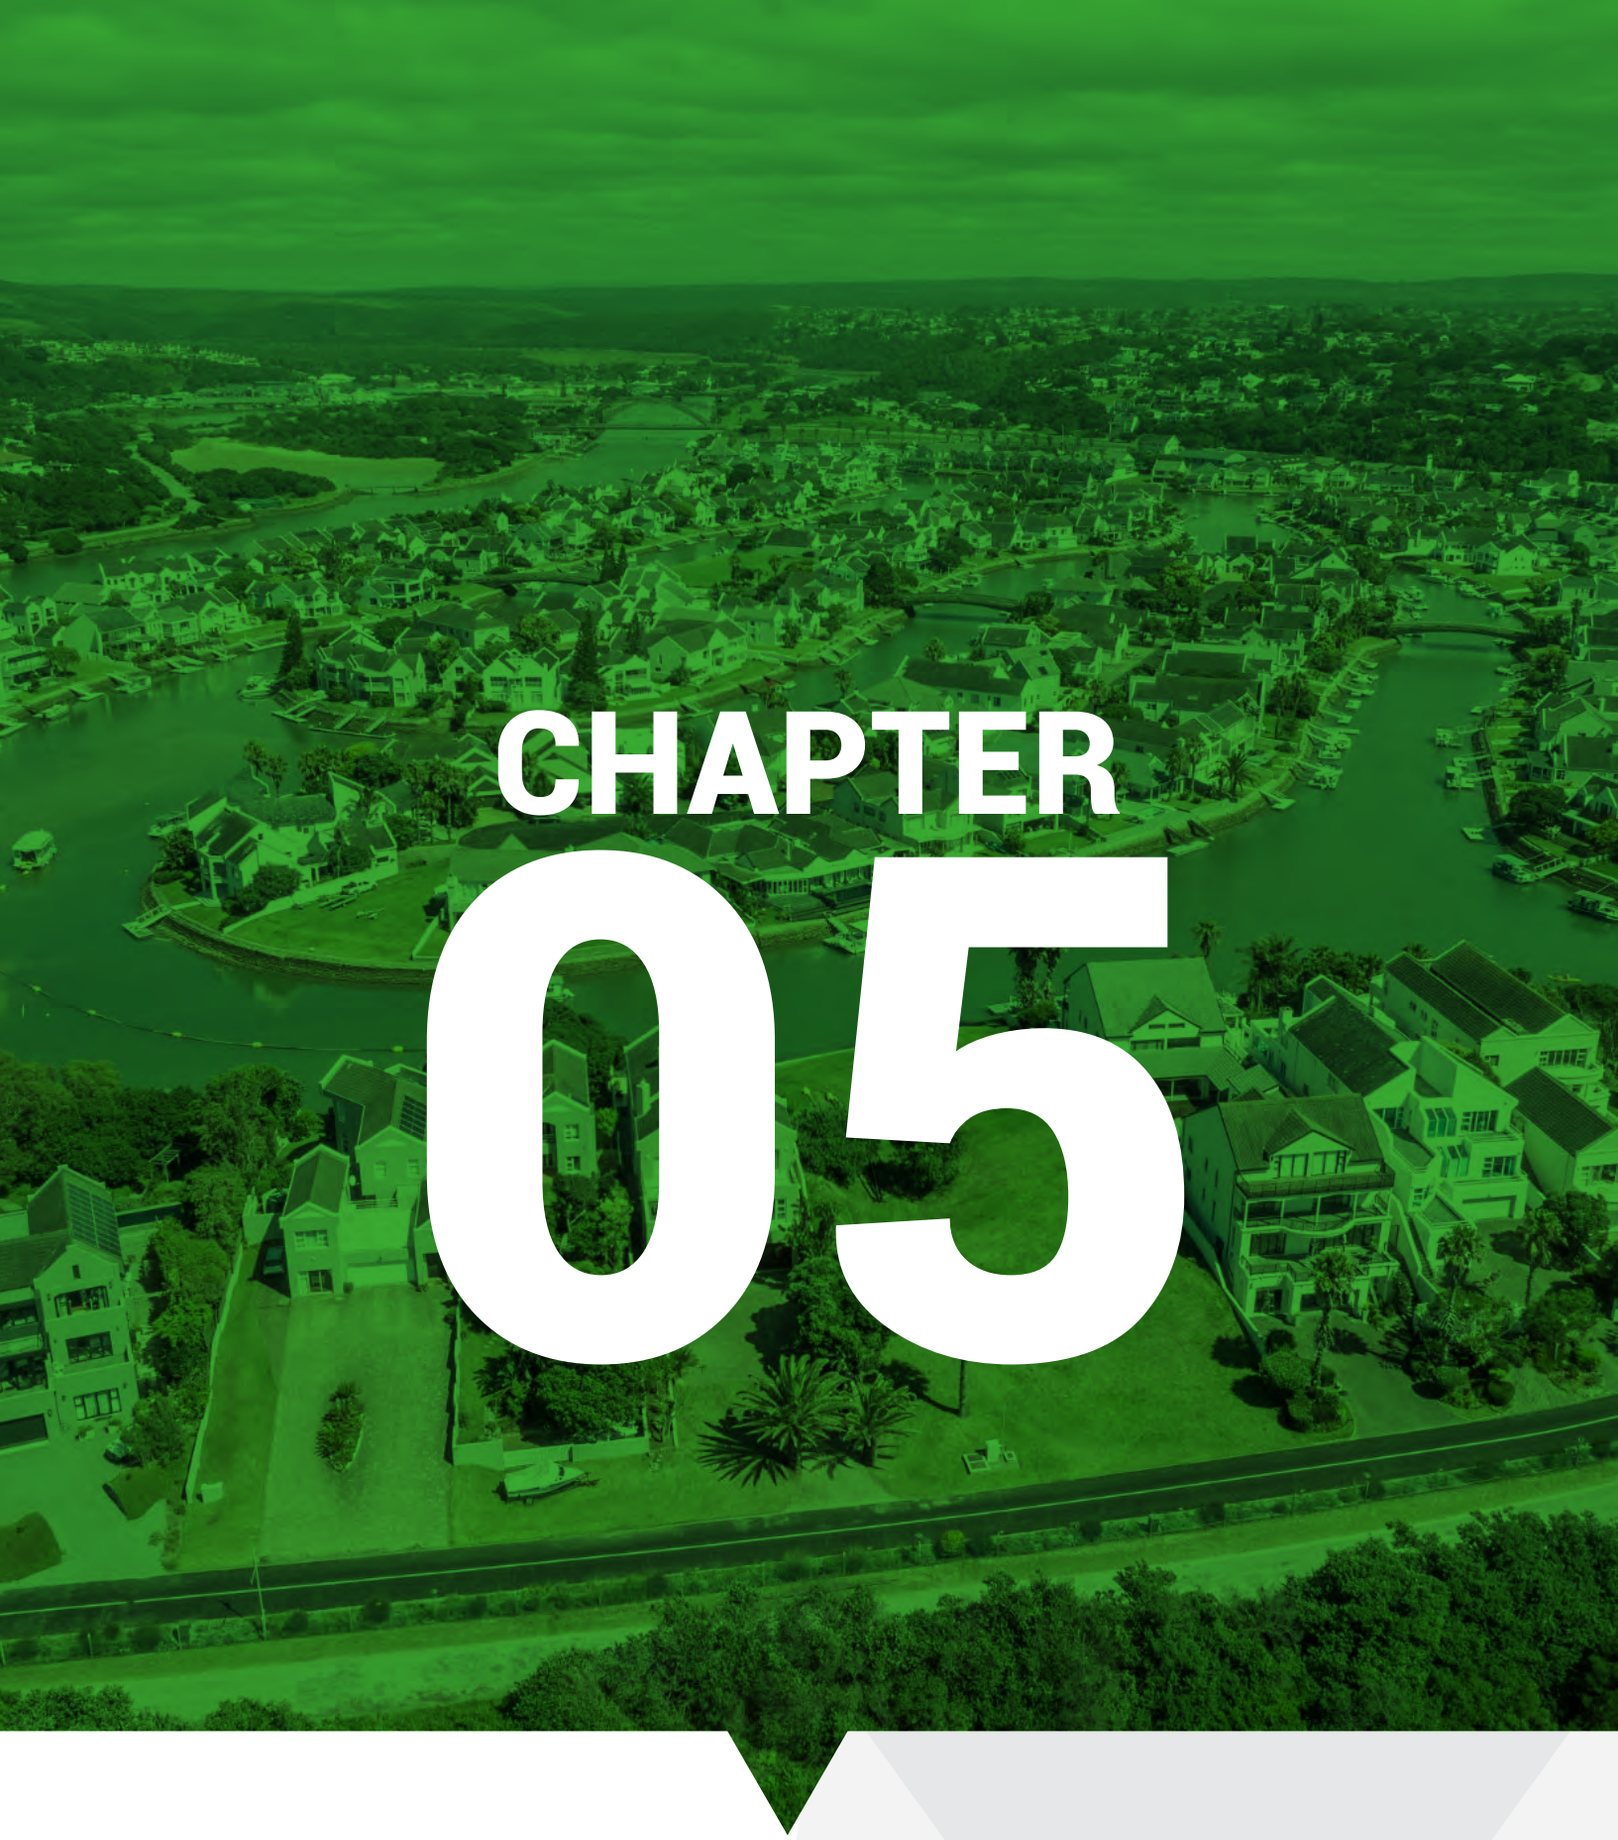

2019-2023 PROJECTS AS PER THE STRATEGY	PROGRESS	2023-2028 LED PROJECTS PPROPOSED
Training of SMMEs on Financial Management	SMMEs were trained on Financial Management including but not limited to: • Budgeting • Costing • Financial Statements • Compliance	Certificates to all learners who completed the training were awarded.
Training of Small-Scale Farmers on livestock management and improvement.	Small Scale Farmers from across the municipality were trained on the Livestock Management and Improvement. Farmers from the following areas were trained: • Alexandria – Kruisfontein • Burthurst • Trapps Valley Certificates were therefore awarded to deserving farmers who completed the programme. Piggery Farmers were also trained on Piggery and Management. This was linked to a programme championed by the Office of the MM to supply Youth Start Ups with pigglets to grow and sell when they reach a certain age. Small Scale Farmers are required to have	A Piggery Support Project has been intensified and is championed through the office of the Municipal Manager. Small Scale Farmers are also supported with Feed and Medication for the pigglets.
Small Scale farmer development and support	Provincial office of Agriculture with its research institutions (Done) offers the following to our local famer Extension services, vet services, Economic Services, Crop Scientists Services. They offer farm infrastructure.	Intensify support for the farmers and make budgetory provisions for support programs.
SMME Contractor Development training and support.	Training of SMME Contractors on the following: • Supply Chain Management • Bidding processes • Tendering and Procurement • Costing a Bid Document. Etc.	The SMME Contractor Program has been made one of the Skills Programme where SMMEs are updated on new statutes and requirements from SARS or National Treasury.

Pillar 5: SOCIAL UPLIFTMENT

2019-2023 PROJECTS AS PER THE STRATEGY	PROGRESS	2023-2028 LED PROJECTS PPROPOSED
Street Paving: SMME Contractors have benefited from the street paving programme championed by the Infrastructure Department. Street Paving took place in Port Alfred, Kenton, Alexandria.	SMME Contractors who are CIDB Accredited on Civl Construction were afforded SMME Packages via a formal bidding process. The project catapulted some of the SMMEs to greater heights with some being appointed by SANRAL to preside over street paving projects.	The Ndlambe LM IDP stipulates their intention to have all streets paved as part of the Vision 2030.
Bulk Water Supply to the community. Installation of new piping to facilitate efficient supply of water to the communities and business.	The municipality has installed a Reverse Osmosis Plant that extract see water and filter it for consumption by households and business. Whilst this initatiative is intended to benefit the communities who need water services, it also benefits business and hopefully to attract medium and big enterprises to establish some of their outlets within the municipality.	The municipality intends to extend the project to other needy areas within the municipal jurisdiction.
Provision of free services and refuse collection for indigents and pensioners.	Although this is standard across Local Government, the provision of free water, refuse collection and electricity is a very important element of creating sustainable communities where indigents can access basic services.	The programme is continuous.
Piggery Project for households.	The Piggery Project driven by both the LED UNIT and the Office of the Municipal Manager has benefited a lot of households and communities resulting in households forming Cooperative Businesses to access grant funding so as to increase the numbers of their stock units. Households can slaughter the stock units when they reach a certain age and sell amongst themselves. This creates the “Self Help” phenomenon with households and communities trading amongst themselves.	The programme is continuous with the scale depending on the allocated budget.

Critical Challenges encountered by the municipality in the implementation of the LED strategy

- Shortage of quality and competent personnel to implement projects. (Full time Agric Officer, Tourism Officer, SMME Dev and Investment Promotion)
- Uncertainity and lack of strategy implementation due to budget cuts on LED
- Lack of coordination between key departments on the implementation of LED Programmes.
- Limited ability to tap into the resources of Sector Departments and other Government Agencies geared towards SMME Development.
- MIG Funding, Economic development share to be used to create jobs, improve local economic opportunities, and provide infrastructure that supports sustainable economic development while improving the quality of life in local communities. (Building and upgrading markets for informal traders. Development of small business areas, infrastructure that supports tourism such as access roads, parking areas and public amenities.)
- Tourism, one of Ndlambe's economic drivers continues to exclude Black Communities whose participation is only limited to cultural dancing and other insignificant activities. (Only recently, ABTO has been set up)
- The ownership patterns of land as a factor of production favours commercial farmers with communities only limited to Food Security Programs.
- Lack of capacity within LED unit to develop the strategy and monitor its implementation rather than to outsource the function.
- Insufficient partnership to effectively and efficiently implement the strategy
- The disjointed and uncordinated methods of implementation of LED Projects by government agencies and sector departments hampers what could be an efficient and effective utilisation of government resources, this impacts negatively on communities within the Ndlambe LM.
- Lethagy in government wheels of development leading to unspent resources at the end the financial period. The demise of Chicory SA is but one example.
- The communities continue to lose grip of the Township Economies with Foreign Nationals userping economic power in every square meter in the townships.

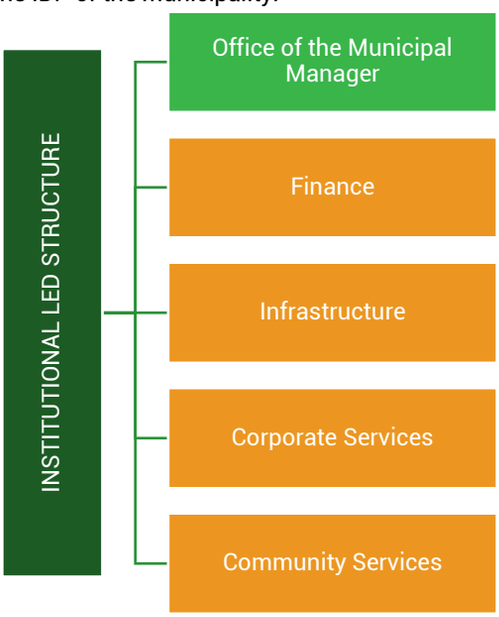

CHAPTER 05

Chapter 5

5.1. Ndlambe Local Municipality's Role on strategy implementation and its challenges

The municipality views LED as an integral part of the municipality whose functions are implemented by its internal departments. Local Economic Development is thus a cross cutting dimension in the implementation of the IDP of the municipality.

The role of Local Government is intrinsiclally the provision of basic services including but not limited to socio-economic infrastructure that facilitates sustainable livelihoods. Local Economic Development is not the competence of Local Government evidenced by the pitably small and inadiquate budget allocation compared to other programmes. This reinforces the argument that LED within Local Government is an UNFUNDED MANDATE with LED Units of local municipalities considering themselves lucky to receive a budget allocation of above R500k. (How ever this narrative is not uniform, it depends on the seriousness municipalities place on LED, examples are Nyandeni, Mbashe LM's) It is important, however, to highlight that Local Government is also paying for the inefficiencies and defficiences of sector departments, government agencies and development finance institutions mandated by government to develop enterprise and change the historical development patterns that continue to plague communities. The social contract that the municipality has with its communities puts it in the coal face of service delivery protest by communities, and this has to change.

It is equally important to note that the municipality must play an intergral role in the implementation of the LED Strategy as mandated by the Constitution and other different pieces of legislation via the following, *namely:*

- Facilitation of LED Strategy Development.
- Creation of an agile LED Unit with both reactive and proactive capability to respond to the needs of SMMEs and communities at large.
- Significant Budget allocation and Approval
- Development of a policy framework that includes but not limited to: By-laws, Land Use Management Policies, Socio Economic Infrastructure, Rates and Tax Laws implementation.
- Creating an enabling environment for SMMEs to prosper through the implementation of industry specific policies and regulations.
- Liberalising supply chain management processes in order ease the burden on Small Medium and Micro Enterprises.
- Respond to land development and building plan applications and fasttrek them if the need arises.
- Develop skills necessary within its LED unit to be able to do information collection, negotiation, facilitation towards strategy implementation, monitoring and valuation.
- Create Municipal-Business Communication and Customer Relationship Management (Electricity & Waste Management Services).
- Create partnerships between the public and private sector and local community members for effective and efficient approach to implementing LED strategy.

5.2. SOCIO ECONOMIC FACTORS AND ECONOMIC FACTORS

5.2.1. Economic Factors ("External").

The economic factors affecting Ndlambe LM are summarised in the Socioeconomic Profile, which is contained in the ensuing paragraphs of this document.

5.2.2. Social Factors ("External").

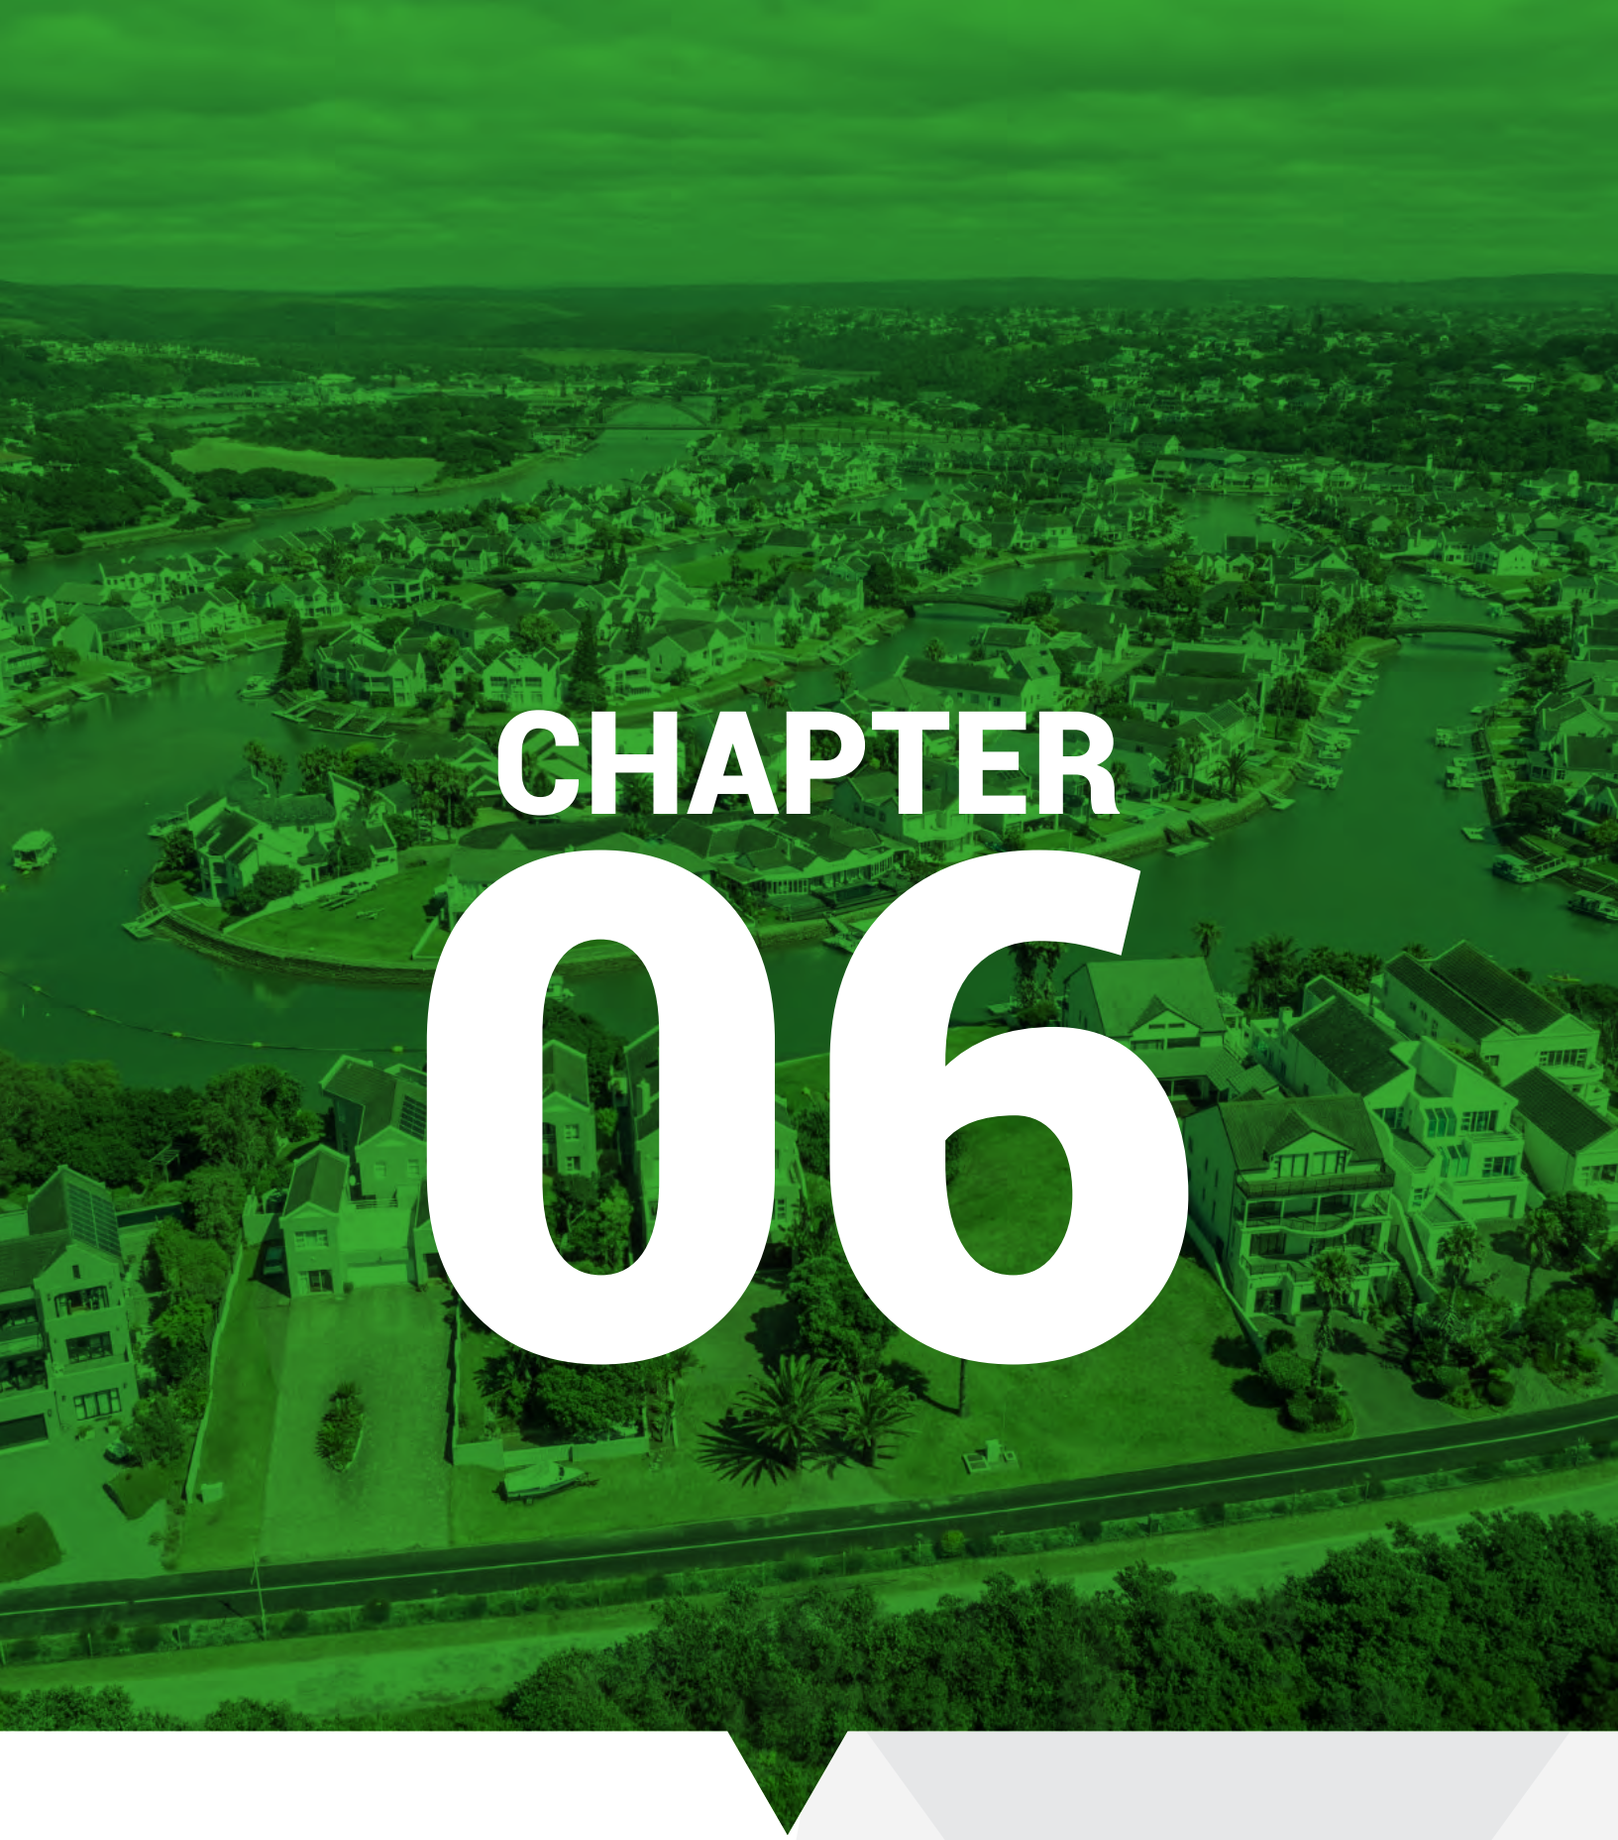

The social factors that will have an impact and shall be taken into consideration in pursuit of economic development are summarised as follows: -

- The cruel reality of foreign nationals dominating Township Economies continues to impede participation of South Africans in the development of their own economies. This compounds the challenges of the historical development patterns that excluded Black commuties from pariticipating meaningfully in the broader South African economy.
- Low capital base for SMMEs to invest in businesses and other social enterprises.
- Risk adverse Development Finance Institutions whose policies lack the appreciation of the apartheid legacies on economic development and separate development patterns, as a result SMMEs find it difficult to access finance.
- The Township Economy (formal and informal) is in the hands of foreign nationals who do not experience the same challenges as South Africans in accessing business finance. The SPAZA Shops belonging to Foreign Nationals account for more than R40 billion and that revenue is not recycled into the local economy. South Africans and the indeginous communities of Ndlambe LM have no agency in their township economies.
- Approximately 34% of Ndlambe LM communities are unemployed, predominantly youth.

5.2.3. Technological Factors ("External").

Technological factors as catalysts to economic development are summarised as follows:-

- Broadband being installed to facilitate improved ways of doing business.
- Few technology centers offering training on literacy programs in computers.
- Very few people have access to computers for home use.

CHAPTER 06

Chapter 6

6. Statistical overview: Ndlambe Local Municipality (Situational Analysis)

The following Statistical Overview Report aims to quantify the economic, demographic and socio-economic environment of Ndlambe Local Municipality in context of its neighbouring regions, the district, the province and South Africa. A better understanding of the demographic, economic and socio-economic environment could inform stakeholders to implement and monitor plans and policies that will allow for a healthy, growing and inclusive economy and society.

Understanding the changes in the composition of the population with respect to population group, age and gender is vital in the face of growing pressure on food, energy, water, jobs and social support on the country's citizens. An understanding of how the total fertility rates, age-specific fertility rates, sex ratios at birth, life expectancies and international migration affect the respective population groups, ages and genders is essential for effective planning on a spatial level. The first section of the Statistical Overview Report will aim to disentangle the changes in the Ndlambe Local Municipality demographics in context of other locals of the region, the districts, the Province and South Africa.

The second section will provide insights into the economic environment of Ndlambe Local Municipality in relation to the other local municipality in the region, the district, the province and South Africa's performance. The changing economic environment subsequently influences the ability of the economy to create jobs. This section will therefore also include analysis on the employment and subsequent income dynamics of Ndlambe Local Municipality.

The third component of the Statistical Overview will investigate issues pertaining to the socio-economic environment of residents in Ndlambe Local Municipality. Analysis will include a review of the Human Development Index (HDI), Gini, poverty, education, population density, crime, bulk infrastructure, international trade and tourism indicators relative to that of the other locals of the region, the districts, the Province and South Africa.

6.1 Demography

"Demographics", or "population characteristics", includes analysis of the population of a region. Distributions of values within a demographic variable, and across households, as well as trends over time are of interest.

In this section, an overview is provided of the demography of the Ndlambe Local Municipality and all its neighbouring regions, Sarah Baartman District Municipality, Eastern Cape Province and South Africa as a whole.

6.2 Total population

Population statistics is important when analysing an economy, as the population growth directly and indirectly impacts employment and unemployment, as well as other economic indicators such as economic growth and per capita income.

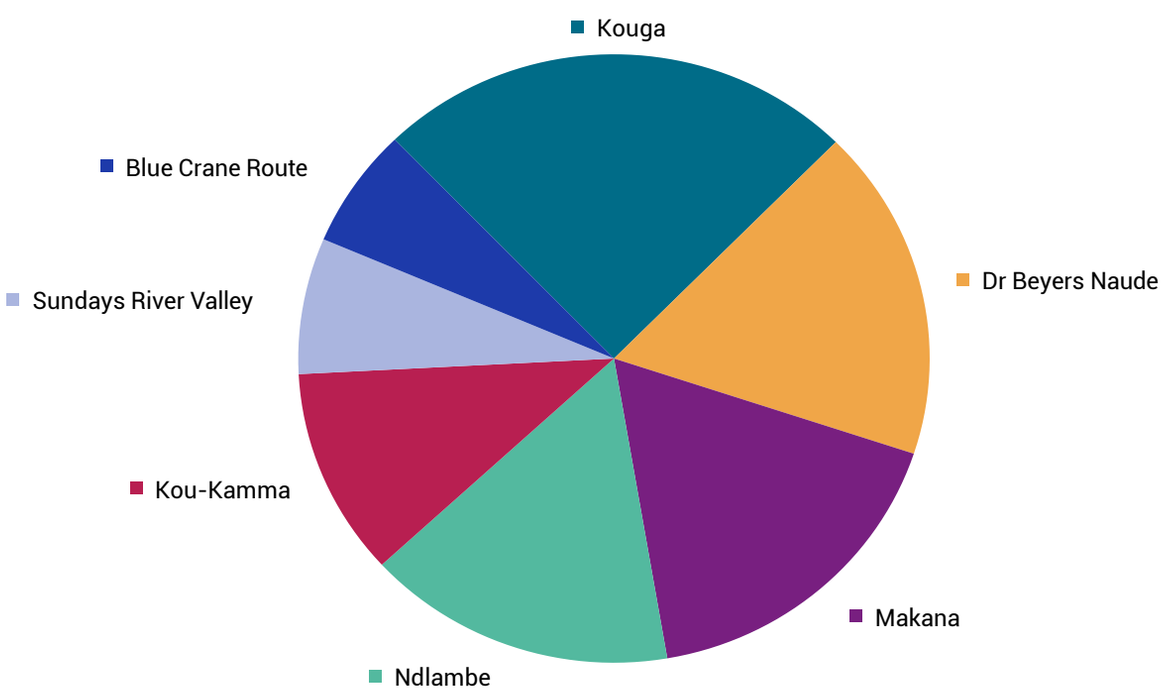

TABLE 1. Total population - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [Numbers percentage]

	Ndlambe	Sarah Baartman	Eastern Cape	National Total	Ndlambe as % of district municipality	Ndlambe as % of province	Ndlambe as % of national
2014	65,200	457,000	6,640,000	55,800,000	14.3%	0.98%	0.12%
2015	66,600	462,000	6,710,000	56,600,000	14.4%	0.99%	0.12%
2016	68,000	466,000	6,780,000	57,500,000	14.6%	1.00%	0.12%
2017	69,200	469,000	6,840,000	58,200,000	14.8%	1.01%	0.12%
2018	70,400	470,000	6,900,000	59,000,000	15.0%	1.02%	0.12%
2019	71,500	472,000	6,960,000	59,700,000	15.1%	1.03%	0.12%
2020	72,500	473,000	7,020,000	60,400,000	15.3%	1.03%	0.12%
2021	73,400	473,000	7,060,000	61,000,000	15.5%	1.04%	0.12%
2022	74,100	472,000	7,100,000	61,600,000	15.7%	1.04%	0.12%
2023	74,900	474,000	7,150,000	62,200,000	15.8%	1.05%	0.12%
2024	75,600	477,000	7,210,000	62,900,000	15.8%	1.05%	0.12%
Average Annual growth							
2014-2024	1.49%	0.43%	0.83%	1.21%			

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.

With 75 600 people, the Ndlambe Local Municipality housed 0.1% of South Africa's total population in 2024. Between 2014 and 2024 the population growth averaged 1.49% per annum which is slightly higher than the growth rate of South Africa as a whole (1.21%). Compared to Sarah Baartman's average annual growth rate (0.43%), the growth rate in Ndlambe's population at 1.49% was significantly higher than that of the district municipality.

CHART 1. Total population - Ndlambe and the rest of Sarah Baartman, 2024 [Percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025. © 2025 S&P Global.

When compared to other regions, the Ndlambe Local Municipality accounts for a total population of 75,600, or 15.8% of the total population in the Sarah Baartman District Municipality, with the Kouga being the most populous region in the Sarah Baartman District Municipality for 2024. The ranking in terms of the size of Ndlambe compared to the other regions remained the same between 2014 and 2024. In terms of its share the Ndlambe Local Municipality was significantly larger in 2024 (15.8%) compared to what it was in 2014 (14.3%). When looking at the average annual growth rate, it is noted that Ndlambe ranked highest (relative to its peers in terms of growth) with an average annual growth rate of 1.5% between 2014 and 2024.

6.1.1. Population Projections

Based on the present age-gender structure and the present fertility, mortality and migration rates, Ndlambe's population is projected to grow at an average annual rate of 0.5% from 75 600 in 2024 to 77 600 in 2029.

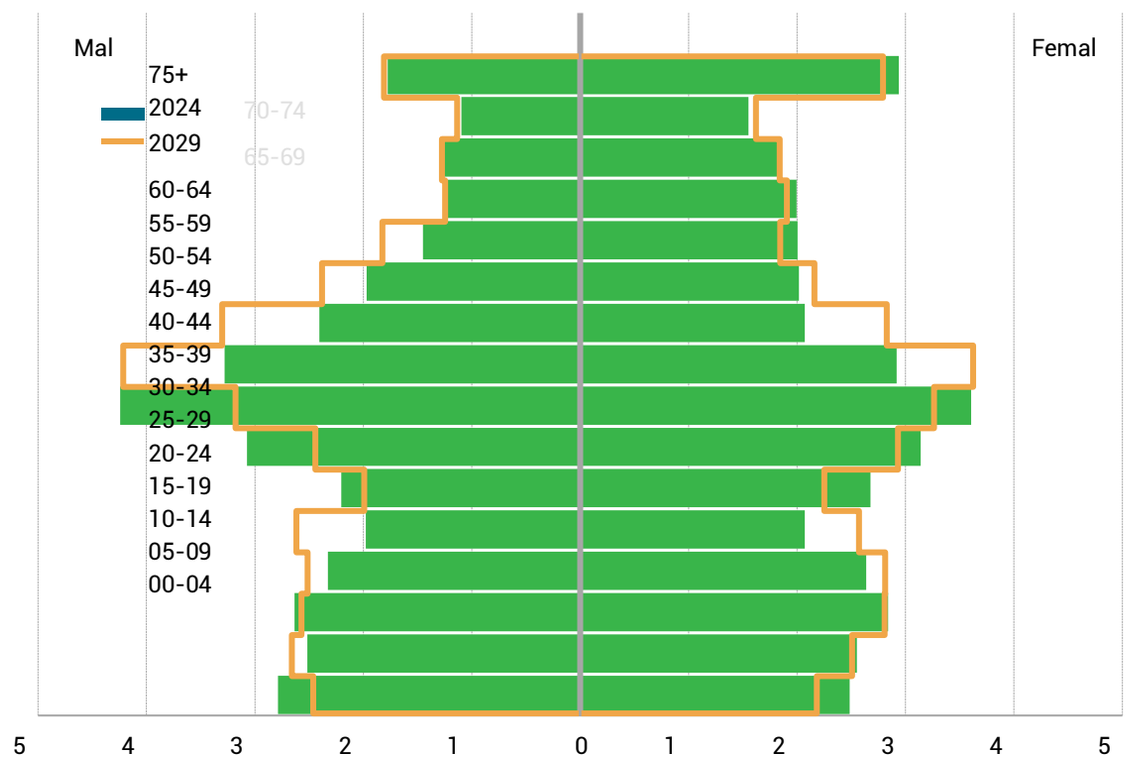

TABLE 2. Population projections - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2024-2029 [Numbers percentage]

	Ndlambe	Sarah Baartman	Eastern Cape	National Total	Ndlambe as % of district municipality	Ndlambe as % of province	Ndlambe as % of national
2024	75,600	477,000	7,210,000	62,900,000	15.8%	1.05%	0.12%
2025	76,200	479,000	7,260,000	63,600,000	15.9%	1.05%	0.12%
2026	76,500	481,000	7,280,000	64,100,000	15.9%	1.05%	0.12%
2027	76,800	482,000	7,310,000	64,500,000	15.9%	1.05%	0.12%
2028	77,200	484,000	7,330,000	65,000,000	15.9%	1.05%	0.12%
2029	77,600	486,000	7,360,000	65,500,000	15.9%	1.05%	0.12%
Average Annual growth							
2024-2029	0.52%	0.40%	0.40%	0.79%			

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

The population projection of Ndlambe Local Municipality shows an estimated average annual growth rate of 0.5% between 2024 and 2029. The average annual growth rate in the population over the projection period for Sarah Baartman District Municipality, Eastern Cape Province and South Africa is 0.4%, 0.4% and 0.8% respectively. The Eastern Cape Province is estimated to have an average growth rate of 0.4% which is very similar than that of the Ndlambe Local Municipality. The South Africa as a whole is estimated to have an average annual growth rate of 0.8% which is very similar than that of Ndlambe's projected growth rate

CHART 2. Population pyramid - Ndlambe Local Municipality, 2024 vs. 2029 [Percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

The population pyramid reflects a projected change in the structure of the population from 2024 and 2029. The differences can be explained as follows:

- In 2024, there is a slightly larger share of young working age people between 20 and 34 (20.0%), compared to what is estimated in 2029 (19.1%). This age category of young working age population will decrease over time.
- The fertility rate in 2029 is estimated to be slightly higher compared to that experienced in 2024.
- The share of children between the ages of 0 to 14 years is projected to be significantly smaller (19.6%) in 2029 when compared to 2024 (20.9%).

In 2024, the female population for the 20 to 34 years age group amounts to 10.4% of the total female population while the male population group for the same age amounts to 9.6% of the total male population. In 2029, the male working age population at 9.1% does not exceed that of the female population working age population at 10.0%, although both are at a lower level compared to 2024.

6.2. Population by population group, gender and age

The total population of a region is the total number of people within that region measured in the middle of the year. Total population can be categorised according to the population group, as well as the sub-categories of age and gender. The population groups include African, White, Coloured and Asian, where the Asian group includes all people originating from Asia, India and China. The age subcategory divides the population into 5-year cohorts, e.g. 0-4, 5-9, 10-13, etc.

TABLE 3. Population by gender - Ndlambe and the rest of Sarah Baartman District Municipality, 2024 [Number].

District	Male	Female	Total
Ndlambe	36,255	39,319	75,574
Dr Beyers Naude	40,357	43,872	84,230
Blue Crane Route	14,763	15,595	30,359
Makana	38,955	43,207	82,163
Sundays River Valley	17,332	17,135	34,467
Kouga	57,040	60,375	117,415
Kou-Kamma	25,999	26,623	52,622
Sarah Baartman	230,702	246,128	476,829

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

Ndlambe Local Municipality's male/female split in population was 92.2 males per 100 females in 2024. The Ndlambe Local Municipality has significantly more females (52.03%) than males, when compared to a typical stable population. This is most probably an area with high male out migration to look for work elsewhere. In total there were 39 300 (52.03%) females and 36 200 (47.97%) males. This is different from the Sarah Baartman District Municipality as a whole where the female population counted 246 000 which constitutes 51.62% of the total population of 477 000.

TABLE 4. Population by population group, gender and age - Ndlambe Local Municipality, 2024 [Number].

	African		White		Coloured	
	Female	Male	Female	Male	Female	Male
00-04	2,120	2,320	140	183	211	279
05-09	2,170	2,050	131	201	239	241
10-14	2,410	2,220	184	160	238	243
15-19	2,220	1,980	192	151	219	186
20-24	1,710	1,620	186	159	171	176
25-29	2,180	1,880	240	152	233	147
30-34	2,720	2,680	210	193	196	187
35-39	3,080	3,650	284	282	226	274
40-44	2,430	2,690	254	343	205	227

	African		White		Coloured	
	Female	Male	Female	Male	Female	Male
45-49	1,610	1,920	303	269	153	211
50-54	1,500	1,350	356	413	148	203
55-59	1,370	841	462	429	161	172

75+	1,020	265	1,830	1,450	85	60
Total	29,500	27,000	6,830	6,170	2,780	2,880

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

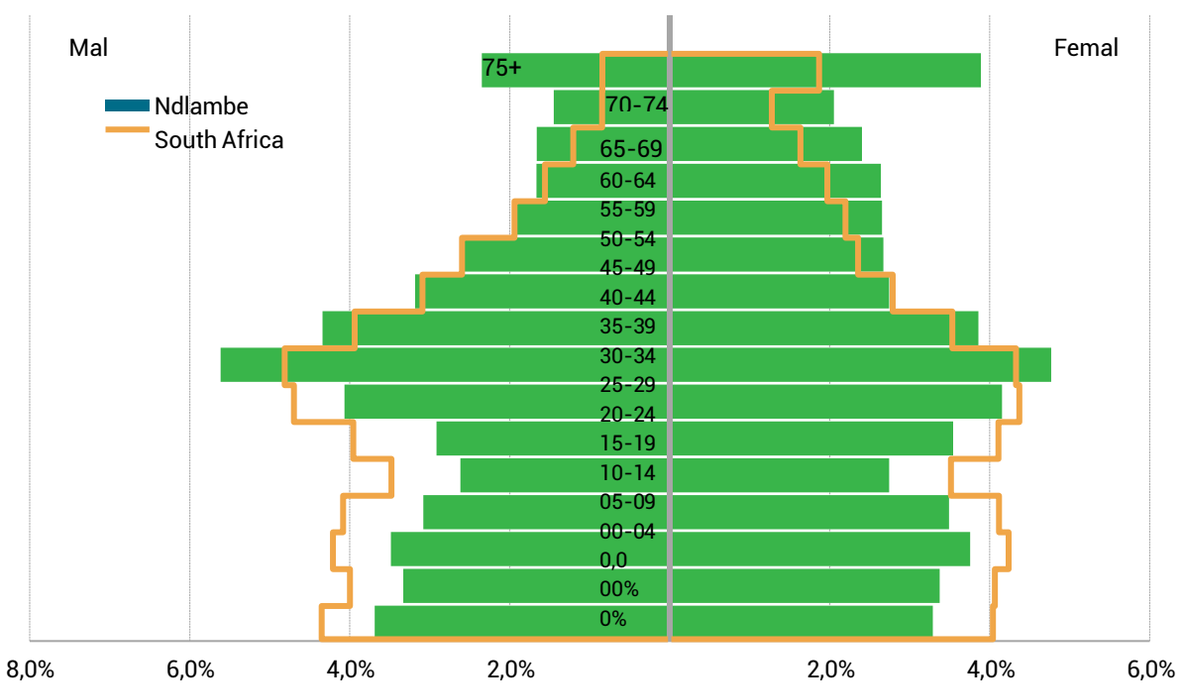

In 2024, the Ndlambe Local Municipality's population consisted of 74.74% African (56 500), 17.20% White (13 000),7.49% Coloured (5 660) and 0.56% Asian (427) people. The largest share of population is within the young working age (25-44 years) age category with a total number of 25 100 or 33.3% of the total population. The age category with the second largest number of people is the babies and kids (0-14 years) age category with a total share of 20.9%, followed by the older working age (45-64 years) age category with 15 200 people. The age category with the least number of people is the teenagers and youth (15-24 years) age category with only 9 020 people, as reflected in the population pyramids below.

6.2.1. Population pyramids

Definition: A population pyramid is a graphic representation of the population categorised by gender and age, for a specific year and region. The horizontal axis depicts the share of people, where the male population is charted on the left-hand side and the female population on the right-hand side of the vertical axis. The vertical axis is divided in 5-year age categories.

With the African population group representing 74.7%of the Ndlambe Local Municipality's total population, the overall population pyramid for the region will mostly reflect that of the African population group. The chart below compares Ndlambe's population structure of 2024 to that of South Africa.

CHART 3. Population pyramid - Ndlambe Local Municipality vs. South Africa, 2024 [Percentage]

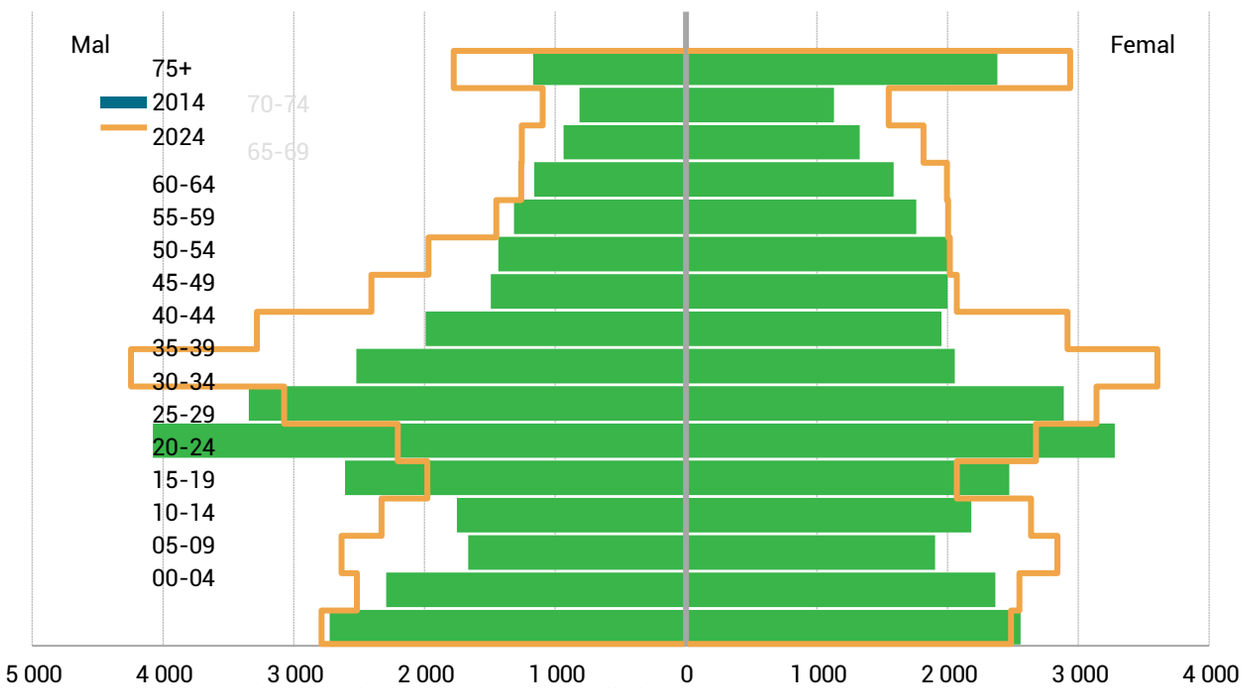

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025. © 2025 S&P Global.

By comparing the population pyramid of the Ndlambe Local Municipality with the national age structure, the most significant differences are:

- There is a significantly smaller share of young working age people - aged 20 to 34 (20.0%) - in Ndlambe, compared to the national picture (24.1%).
- The area seems to be a migrant sending area, with many people leaving the area to find work in the bigger cities.
- Fertility in Ndlambe is slightly lower compared to South Africa as a whole.
- Spatial policies changed since 1994.
- The share of children between the ages of 0 to 14 years is significantly smaller (20.9%) in Ndlambe compared to South Africa (24,9%). Demand for expenditure on schooling as percentage of total budget within Ndlambe Local Municipality will therefore be lower than that of South Africa.

CHART 4. Population pyramid - Ndlambe Local Municipality, 2014 vs. 2024 [Percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.

© 2025 S&P Global.

When comparing the 2014 population pyramid with the 2024 pyramid for the Ndlambe Local Municipality, some interesting differences are visible:

- In 2014, there were a significantly larger share of young working age people - aged 20 to 34 (28.6%) - compared to 2024 (20.0%).
- Fertility in 2014 was slightly higher compared to that of 2024.
- The share of children between the ages of 0 to 14 years is slightly smaller in 2014 (20.7%) compared to 2024 (20.9%).
- Life expectancy is increasing.

In 2024, the female population for the 20 to 34 years age group amounted to 13.3% of the total female population while the male population group for the same age amounted to 15.4% of the total male population. In 2014 the male working age population at 9.6% did not exceeds that of the female population working age population at 10.4%.

6.3. Number of households by population group

Definition: A household is either a group of people who live together and provide themselves jointly with food and/or other essentials for living, or it is a single person living on his/her own. An individual is considered part of a household if he/she spends at least four nights a week within the household. To categorise a household according to population group, the population group to which the head of the household belongs, is used.

If the number of households is growing at a faster rate than that of the population it means that the average household size is decreasing, and vice versa. In 2024, the Ndlambe Local Municipality comprised of 26 000 households. This equates to an average annual growth rate of 2.03% in the number of households from 2014 to 2024. With an average annual growth rate of 1.49% in the total population, the average household size in the Ndlambe Local Municipality is by implication decreasing. This is confirmed by the data where the average household size in 2014 decreased from approximately 3.1 individuals per household to 2.9 persons per household in 2024.

TABLE 5. Number of households - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [Number percentage]

	Ndlambe	Sarah Baartman	Eastern Cape	National Total	Ndlambe as % of district municipality	Ndlambe as % of province	Ndlambe as % of national
2014	21,200	137,000	1,800,000	16,500,000	15.6%	1.18%	0.13%
2015	21,900	139,000	1,840,000	17,000,000	15.8%	1.19%	0.13%
2016	22,600	142,000	1,890,000	17,400,000	16.0%	1.19%	0.13%
2017	23,300	144,000	1,940,000	17,800,000	16.2%	1.20%	0.13%
2018	23,700	145,000	1,970,000	17,900,000	16.4%	1.20%	0.13%
2019	23,500	143,000	1,940,000	17,900,000	16.5%	1.22%	0.13%
2020	23,200	140,000	1,900,000	17,900,000	16.6%	1.22%	0.13%
2021	23,900	142,000	1,940,000	18,100,000	16.9%	1.23%	0.13%
2022	24,900	144,000	2,020,000	18,600,000	17.3%	1.23%	0.13%
2023	25,500	146,000	2,060,000	18,900,000	17.4%	1.24%	0.13%
2024	26,000	149,000	2,090,000	19,200,000	17.5%	1.24%	0.14%
Average Annual growth							
2014-2024	2.03%	0.85%	1.51%	1.56%			

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.© 2025 S&P Global.

Relative to the district municipality, the Ndlambe Local Municipality had a higher average annual growth rate of 2.03% from 2014 to 2024. In contrast, the province had an average annual growth rate of 1.51% from 2014. The South Africa had a total of 19.2 million households, with a growth rate of 1.56%, thus growing at a lower rate than the Ndlambe.

The composition of the households by population group consists of 70.7% which is ascribed to the African population group with the largest number of households by population group. The White population group had a total composition of 22.2% (ranking second). The Coloured population group had a total composition of 6.5% of the total households. The smallest population group by households is the Asian population group with only 0.6% in 2024.

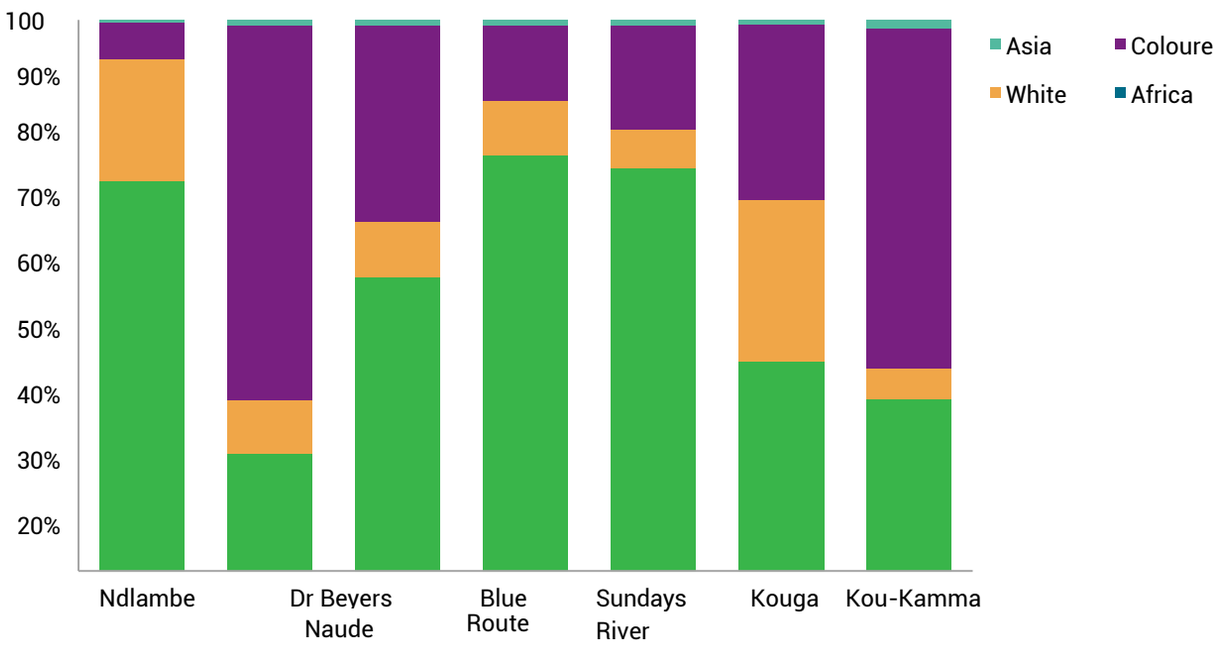

CHART 5. Number of households by population group - Ndlambe Local Municipality, 2024 [Percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.© 2025 S&P Global.

The growth in the number of African headed households was on average 1.80% per annum between 2014 and 2024, which translates in the number of households increasing by 3 010 in the period. Although the Asian population group is not the biggest in size, it was however the fastest growing population group between 2014 and 2024 at 4.12%. The average annual growth rate in the number of households for all the other population groups has increased with 2.02%.

6.4. HIV+ and AIDS estimates

HIV and AIDS can have a substantial impact on the growth of a particular population. However, there are many factors affecting the impact of the HIV virus on population progression: adult HIV prevalence rates; the speed at which the virus progresses; age distribution of the virus; the mother-to-child transmission; child treatment; adult treatment; and the percentage by which the virus decreases total fertility. ARV treatment can also prolong the lifespan of people that are HIV+. In the absence of any treatment, people diagnosed with HIV live for approximately 10 years before reaching the final stage of the disease (called AIDS). When patients reach this stage, recovery is highly unlikely.

HIV+ and AIDS estimates are defined as follows:

The HIV+ estimates are calculated by using the prevalence rates from the HIV/AIDS model built by the Actuarial Society of Southern Africa (ASSA-2008). These rates are used as base rates on a provincial level. S&P Global slightly adjusted the provincial ASSA-2008 data to more accurately reflect the national HIV Prevalence rate per population group as used in the national demographic models. The ASSA model in turn uses the prevalence rates from various primary data sets, in particular the HIV/AIDS surveys conducted by the Department of Health and the Antenatal clinic surveys. Their rates are further adjusted for over-reporting and then smoothed.

TABLE 6. Number of HIV+ people - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [Number and percentage]

	Ndlambe	Sarah Baartman	Eastern Cape	National Total	Ndlambe as % of district municipality	Ndlambe as % of province	Ndlambe as % of national
2014	7,190	39,000	681,000	6,310,000	18.4%	1.06%	0.11%
2015	7,360	39,500	694,000	6,460,000	18.6%	1.06%	0.11%
2016	7,520	39,800	707,000	6,610,000	18.9%	1.06%	0.11%
2017	7,700	40,300	721,000	6,790,000	19.1%	1.07%	0.11%
2018	7,880	40,600	737,000	6,970,000	19.4%	1.07%	0.11%
2019	8,050	40,900	751,000	7,150,000	19.7%	1.07%	0.11%
2020	8,200	41,000	765,000	7,330,000	20.0%	1.07%	0.11%
2021	8,350	41,100	778,000	7,510,000	20.3%	1.07%	0.11%
2022	8,510	41,100	793,000	7,710,000	20.7%	1.07%	0.11%
2023	8,710	41,800	811,000	7,920,000	20.9%	1.07%	0.11%
2024	8,920	42,500	830,000	8,140,000	21.0%	1.07%	0.11%
Average Annual growth							
2014-2024	2.17%	0.87%	2.00%	2.57%			

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.© 2025 S&P Global.

In 2024, 8 920 people in the Ndlambe Local Municipality were infected with HIV. This reflects an increase at an average annual rate of 2.17% since 2014, and in 2024 represented 11.80% of the local municipality's total population. The Sarah Baartman District Municipality had an average annual growth rate of 0.87% from 2014 to 2024 in the number of people infected with HIV, which is lower than that of the Ndlambe Local Municipality. The number of infections in the Eastern Cape Province increased from 681,000 in 2014 to 830,000 in 2024. When looking at the South Africa as a whole it can be seen that the number of people that are infected increased from 2014 to 2024 with an average annual growth rate of 2.57%.

The lifespan of people that are HIV+ could be prolonged with modern ARV treatments. In the absence of any treatment, people diagnosed with HIV can live for 10 years and longer before they reach the final AIDS stage of the disease.

CHART 7. AIDS profile and forecast - Ndlambe Local Municipality, 2014-2029 [numbers]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

Presenting the number of HIV+ people against the number of people living with AIDS, the people with AIDS added up to 192 in 2014 and 93 for 2024. This number denotes a decrease from 2014 to 2024 with a high average annual rate of -7.04% (or -99 people). For the year 2024, they represented 0.12% of the total population of the entire local municipality.

6.5. Economy

The economic state of Ndlambe Local Municipality is put in perspective by comparing it on a spatial level with its neighbouring locals, Sarah Baartman District Municipality, Eastern Cape Province and South Africa.

The Ndlambe Local Municipality does not function in isolation from Sarah Baartman, Eastern Cape Province, South Africa and the world and now, more than ever, it is crucial to have reliable information on its economy for effective planning. Information is needed that will empower the municipality to plan and implement policies that will encourage the social development and economic growth of the people and industries in the municipality respectively.

6.6. Gross domestic product by region (GDP-R)

The gross domestic product (GDP), an important indicator of economic performance, is used to compare economies and economic states.

Definition: Gross domestic product by region (GDP-R) represents the value of all goods and services produced within a region, over a period of one year, plus taxes and minus subsidies.

GDP-R can be measured using either current or constant prices, where the current prices measure the economy in actual Rand, and constant prices measures the economy by removing the effect of inflation, and therefore captures the real growth in volumes, as if prices were fixed in a given base year.

TABLE 7. Gross domestic product (GDP) - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [R billions, Current prices]

	Ndlambe	Sarah Baartman	Eastern Cape	National Total	Ndlambe as % of district municipality	Ndlambe as % of province	Ndlambe as % of national
2014	5.8	35.4	330.8	4,133.9	16.3%	1.75%	0.14%
2015	6.2	37.9	354.1	4,420.8	16.4%	1.76%	0.14%
2016	6.7	40.6	379.0	4,759.6	16.4%	1.76%	0.14%
2017	7.1	43.2	403.4	5,078.2	16.4%	1.76%	0.14%
2018	7.4	44.8	420.9	5,363.2	16.4%	1.75%	0.14%
2019	7.6	46.3	437.2	5,625.2	16.4%	1.74%	0.13%
2020	7.4	45.3	427.0	5,562.8	16.4%	1.74%	0.13%

2024	-2.1%	-1.7%	-0.2%	0.5%
Average Annual growth 2014-2024	-0.06%	0.09%	0.51%	0.67%

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.© 2025 S&P Global.

In 2024, the Ndlambe Local Municipality achieved an annual growth rate of -2.10% which is a significantly lower GDP growth than the Eastern Cape Province's -0.15%, but is lower than that of South Africa, where the 2024 GDP growth rate was 0.53%. Similar to the short-term growth rate of 2024, the longer-term average growth rate for Ndlambe (-0.06%) is also significantly lower than that of South Africa (0.67%). The economic growth in Ndlambe peaked in 2021 at 4.16%.

CHART 8. Gross domestic product (GDP) - Ndlambe Local Municipality and the rest of Sarah Baartman, 2024 [Percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025. © 2025 S&P Global.

The Ndlambe Local Municipality had a total GDP of R 9.48 billion and in terms of total contribution towards Sarah Baartman District Municipality the Ndlambe Local Municipality ranked third relative to all the regional economies to total Sarah Baartman District Municipality GDP. Ndlambe decreased in importance from ranking second in 2014 to third in 2024. In terms of its share, it was in 2024 (16.4%) very similar compared to what it was in 2014 (16.3%). For the period 2014 to 2024, the average annual growth rate of -0.1% of Ndlambe was the sixth relative to its peers in terms of growth in constant 2010 prices.

TABLE 9. Gross domestic product (GDP) - Regions within Sarah Baartman District Municipality, 2014 to 2024, share and growth

2024 (Current prices)		Share of district municipality	2014 (Constant prices)	2024 (Constant prices)	Average Annual growth
Ndlambe	9.48	16.38%	6.28	6.25	-0.06%
Dr Beyers Naude	7.92	13.69%	5.49	5.21	-0.53%

Makana had the highest average annual economic growth, averaging 0.78% between 2014 and 2024, when compared to the rest of the regions within Sarah Baartman District Municipality. The Sundays River Valley Local Municipality had the second highest average annual growth rate of 0.27%. Dr Beyers Naude Local Municipality had the lowest average annual growth rate of -0.53% between 2014 and 2024.

6.6.1. Economic growth forecast

It is expected that Ndlambe Local Municipality will grow at an average annual rate of 1.60% from 2024 to 2029. The average annual growth rate in the GDP of Sarah Baartman District Municipality and Eastern Cape Province is expected to be 1.62% and 2.00% respectively. South Africa is forecasted to grow at an average annual growth rate of 2.22%, which is higher than that of the Ndlambe Local Municipality.

CHART 9. Gross domestic product (GDP) - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2029 [Average annual growth rate, constant 2010 prices]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

In 2029, Ndlambe's forecasted GDP will be an estimated R 6.76 billion (constant 2010 prices) or 16.3% of the total GDP of Sarah Baartman District Municipality. The ranking in terms of size of the Ndlambe Local Municipality will remain the same between 2024 and 2029, with a contribution to the Sarah Baartman District Municipality GDP of 16.3% in 2029 compared to the 16.3% in 2024. At a 1.60% average annual GDP growth rate between 2024 and 2029, Ndlambe ranked the fourth compared to the other regional economies.

6.7. Gross value added by region (GVA-R)

The Ndlambe Local Municipality's economy is made up of various industries. The GVA-R variable provides a sector breakdown, where each sector is measured in terms of its value added produced in the local economy.

Definition: Gross value added (GVA) is a measure of output (total production) of a region in terms of the value that was created within that region. GVA can be broken down into various production sectors.

The summary table below puts the Gross Value Added (GVA) of all the regions in perspective to that of the Ndlambe Local Municipality.

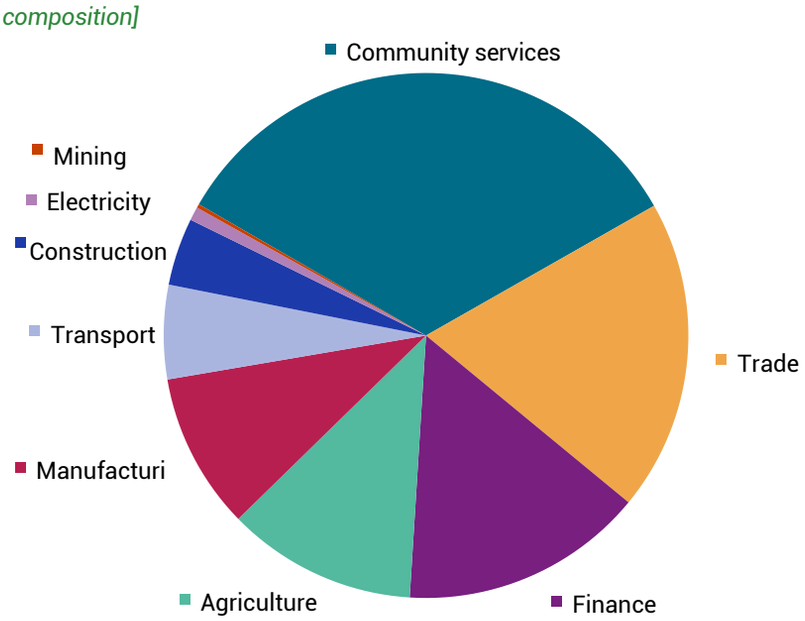

TABLE 11. Gross value added (GVA) by broad economic sector - Ndlambe Local Municipality, 2024 [R billions, current prices]

	2029 (Current prices)	Share of district municipality	2014 (Constant prices)	2029 (Constant prices)	Average Annual growth
Ndlambe	12.11	16.39%	6.28	6.76	0.49%
Dr Beyers Naude	9.87	13.37%	5.49	5.54	0.06%
Blue Crane Route	4.27	5.78%	2.25	2.44	0.54%
Makana	12.34	16.71%	6.07	7.17	1.12%
Sundays River Valley	5.43	7.35%	2.69	2.98	0.69%
Kouga	23.37	31.63%	12.11	13.16	0.56%
Kou-Kamma	6.48	8.78%	3.11	3.49	0.76%

© 2025 S&P Global.

In 2024, the community services sector is the largest within Ndlambe Local Municipality accounting for R 2.93 billion or 33.4% of the total GVA in the local municipality's economy. The sector that contributes the second most to the GVA of the Ndlambe Local Municipality is the trade sector at 19.2%, followed by the finance sector with 15.0%. The sector that contributes the least to the economy of Ndlambe Local Municipality is the mining sector with a contribution of R 20 million or 0.23% of the total GVA.

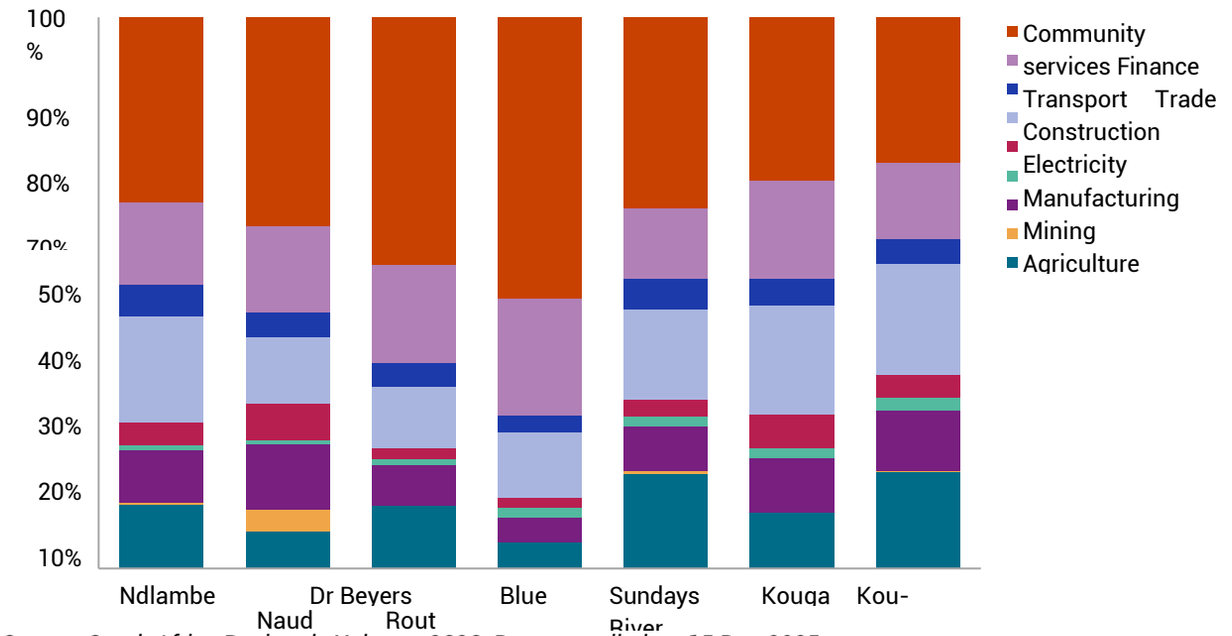

CHART 10. Gross value added (GVA) by broad economic sector - Ndlambe Local Municipality, 2024 [percentage composition]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

The community sector, which includes the government services, is generally a large contributor towards GVA. When looking at all the regions within the Sarah Baartman District Municipality, it is clear that the Kouga contributes the most community services towards its own GVA, with 26.11%, relative to the other regions within Sarah Baartman District Municipality. The Kouga contributed R 16.9 billion or 31.65% to the GVA of Sarah Baartman District Municipality.The Kouga also contributes the most the overall GVA of Sarah Baartman District Municipality

CHART 11. Gross value added (GVA) by broad economic sector - Ndlambe, Dr Beyers Naude, Blue Crane Route, Makana, Sundays River Valley, Kouga and Kou-Kamma, 2024 [percentage composition]

6.7.1. Historical economic growth

For the period 2024 and 2014, the GVA in the finance sector had the highest average annual growth rate in Ndlambe at 2.17%. The industry with the second highest average annual growth rate is the community services sector averaging at 0.54% per year. The mining sector had an average annual growth rate of -3.25%, while the construction sector had the lowest average annual growth of -4.61%. Overall, a negative growth existed for all the industries in 2024 with an annual growth rate of -1.95% since 2023.

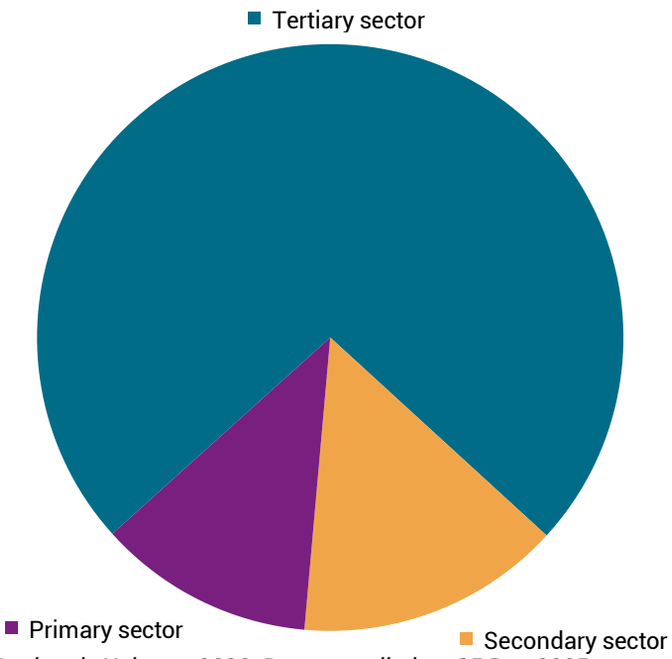

TABLE 12. Gross value added (GVA) by broad economic sector - Ndlambe Local Municipality, 2014, 2019 and 2024 [R millions, 2010 constant prices]

	2014	2019	2024	Average Annual growth
Agriculture	498.1	453.0	464.9	-0.69%
Mining	13.3	15.7	9.6	-3.25%
Manufacturing	540.0	553.6	502.3	-0.72%
Electricity	33.4	29.9	27.7	-1.86%
Construction	380.5	343.3	237.3	-4.61%
Trade	1,163.5	1,161.6	1,064.0	-0.89%
Transport	367.9	392.4	376.8	0.24%
Finance	771.4	856.3	956.4	2.17%
Community services	2,018.6	2,165.1	2,129.4	0.54%
Total Industries	5,786.6	5,971.0	5,768.4	-0.03%

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.

The tertiary sector contributes the most to the Gross Value Added within the Ndlambe Local Municipality at 73.5%. This is slightly higher than the national economy (69.9%). The secondary sector contributed a total of 14.6% (ranking second), while the primary sector contributed the least at 11.9%.

CHART 12. Gross value added (GVA) by aggregate economic sector - Ndlambe Local Municipality, 2024 [percentage]

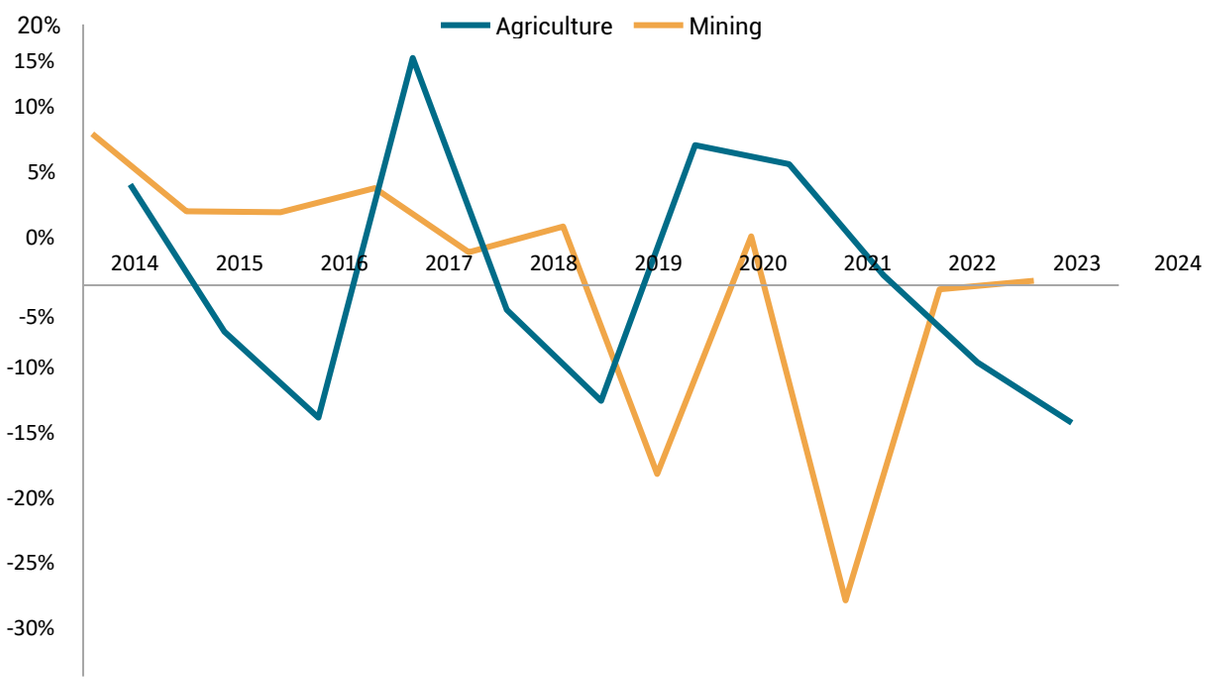

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

The following is a breakdown of the Gross Value Added (GVA) by aggregated sector:

6.7.1.1. PRIMARY SECTOR

The primary sector consists of two broad economic sectors namely the mining and the agricultural sector. The following chart represents the average growth rate in the GVA for both of these sectors in Ndlambe Local Municipality from 2014 to 2024.

CHART 13. Gross value added (GVA) by primary sector - Ndlambe, 2014-2024 [Annual percentage change]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

Between 2014 and 2024, the agriculture sector experienced the highest positive growth in 2017 with an average growth rate of 17.4%. The mining sector reached its highest point of growth of 9.8% in 2014. The agricultural sector experienced the lowest growth for the period during 2024 at -10.6%, while the mining sector reaching its lowest point of growth in 2022 at -26.0%. Both the agriculture and mining sectors are generally characterised by volatility in growth over the period.

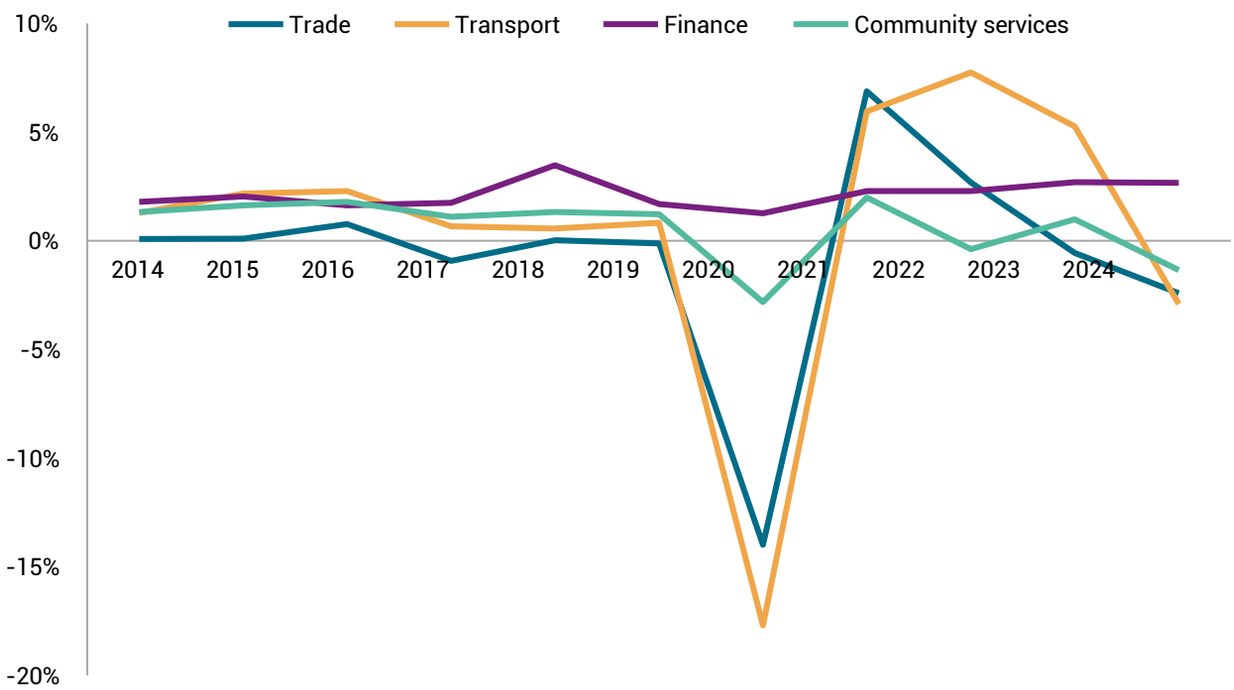

6.7.1.2. SECONDARY SECTOR

The secondary sector consists of three broad economic sectors namely the manufacturing, electricity and the construction sector. The following chart represents the average growth rates in the GVA for these sectors in Ndlambe Local Municipality from 2014 to 2024.

6.7.1.3. TERTIARY SECTOR

The tertiary sector consists of four broad economic sectors namely the trade, transport, finance and the community services sector. The following chart represents the average growth rates in the GVA for these sectors in Ndlambe Local Municipality from 2014 to 2024.

CHART 15. Gross value added (GVA) by tertiary sector - Ndlambe, 2014-2024 [Annual percentage change]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

The trade sector experienced the highest positive growth in 2021 with a growth rate of 6.9%. The transport sector reached its highest point of growth in 2022 at 7.7%. The finance sector experienced the highest growth rate in 2018 when it grew by 3.5% and recorded the lowest growth rate in 2020 at 1.3%. The Trade sector also had the lowest growth rate in 2020 at -14.0%. The community services sector, which largely consists of government, experienced its highest positive growth in 2021 with 2.0% and the lowest growth rate in 2020 with -2.8%.

6.7.2. Sector growth forecast

The GVA forecasts are based on forecasted growth rates derived from two sources: historical growth rate estimates and national level industry forecasts. The projections are therefore partly based on the notion that regions that have performed well in the recent past are likely to continue performing well (and vice versa) and partly on the notion that those regions that have prominent sectors that are forecast to grow rapidly in the national economy (e.g. finance and telecommunications) are likely to perform well (and vice versa). As the target year moves further from the base year (2010) so the emphasis moves from historical growth rates to national-level industry growth rates.

TABLE 13. Gross value added (GVA) by broad economic sector - Ndlambe Local Municipality, 2024-2029 [R millions, constant 2010 prices]

	Ndlambe		Sarah Baartman		Eastern Cape		National Total	
	2014	2024	2014	2024	2014	2024	2014	2024

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

The agriculture sector is expected to grow fastest at an average of 5.36% annually from R 465 million in Ndlambe Local Municipality to R 604 million in 2029. The community services sector is estimated to be the largest sector within the Ndlambe Local Municipality in 2029, with a total share of 35.5% of the total GVA (as measured in current prices), growing at an average annual rate of 0.8%. The sector that is estimated to grow the slowest is the mining sector with an average annual growth rate of -0.37%.

6.8. Labour

The labour force of a country consists of everyone of working age (above a certain age and below retirement) that are participating as workers, i.e. people who are actively employed or seeking employment. This is also called the economically active population (EAP). People not included are students, retired people, stay-at-home parents, people in prisons or similar institutions, people employed in jobs or professions with unreported income, as well as discouraged workers who cannot find work.

TABLE 14. Working age population in Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014 and 2024 [Number]

	Ndlambe	Sarah Baartman	Eastern Cape	National Total	Ndlambe as % of district municipality	Ndlambe as % of province	Ndlambe as % of national

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

The working age population in Ndlambe in 2024 was 49 300, increasing at an average annual rate of 1.17% since 2014. For the same period the working age population for Sarah Baartman District Municipality increased at 0.07% annually, while that of Eastern Cape Province increased at 0.72% annually. South Africa's working age population has increased annually by 1.27% from 37.4 million in 2014 to 42.4 million in 2024.

The graph below combines all the facets of the labour force in the Ndlambe Local Municipality into one compact view. The chart is divided into "place of residence" on the left, which is measured from the population side, and "place of work" on the right, which is measured from the business side.

6.9. Economically active population (EAP)

The economically active population (EAP) is a good indicator of how many of the total working age population are in reality participating in the labour market of a region. If a person is economically active, he or she forms part of the labour force.

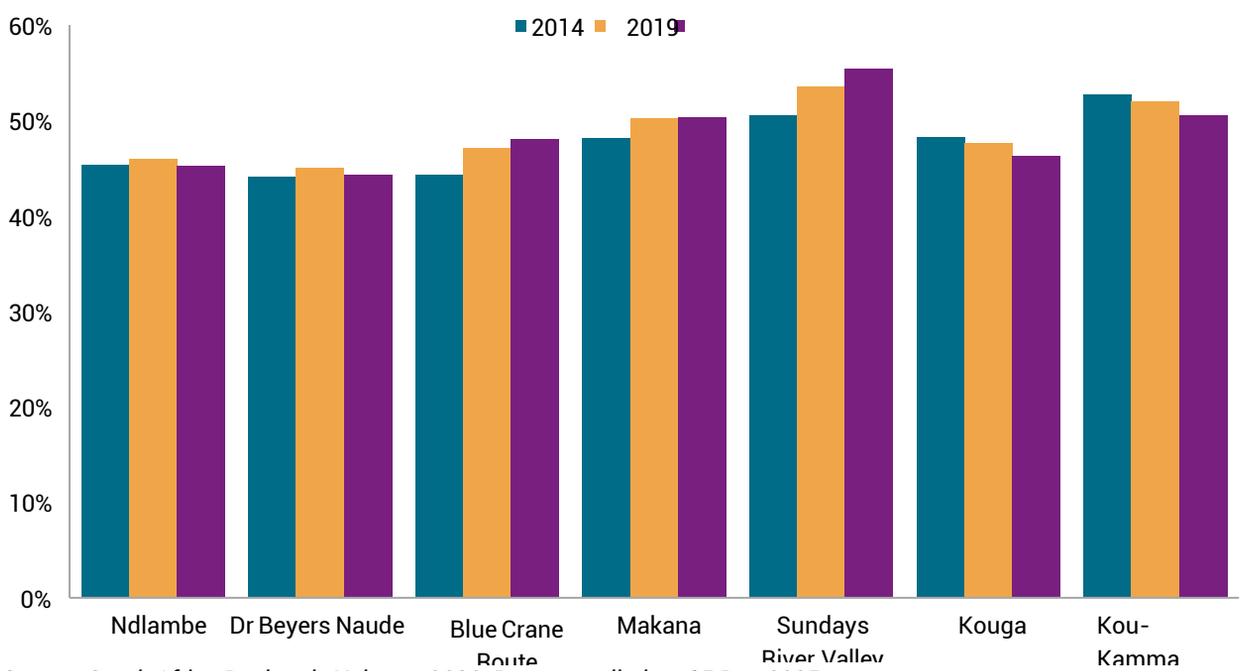

Definition: The economically active population (EAP) is defined as the number of people (between the age of 15 and 65) who are able and willing to work, and who are actively looking for work. It includes both employed and unemployed people. People, who recently have not taken any active steps to find employment, are not included in the measure. These people may (or may not) consider themselves unemployed. Regardless, they are counted as discouraged work seekers, and thus form part of the non-economically active population.

TABLE 15. Economically active population (EAP) - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [number, percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

Ndlambe Local Municipality's EAP was 34 200 in 2024, which is 45.19% of its total population of 75 600, and roughly 15.02% of the total EAP of the Sarah Baartman District Municipality. From 2014 to 2024, the average annual increase in the EAP in the Ndlambe Local Municipality was 1.47%, which is 0.993 percentage points higher than the growth in the EAP of Sarah Baartman's for the same period.

CHART 20. EAP as % of total population - Ndlambe and the rest of Sarah Baartman, 2014, 2019, 2024 [percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

In 2014, 45.3% of the total population in Ndlambe Local Municipality were classified as economically active which decreased to 45.2% in 2024. Compared to the other regions in Sarah Baartman District Municipality, Sundays River

Valley Local Municipality had the highest EAP as a percentage of the total population within its own region relative to the other regions. On the other hand, Dr Beyers Naude Local Municipality had the lowest EAP with 44.3% people classified as economically active population in 2024.

6.9.1. Labour force participation rate

Definition: The labour force participation rate (LFPR) is the Economically Active Population (EAP) expressed as a percentage of the total working age population.

The following is the labour participation rate of the Ndlambe, Sarah Baartman, Eastern Cape and National Total as a whole.

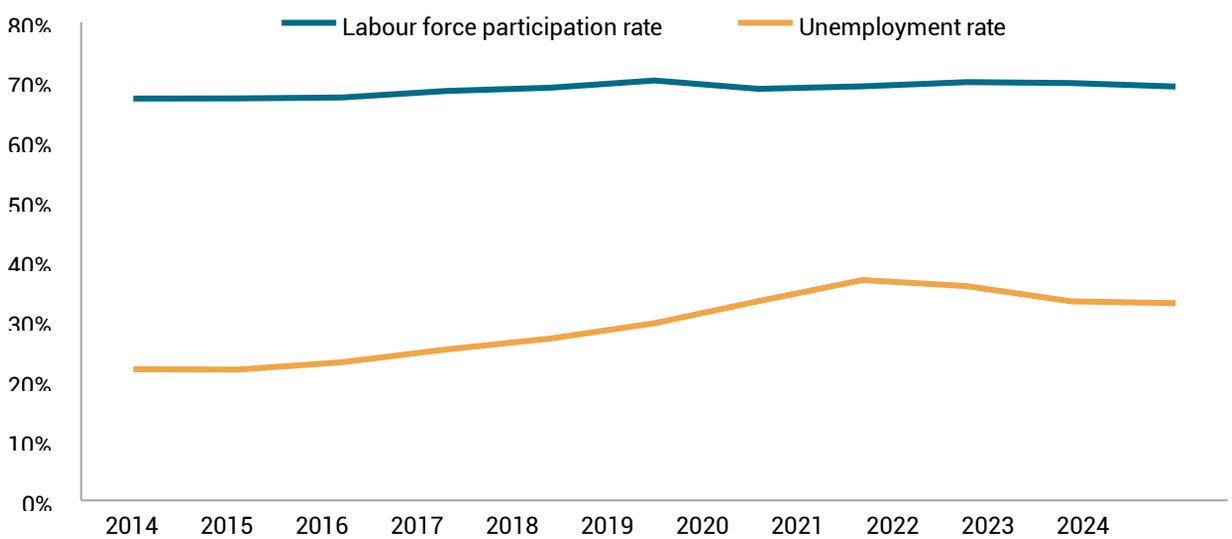

TABLE 16. The labour force participation rate - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [percentage]

Ndlambe	Sarah Baartman		Eastern Cape	National Total
2014	67.2%	69.4%	47.9%	59.0%
2015	67.3%	69.6%	48.2%	59.2%
2016	67.4%	69.8%	48.7%	59.1%
2017	68.5%	70.9%	50.0%	59.5%
2018	69.1%	71.6%	50.7%	59.4%
2019	70.3%	72.7%	52.1%	59.4%
2020	68.9%	71.3%	51.3%	57.0%
2021	69.3%	71.9%	52.0%	56.5%
2022	70.0%	72.8%	52.7%	57.8%
2023	69.8%	72.7%	52.4%	59.5%
2024	69.2%	72.3%	51.9%	60.3%

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

The Ndlambe Local Municipality's labour force participation rate increased from 67.24% to 69.24% which is an increase of 2 percentage points. The Sarah Baartman District Municipality increased from 69.43% to 72.27%, Eastern Cape Province increased from 47.94% to 51.87% and South Africa increased from 59.00% to 60.26% from 2014 to 2024.The Ndlambe Local Municipality labour force participation rate exhibited a lower percentage point change compared to the Eastern Cape Province from 2014 to 2024. The Ndlambe Local Municipality had a higher labour force participation rate when compared to South Africa in 2024.

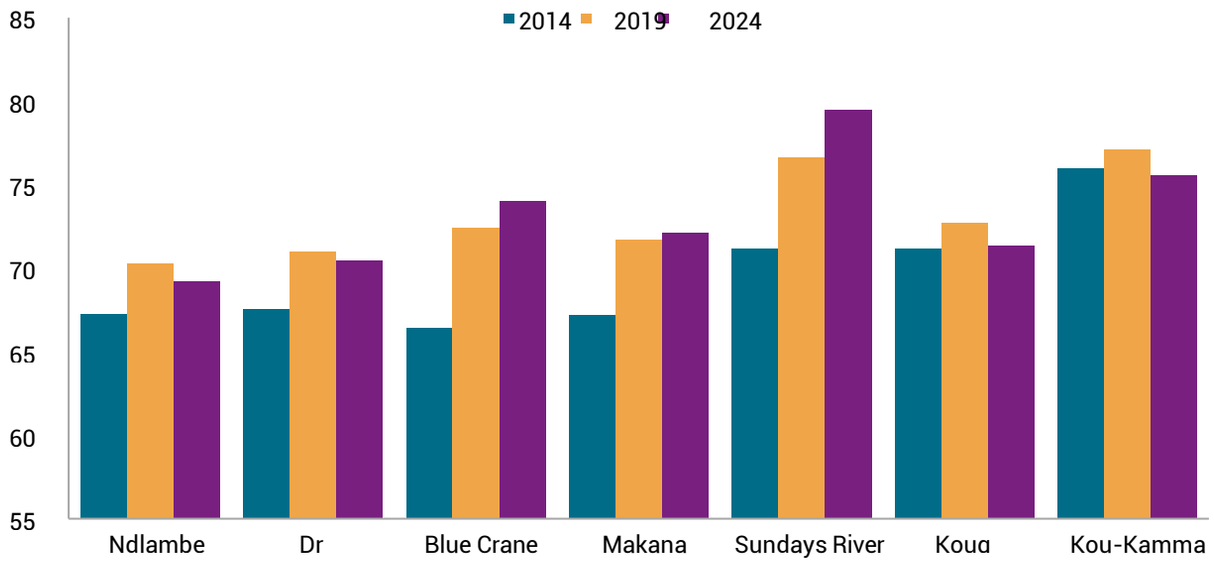

CHART 21. The labour force participation and unemployment rates - Ndlambe Local Municipality, 2014-2024 [percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.© 2025 S&P Global.

In 2024 the labour force participation rate for Ndlambe was at 69.2% which is slightly higher when compared to the 67.2% in 2014. The unemployment rate is an efficient indicator that measures the success rate of the labour force relative to employment. In 2014, the unemployment rate for Ndlambe was 21.9% and increased overtime to 33.0% in 2024. The gap between the labour force participation rate and the unemployment rate decreased which indicates a negative outlook for the employment within Ndlambe Local Municipality.

CHART 22. The labour force participation rate - Ndlambe and the rest of Sarah Baartman, 2019 and 2024 [percentage]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.© 2025 S&P Global.

Sundays River Valley Local Municipality had the highest labour force participation rate with 79.5% in 2024 increasing from 71.1% in 2014. Ndlambe Local Municipality had the lowest labour force participation rate of 69.2% in 2024, this increased from 67.2% in 2014.

6.10. Total employment

Employment data is a key element in the estimation of unemployment. In addition, trends in employment within different sectors and industries normally indicate significant structural changes in the economy. Employment data is also used in the calculation of productivity, earnings per worker, and other economic indicators.

Definition: Total employment consists of two parts: employment in the formal sector, and employment in the informal sector

TABLE 17. Total employment - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [numbers]

Ndlambe	Sarah Baartman		Eastern Cape	National Total
2014	22,800	174,000	1,400,000	16,500,000
2015	23,000	175,000	1,420,000	16,700,000
2016	22,900	174,000	1,410,000	16,700,000
2017	22,800	172,000	1,400,000	16,800,000
2018	22,600	170,000	1,390,000	16,900,000
2019	22,300	167,000	1,370,000	16,900,000
2020	20,900	157,000	1,290,000	16,000,000

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

Ndlambe Local Municipality employs a total number of 21 700 people within its local municipality. The local municipality that employs the highest number of people relative to the other regions within Sarah Baartman District Municipality is Kouga local municipality with a total number of 39 600. The local municipality that employs the lowest number of people relative to the other regions within Sarah Baartman District Municipality is Blue Crane Route local municipality with a total number of 9 310 employed people.

In Ndlambe Local Municipality the economic sectors that recorded the largest number of employment in 2024 were the trade sector with a total of 4 180 employed people or 19.3% of total employment in the local municipality. The community services sector with a total of 3 930 (18.1%) employs the second highest number of people relative to the rest of the sectors. The electricity sector with 14.1 (0.1%) is the sector that employs the least number of people in Ndlambe Local Municipality, followed by the mining sector with 18.8 (0.1%) people employed.

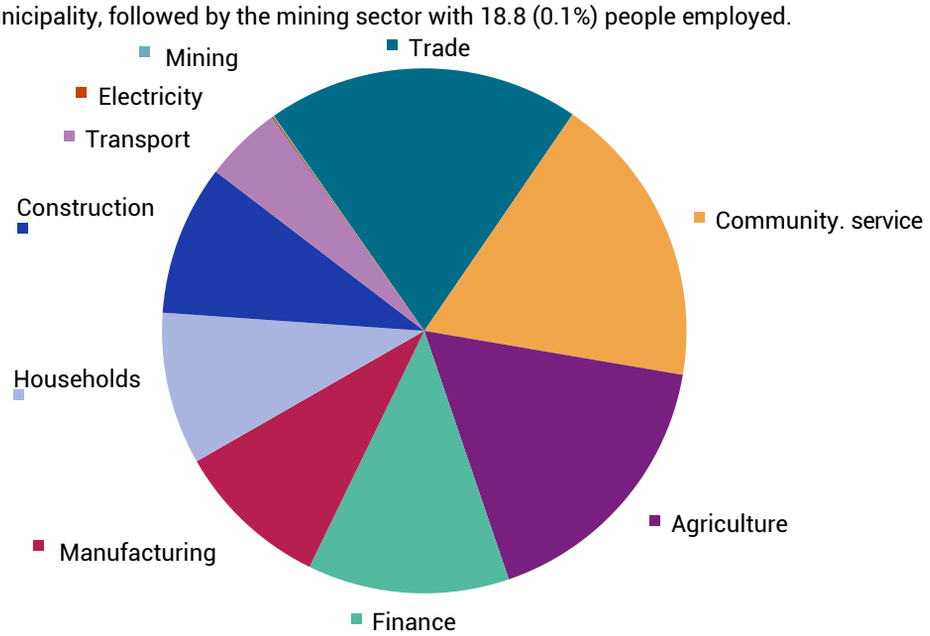

CHART 23. Total employment per broad economic sector - Ndlambe Local Municipality, 2024 [percentage]

6.11. Formal and Informal employment

Total employment can be broken down into formal and informal sector employment. Formal sector employment is measured from the formal business side, and the informal employment is measured from the household side where formal businesses have not been established.

Formal employment is much more stable than informal employment. Informal employment is much harder to measure and manage, simply because it cannot be tracked through the formal business side of the economy. Informal employment is however a reality in South Africa and cannot be ignored.

The number of formally employed people in Ndlambe Local Municipality counted 17 200 in 2024, which is about 79.16% of total employment, while the number of people employed in the informal sector counted 4 520 or 20.84% of the total employment. Informal employment in Ndlambe decreased from 4 820 in 2014 to an estimated 4 520 in 2024.

CHART 24. Formal and informal employment by broad economic sector - Ndlambe Local Municipality, 2024 [numbers]

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

Some of the economic sectors have little or no informal employment:
Mining industry, due to well-regulated mining safety policies, and the strict registration of a mine, has little or no informal employment. The Electricity sector is also well regulated, making it difficult to get information on informal employment. Domestic Workers and employment in the agriculture sector is typically counted under a separate heading.

In 2024 the Trade sector recorded the highest number of informally employed, with a total of 1 610 employees or 35.60% of the total informal employment. This can be expected as the barriers to enter the Trade sector in terms of capital and skills required is less than with most of the other sectors. The Finance sector has the lowest informal employment with 404 and only contributes 8.94% to total informal employment.

TABLE 19. Formal and informal employment by broad economic sector - Ndlambe Local Municipality, 2024 [numbers]

Formal employment	Informal employment	
Agriculture	3,700	N/A
Mining	19	N/A
Manufacturing	1,570	488
Electricity	14	N/A
Construction	1,140	871
Trade	2,570	1,610
Transport	393	636
Finance	2,290	404
Community services	3,420	510
Households	2,040	N/A

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.© 2025 S&P Global.

The informal sector is vital for the areas with very high unemployment and very low labour participation rates. Unemployed people see participating in the informal sector as a survival strategy. The most desirable situation would be to get a stable formal job. But because the formal economy is not growing fast enough to generate adequate jobs, the informal sector is used as a survival mechanism.

6.12. Unemployment

Definition: The unemployed includes all persons between 15 and 65 who are currently not working, but who are actively looking for work. It therefore excludes people who are not actively seeking work (referred to as discouraged work seekers).

The choice of definition for what constitutes being unemployed has a large impact on the final estimates for all measured labour force variables. The following definition was adopted by the Thirteenth International Conference of Labour Statisticians (Geneva, 1982): The "unemployed" comprise all persons above a specified age who during the reference period were:

- "Without work", i.e. not in paid employment or self-employment;
- "Currently available for work", i.e. were available for paid employment or self-employment during the reference period; and
- "Seeking work", i.e. had taken specific steps in a specified reference period to seek paid employment or self-employment. The specific steps may include registration at a public or private employment exchange; application to employers; checking at worksites, farms, factory gates, market or other assembly places; placing or answering newspaper advertisements; seeking assistance of friends or relatives; looking for land.

TABLE 20. Unemployment (official definition) - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [Number percentage]

	Ndlambe	Sarah Baartman	Eastern Cape	National Total	Ndlambe as % of district municipality	Ndlambe as % of province	Ndlambe as % of national
2014	6,480	39,500	597,000	5,580,000	16.4%	1.09%	0.12%

© 2025 S&P Global.

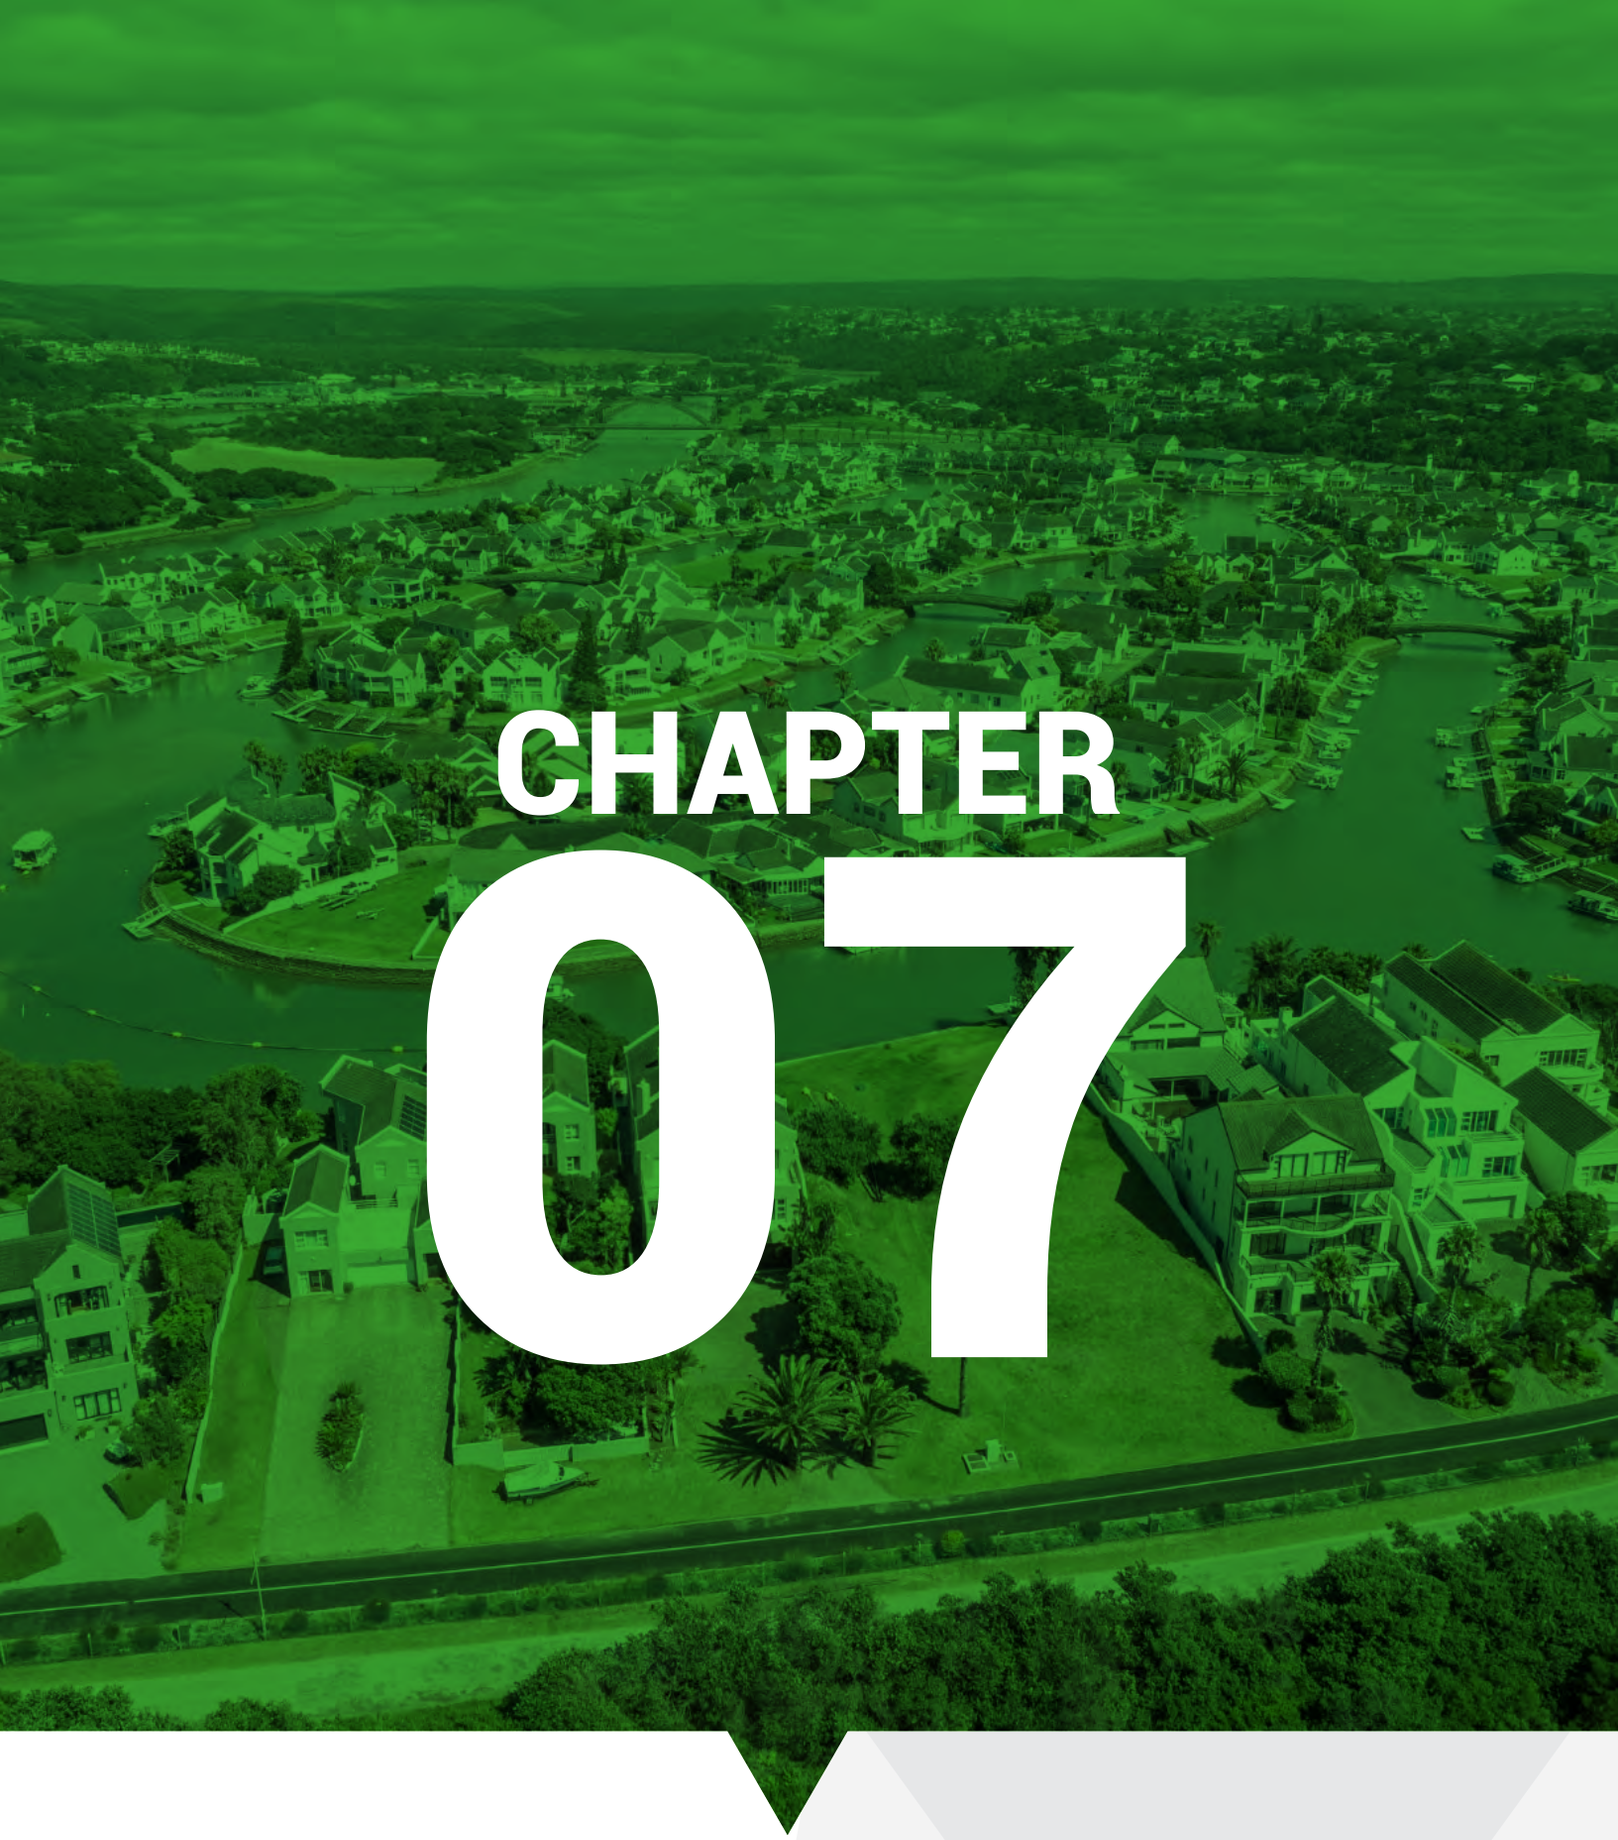

In 2024, there were a total number of 11 300 people unemployed in Ndlambe, which is an increase of 4 790 from 6 480 in 2014. The total number of unemployed people within Ndlambe constitutes 17.63% of the total number of unemployed people in Sarah Baartman District Municipality. The Ndlambe Local Municipality experienced an average annual increase of 5.69% in the number of unemployed people, which is worse than that of the Sarah Baartman District Municipality which had an average annual increase in unemployment of 4.93%.

TABLE 21. Unemployment rate (official definition) - Ndlambe, Sarah Baartman, Eastern Cape and National Total, 2014-2024 [Percentage]

	Ndlambe	Sarah Baartman	Eastern Cape	National Total
2014	21.9%	18.2%	29.5%	25.3%
2015	21.9%	18.3%	29.2%	25.6%
2016	23.1%	19.5%	30.5%	26.4%
2017	25.3%	21.5%	32.9%	27.2%
2018	27.1%	23.2%	34.9%	27.4%
2019	29.6%	25.6%	38.1%	28.4%

Source: South Africa Regional eXplorer v2686. Data compiled on 15 Dec 2025.
© 2025 S&P Global.

In 2024, the unemployment rate in Ndlambe Local Municipality (based on the official definition of unemployment) was 32.98%, which is an increase of 11 percentage points. The unemployment rate in Ndlambe Local Municipality is higher than that of Sarah Baartman. Comparing to the Eastern Cape Province it can be seen that the unemployment rate for Ndlambe Local Municipality was lower than that of Eastern Cape which was 40.11%. The unemployment rate for South Africa was 32.59% in 2024, which is a increase of -7.28 percentage points from 25.30% in 2014.

CHAPTER 07

Chapter 7:

SWOT ANALYSIS

High level Assessment of strengths, weaknesses, opportunities and threats

The SWOT analysis will concentrate on the three key sectors of production which have the potential to grow the economy of Ndlambe Local Municpality. The purpose of the SWOT analysis is to identify and evaluate the key factors that will guide the community in developing the future strategy for Economic Development of the local muncipality.

7.1 AGRICULTURE AND AGRO SECTOR

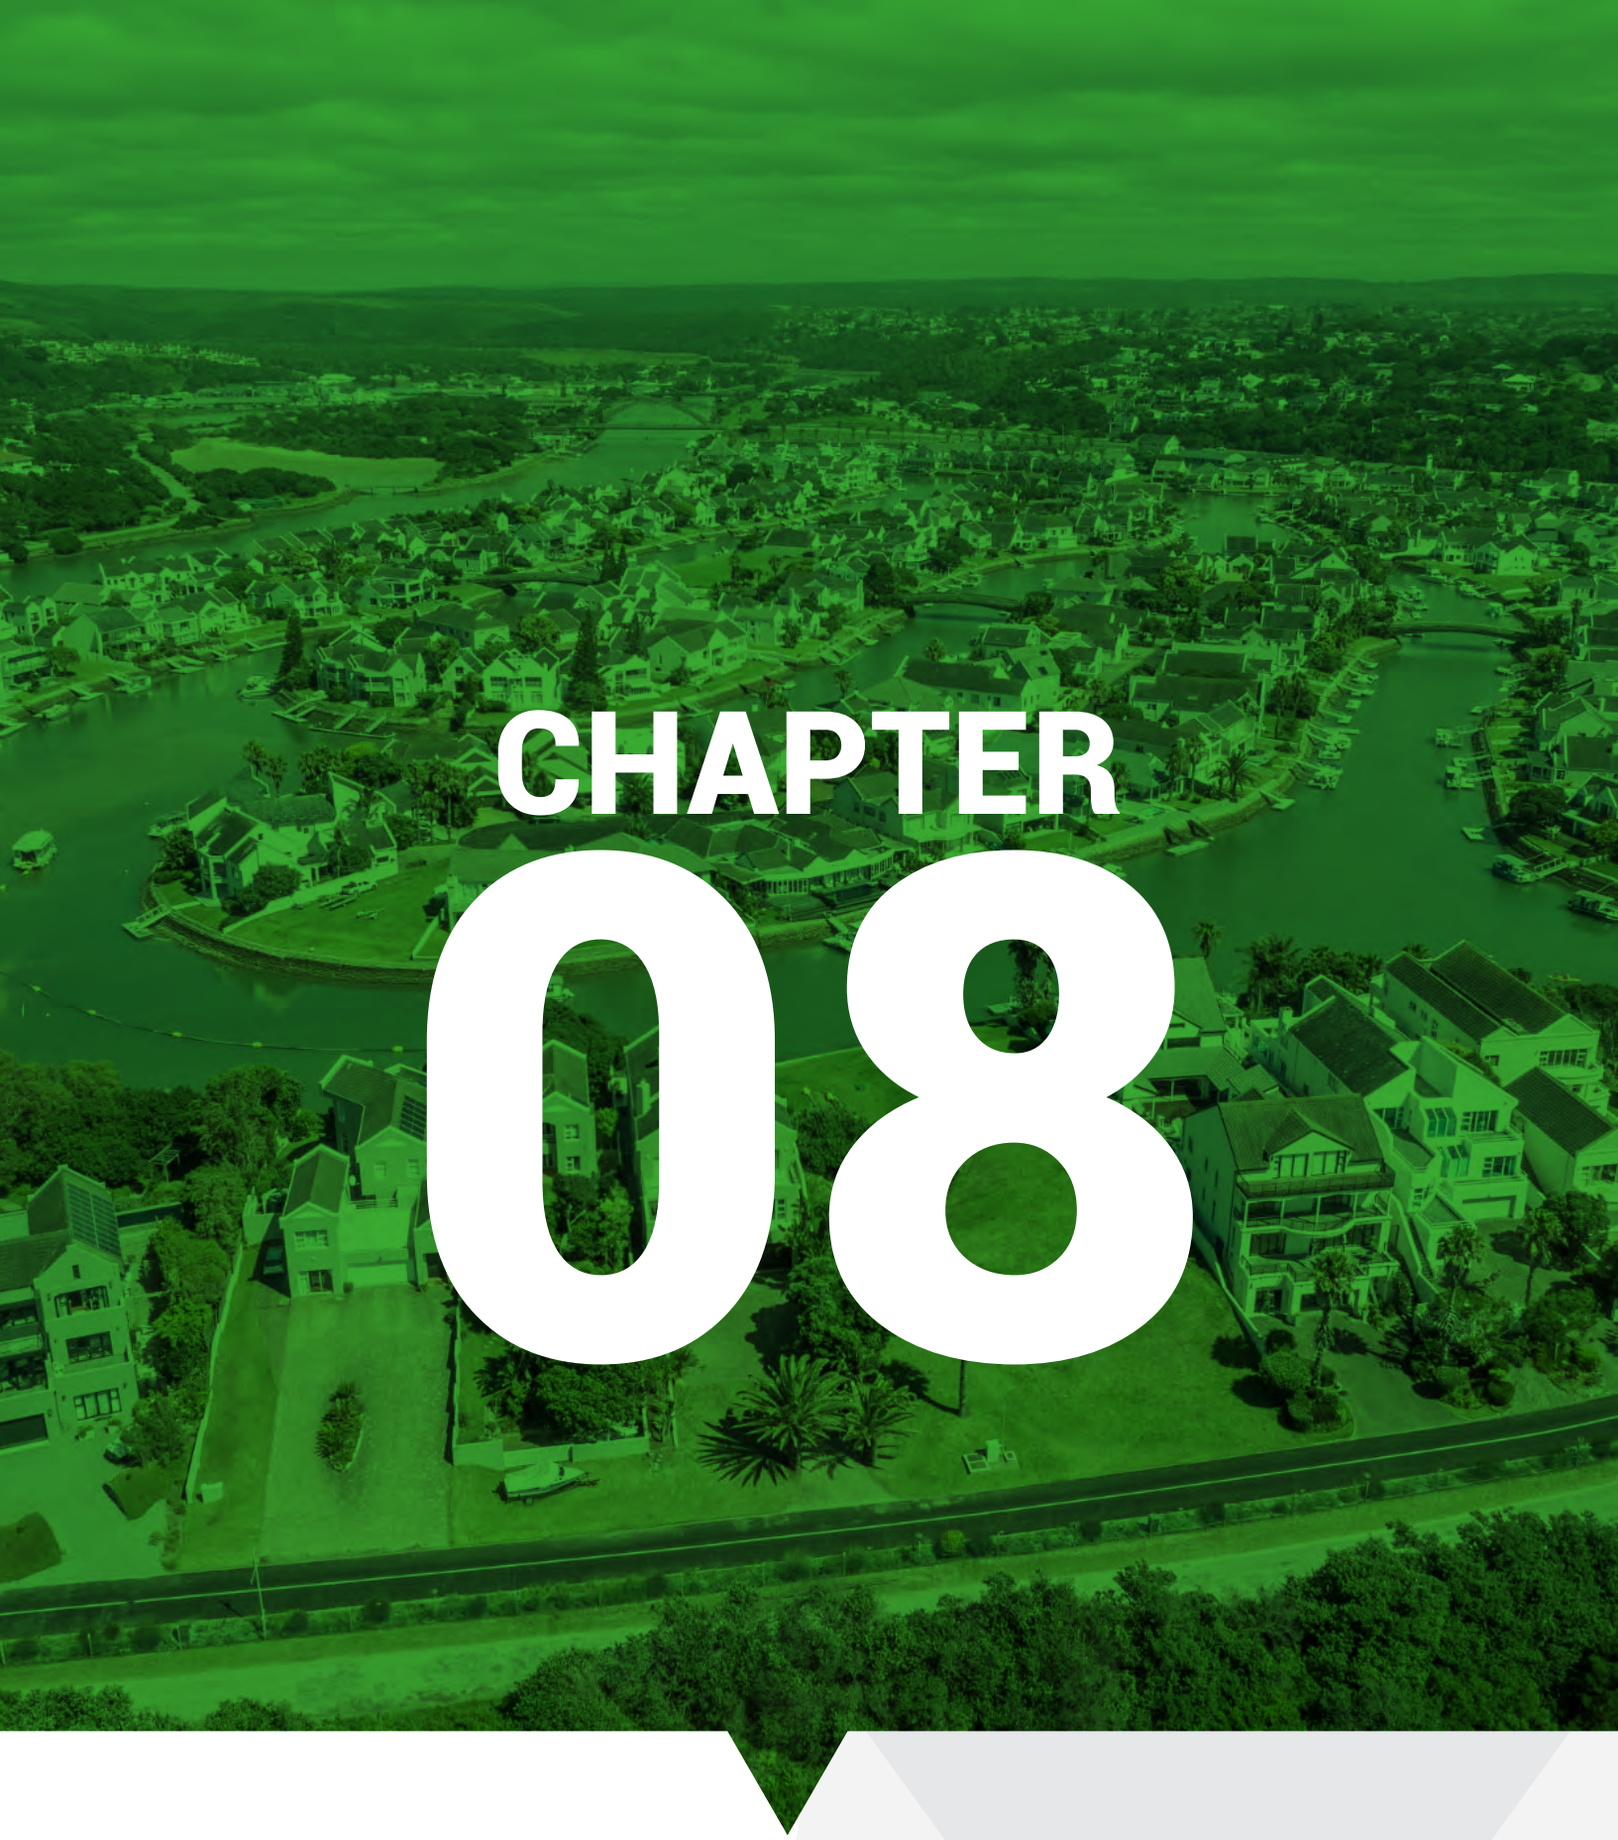

Strength	Weakness
• Well established Agro-Sector within the municipality. • There is abundance of skilled and unskilled labour who are used to working the lands. • Availability of cyclical employment owing to the activities in the Agricultural Sector e.g. Dairy, Citrus production, Chicory Production. • There exists a huge potential for crop production and thus food security within the municipality. • Conducive climate to produce the Citrus, Chicory and other high value crops. • Vibrant Dairy Sector with a potential of additional investment especially for the disenfranchised communities. • Readilly available markets for dairy and chicory. • Proximity to the two Industrial Zones (COEGA & EL IDZ. • Accessible support from National Department of Agriculture and Rural Development for farmer assistance e.g. Mechanisation for Chicory Production.	• Low capital base for the PDIs to invest meaningfully in the Agricultural Sector. • Limited access to land for most of the population within the municipalty. • Limited resources from the municipality to focus on agricultural projects. • The “One Hacter One Household” has not made an impact in Ndlambe with PDIs remaining landless. • The slow wheels of development and support from both National and Provincial Departments of Agriculture stunt growth of the sector and participation of the disenfranchised. • Limited water supply across the municipality. • Lack of a dedicated unit to repond to the needs of the sector. • There is little or no marketing drive to encourage communities to participate in this sector. • Non availability of sector plan. • Limited provincial funding • Limited Municipal funding
Opportunities	**Threat**
• Successful white commercial farmers willing to partner with communities. E.g. Dairy, Red Meat Supply. • Improved farming methods and production technologies • Red meat production and processing potential. • Tapping into the export market for the fresh produce and red meat.	• Climate change is a global threat to Agriculture and Ndlambe LM is no exception. • Government bureaucracy is a threat to viable projects. • Escalating prices of production inputs • Outstanding land claims

7.2 TOURISM & LEISURE

Strength	Weakness
• One of the strongest sectors and economic drivers of the municipality. • Tourism is one of the leading employers second to Services. • Ndlambe LM has established infrastructure to drive Tourism. • Ndlambe LM is the only Coastal Municipality with 5 Blue Flag beaches. • Ndlambe LM has been deliberate in developing Tourism Infrastructre across the communities. e.g Stadias, Communal Public Entertainment Spaces, Parks. • The 80km stretch of pristine beaches continues being an attraction to many revelers. • Low crime rate. (based on stats & crime spot) • Increased number of beds of Tourists. • Ndlambe has some of the most beautiful accommodation establishments in the country. • Ndlambe LM is a popular destination for business and leisure in the Eastern Cape. • Access to Tertiary Institutions for partnerships and on Research and Development in the Hospitality Sector.	• Limited participation of the PDIs in this ever-growing sector. • Low capital base for Black Communities to invest and participate meaningfully in the sector. • Lack of sustainable community-based partnerships to implement the projects. • Parternships with government could be accelerated to implement diverse projects for Tourism & Leisure. • Access to land for Black Communitites remains an impediment to invest in Tourism Infrastructure Projects e.g. Accommodation establishments. • Limited funding from the municipality to assist SMMEs who wish to participate in the sector.
Opportunities	**Threat**
• There exists an opportunity to position Ndlambe LM as a destination for business and leisure by establishing an International Convention Center. • The Air School possible expansion of the runway remains an opportunity if a solution pallatable to both government and the directors of the air can be reached. • Underutilised Tourism Assets within the municipal area. • Strengthened relations and partnership with provincial and national departments geared towards the Toursim Sector, including the private sector.	• Funding models from both public and private sector that lack the appreciation of historical imbalances and development patterns that were skewed against most of the South African population. Most of the funding models are collateral based and require own contribution. • Access to land to build Tourism Infrastructure projects continues to be ca challenge for PDIs, hence only a handful only participate meaningfully in the Tourism and Hospitality Sector. • Climate change continues being a threat to the natural habitat, biodiversity which is integral in the Tourism Sector. • Lack of services e.g. private hospitals • Loss of natural assets through degradation • Rural Roads/ Gravel roads • Transport infrastructure • Limited number of Tour Operators to service the Tourism Sector.

7.3 FORMAL AND INFORMAL BUSINESS

Strength	Weakness
• Government SMME support programs • Growing intervention packages for SMMEs. • Growing number of success stories on SMMEs assisted through the Municipality. • Presence of the Financial Services Sector within the Local Municipality. • Growing access to business development services facilitated by the LED Unit of the Ndlambe Municipality. • Provision of infrastructure and tools of trade for both Social Enterprise and the SMME Sector in partnership with Government Agencies.	• Trading control by-laws and policies. • Difficulty in securing Start-Up Capital by SMMEs from both DFIs and Commercial Banks. • Limited access to non-financial support for SMMEs from agencies geared towards business development and support. • Lack of capacity on SMMEs to develop viable business plans. • Risk aversity of DFIs and Commercial Banks continues to be an impediment to growth. • Low skill base of the SMMEs to start sustainable businesses. • Development Planning and Land Use Management Plans do not properly address or cater for the needs of small business. • Spatial planning could lean more towards rural development. • Lack of retail space that accommodates SMMEs. • The dominance of Foreign Nationals on both formal and informal economy continues crowding out indeginous South Africans.
Opportunities	**Threats**
• Improved retail sector through mall development *(must be based on viability)* • Government programs on SMME development • Municipal policies that can be implemented to benefit Ndlambe ailing communities.	• High level of unemployment and weak demand • Economic depression • Increasing inflation and related increase in price of basic food. • Employee retention

CHAPTER 08

CHAPTER 8

8.1 STRATEGIC FRAMEWORK

This section is forward looking, and it aims at applying the use of strategic planning technics to develop components of the LED strategy such as:

1. Definition of LED and role of local government
2. LED Vision
3. LED Mission
4. Strategic Pillars
5. Strategic Goal
6. Strategic Objectives
7. Programmes and Project to be implemented
8. Monitoring and Evaluation

8.1.1 The preparation of the Ndlambe LED Strategy was informed by the following.

- σ Local Economic Development Strategic Plan 2009-2014
- σ Integrated Waste Management Plan
- σ Ndlambe Municipality: Broad Socio-Economic Profile 2008
- σ Ndlambe Housing Sector Plan 2009-2013
- σ Ndlambe Municipality Draft Housing Sector Plan 2011-2016
- σ Kenton-on-sea Town Planning Scheme By-Laws
- σ Final Integrated Development Plan (IDP) - 2023/2024

8.2 Defining Local Economic Development

The National Local Economic development framework defines LED as " The process by which public, business and non-governmental sector partners work collectively to create better conditions for economic growth and employment generation with the objective of building up the economic capacity of a local area to improve its economic future and the quality of life for all".

8.3 Role of Local Government in Local Economic Development

Role of Local Government in Economic Development is defined in section 156 of the constitution, in the white paper for local government as well as in the National Local Economic Development Framework and it is to:

- Facilitate Planning of Local Economic Development Strategy
- Develop policies and regulatory mechanisms on issues that can affect local business on land, buildings, infrastructure and taxes.
- Creating business- and entrepreneur-enabling environments guided by clear policies and regulations
- Develop skills necessary to support and routinely apply the LED process (information collection, negotiation, facilitation, strategy formulation, **action planning**, monitoring and evaluation).
- Create partnerships between the public and private sector and local community members for effective and efficient implementing LED strategy

8.4 Vision for Local Economic Development

IDP Vision for LED: The basis for economic visioning in the Ndlambe Local Municipality is derived from the vision of the Integrated Development Plan that reads: The economic vision must contribute immensely towards achieving the 'prosperous and economically vibrant and viable municipality for all the Ndlambe Municipal communities, especially the poor and rural communities.

"To be a united, responsive municipality that is prosperous and economical viable 2019 - 2024.

Vision: for Local Economic Development: Ndlambe Local Municipality:

- Coastal municipality focusing on real estate and leisure to be able to attract private sector investment.
- Aim to reduce/alleviate poverty through the reduction of unemployment. Furthermore, to maximise economic resources for the benefit of the populus, in particular to the rural poor. - In line with the vision **2030**!!

Mission:

- Create on enabling environment for investment and entrepreneurial development and employment opportunities in partnership with strategic partners. – Unemployment + poverty.

8.5 Strategic Pillars of the strategy document.

Building Economic Infrastructure

Investment Promotion & Economic Development.

Tourism Development & Real Estate

Economic Diversification

Skills ,People & Development .

Employment Creation

Economic Retention and Investment.

Poverty Reduction

Maintenance of existing economic infrastruture.

8.6. Strategic Goals

Strategic Goal 1

- **Employment Creation & Poverty alleviation**

Strategic Goal 2

- **Economic Retention & Investment Promotion**

Strategic Goal 3

- **Maintenance of existing economic infrastructure.**

Strategic Goal 4

- **People Learning and growth.**

Strategic Goal 5

- **Ensure the provision of appropriate economic infrastructure in order to facilitate investment.**

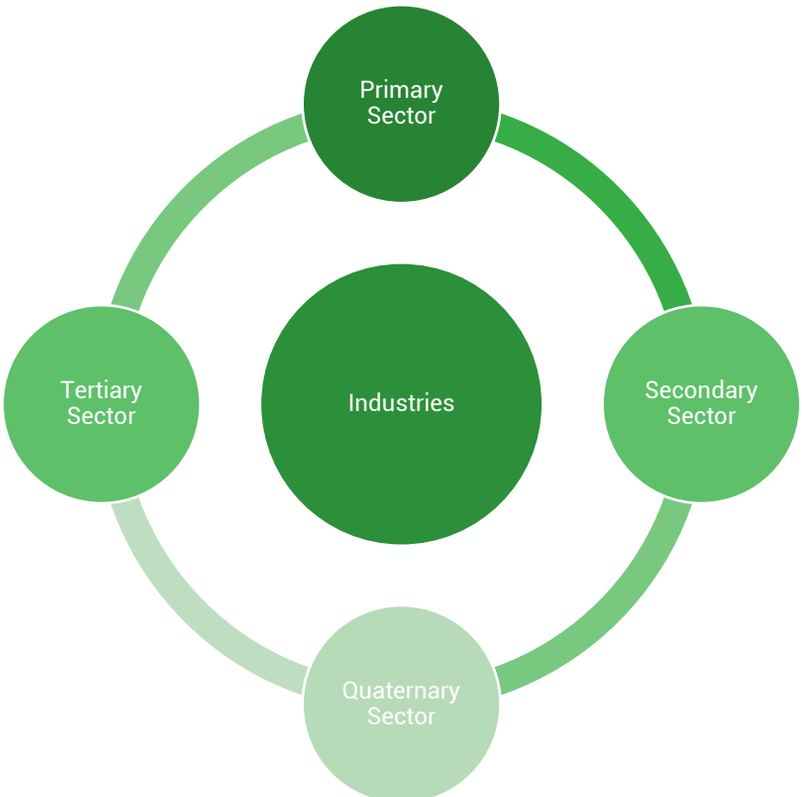

Strategic Goal 6

- **Small Town Regeneration**

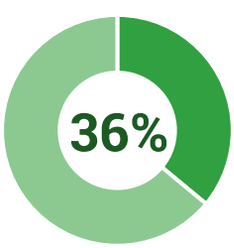

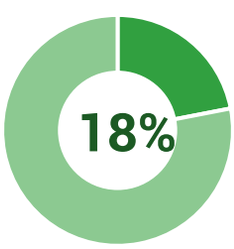

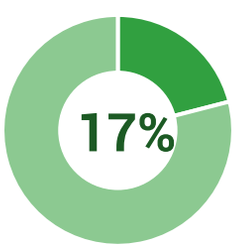

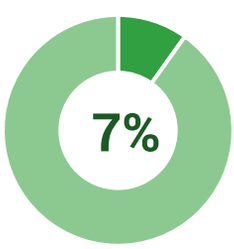

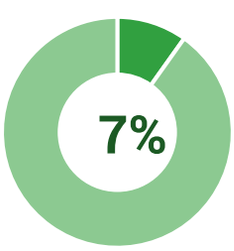

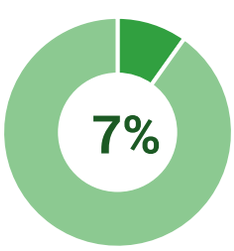

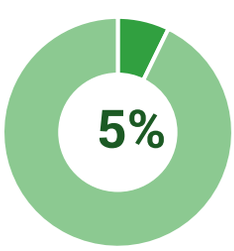

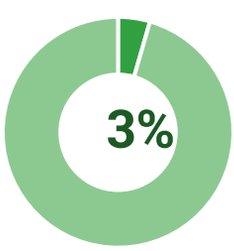

Strategic Goal 7

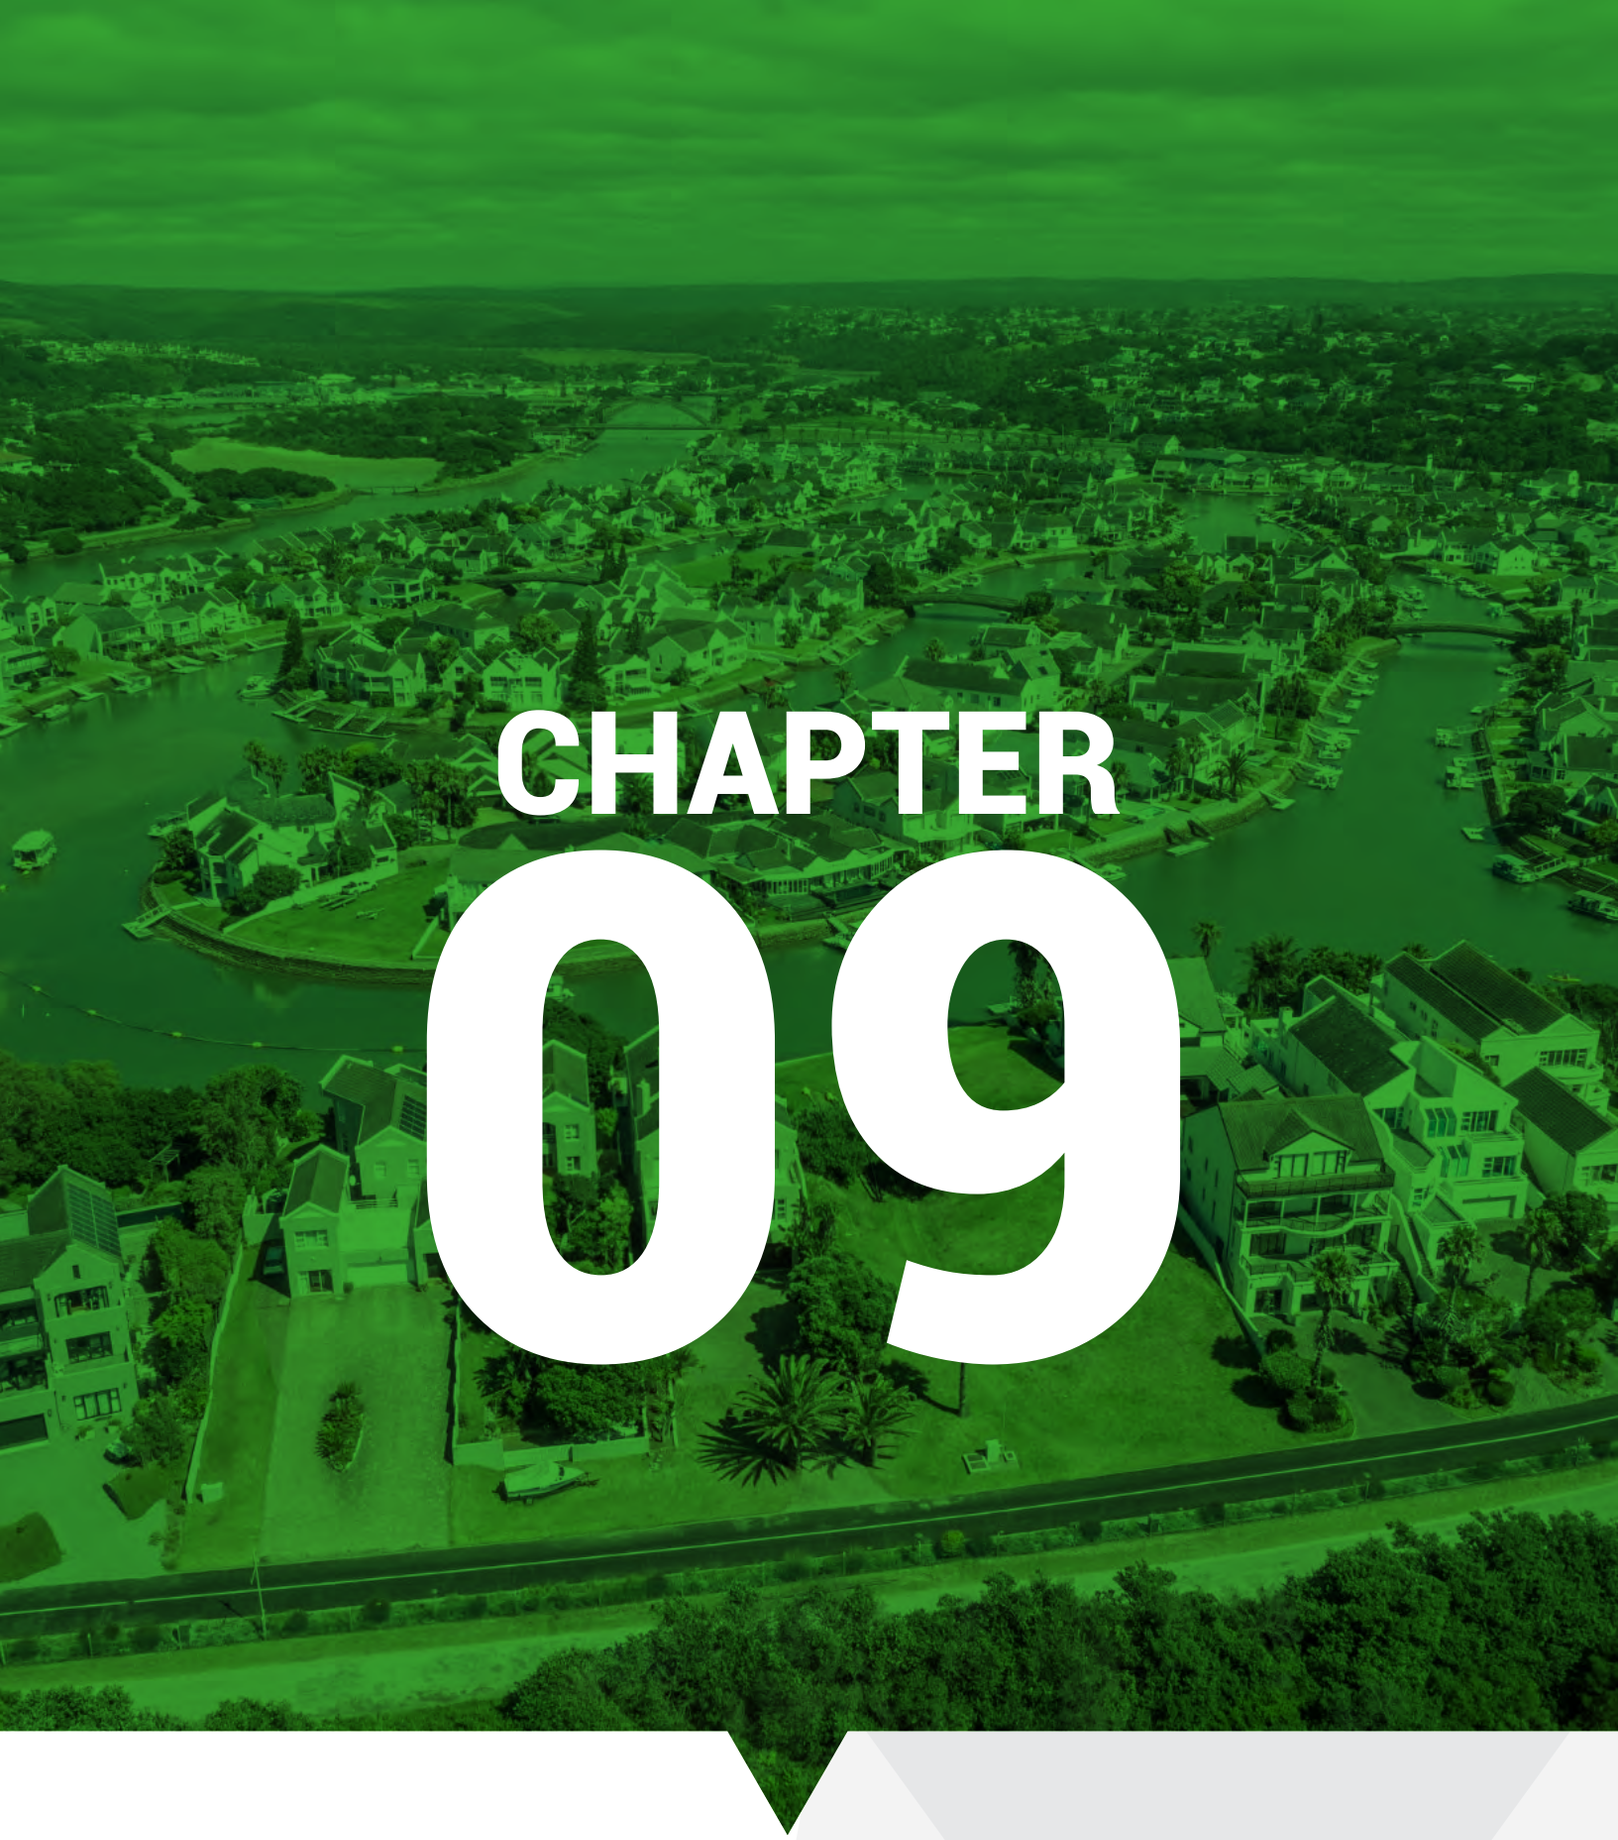

- **Small Enterprise Development**

8.7 Economic Activities

The main Economic sectors of Ndlambe LM are as follows:

Community Services	**Trade**	**Finance**	**Agriculture**
			
Manufacturing	**Transport**	**Construction**	**Electricity**
			

CHAPTER 09

Chapter 9:

LED STRATEGY IMPLEMENTATION PLAN.

The LED Strategy Implementation Plan seeks to guide the implementation of the identified programs and projects aligned to the IDP. It is intended to do so by developing project-based actions plans, identify inputs and resources required to implement projects as well as an appropriate institutional framework for implementation and monitoring.

Implementation of the LED programmes and projects can only be effectively executed once certain basic conditions are met. These pre-conditions range from institutional arrangements, capacity development and political leadership requirements that would provide the necessary energies for successful LED implementation.

The following is an outline of some of the critical preconditions for LED implementation: -

9.1.1. LED Institutional Arrangements.

Ndlambe LM will need to allocate financial and human resources to the implementation of the Strategy through a structured mechanism to ensure that the objectives of the strategy are met.

This mechanism may either be *internal* to the municipality, such as a LED Unit, or *external* to the municipality in the form of a municipal entity. The SARAH BAARTMAN DEVELOPMENT AGENCY, the Chris Hani Cooperative Development Center are some of the examples of external entitities that can implement projecst on behalf of the municipality.

9.1.2. Internal LED Implementation Mechanisms.

The Municipal Systems Act (MSA) has a clear bias towards the use of internal mechanisms, in that municipalities must consider this option first (s 78(1)). Only once the internal options have been assessed can the municipality decide (s 78(2)) to explore the use of external options (s 78(3)).

Internal mechanisms include but not limited to the following:

- A department or other administrative unit within Ndlambe LM reporting to the Office of the Municipal Manager.
- Any business unit devised by the municipality, provided it operates within the municipality's administration and under the control and governance of the Council in accordance with operational and performance criteria determined by the Council; or
- Any other component of its administration.

The table below depicts the pros and cornes of using Internal Mechanisms to impement projects.

PROS: INTERNAL MECHANISMS	CORNS: INTERNAL MECHANISMS
Little or no establishment costs.	Decision inertia is always an impedement to swift implementation.
All functions that would be given to the external entity would be implemented internally in the Ndlambe LM and therefore guaranteed internal control.	Capacity contraints leading to the unit not being able to take on additional work.
Ability to access external fundining including Donor Funding.	Potential lack of momentum when driven Internally. (noteworthyNdlambe L
Few legal requirements and procedures when setting up a municipal entity.	

9.1.3. External LED Implementation Mechanisms.

If the municipality chooses an external mechanism, then it must follow the process laid out in the MSA. The Municipal Systems Amendment Act, 2003 outlines three options for a municipal entity, namely:

9.1.3.1. A Private Company.

A municipality may establish a private company or hold an interest in a private company. It can have full ownership of the company or hold a lesser interest under certain conditions. Lesser interest can only be held if all other interests are held by: -

- Another municipality or municipalities
- A national or provincial organ(s) of state
- Any combination of the above.

Municipalities can become involved in companies where other investors (as stated above) are involved, but only if control in the private company (i.e., majority) is held by:

a) that municipality
b) another municipality)
c) more than one municipality.

This means that a private company can only be referred to as a municipal entity if one or more municipalities have effective control over the company. If the private company is a municipal entity, it must restrict itself to the functions and powers of its parent municipality.

9.1.3.2. A Public Private Partnership ("PPP).

As service delivery mechanisms, PPP's have entered the service delivery lexicon in South Africa and have since been regulated by National Treasury, utilized predominantly on long term projects that require a considerable capital outlay and risk taking. PPPs shall be considered as one of the mechanisms to implement LED as shared commitments to pursue common economic objectives jointly determined by public, private and community sectors and instituted as joint projects. All PPPs shall be considered in line with National Treasury Guidelines.

9.1.3.3. A Panel of LED Experts.

The municipality shall establish a panel of LED Experts who will assist in the implementation of selected LED Projects. Municipal Supply Chain Management Policy and Processes shall be implemented in establishing this panel and it shall be engaged on either cost and benefit sharing model or on risk basis.

9.2. Establishment of the LED Forum.

Ndlambe LM has established LED Forums to oversee the implementation of programs and projects as identified under the priority sectors.

Of outmost importance is that Ndlambe LM remains a critical member of the led Forums while driven by other stakeholders, and this is an important element on the autonomy of the forums. The forum liaises with existing Business Forums and Chambers of Business on a regular basis.

It is recommended that the LED Forum and the Investment Forum should monitor the implementation of the LED Strategy and all implementing partners should report to the LED Forum. It is recommended that LED Forum meetings be held every quarter.

KEY ISSUES FOR CONSIDERATION FOR THE IMPLEMENTATION PLAN MATRIX

- Who takes responsibility for each program of project?
- What are the targets in terms of outputs, timing and funding?
- What steps need to be taken to achieve the targets?
- What are the reporting structures?
- What are the performance monitoring evaluation systems and processes?
- What must happen to ensure that the evaluation systems and processes are in place and usable?
- What are the budgetary and human resource requirements for the sustained delivery of the projects and programs?

9.3 IMPLEMENTATION PLAN

9.3.1. TOURISM &LEISURE

Strategic objective	Project objective	Project	Project stakeholders	Role of NLM	Key performance indicator	Target	Time frame
To promote Ndlambe LM as a preferred destinantion for Buisiness Tourism & Leisure.	LTO Support (strengthen support of the LTO to benefit communities)	Institutionalised Tourism, Have dedicated personnel to oversee Tourism Projects.	NLM, LTO and Tourism Groupings	Coordination and Facililtation, Provision of Non-Financial Support.	Number of LTOs established. Number of visits per annum.	2 LTO/ Tourism Structure.	2025/26
	Strengthen the quality of signature events within the municipality and sarroundings	Marketing of NLM as a destination for events and leisure.	ECPTA, ECDC, DEDEAT, DM.	Strategic Partner	Ecomic Benefit Barometer to be used to measure success.	Signature events per term x2	Annualy
	Improve the use of social media platform as Tourism marketing tool.	Appointment of a Service Provider to market the municipality internationally.	NLM, DEDEAT, ECPTA, NATIONAL TOURISM DEPARTMENT.	Strategic Partner and Project Leader.	Procurement of the SP. Appointment of the SP. Commencement of work by the SP.	1	2025/26
	Identification and Development of new Tourism Routes/Proejcts.	Identification & development of new routes. Packaging of the new and existing products. Marketing the products. .	NLM & LTO, ECPTA, ECDC, NDT.	Coordination AND Facilitatioin. Appointing a SP to identify and develop the new routes/projects.	Number of routes identified. Packaging of the products. Development of a business plan for funding (external funding) Acquiring project funding.	1	2025-Continuous
	Establishment of VIC (Visitor Information Centers)	Product marketing Roping in Fuel Centers for Prouct Marketing.	Ndlambe LM, DOT, DEDEAT, ECPTA, Petroleum Sites.	Implementation and Coordination.	Number of VICs and Tourism Information Centers established.		2025/26/27
	Grading of B&B's	Quality assurance Resource Mobilisation for PDI owned establishments.	Grading Council	Coordination	Number of B&B's graded (PDIs ownership)	10	2025/26
	Homestay in potential Townships.	Product development. Promote Homestays as a cheaper alternative for accommodation.	NLM , DOT, DEDEAT, E CDC.	Facilitation & Coordination.	No. of homestays established. Can be use during the G/Town Arts Festival.	5	2025/26/27

Strategic objective	Project objective	Project	Project stakeholders	Role of NLM	Key performance indicator	Target	Time frame
		Organising the Homestay Owners to form Coops and access grant funding.			Number of Coops funded.		
	Intensify the development and re-establishment of Public Communal Spaces for recreation.	Organising events for entertainement. Establishment a Community Forum to manage vandalism of properties.	NLM, CPF, NDT, ECPTA	Coordination, Facilitaiton and Non-Financial Support.	Number of Recreation Facility developed. Including Alexandria Communal Space.	3	2025/6/7
Establishment of a International Convention Center	Site Identification. Site Approval by stakeholders (NLM).	Entrenching NLM as a destination for Business Tourism and Leisure. A preferred destination for conferencing.	NLM, DEDEAT, NDT, ECDC	Faciltation, Coordinatioin of Stakeholders. Provision of Non-Financial Support.	Site approval. Business Plan Development.	1	2026/7/8
	Development of a Business Plan for the establishment of the ICC.	Facilitate Project Finance.	NLM, SBDM, PRIVATE SECTOR.	Procurement of a Service Provider. Lobbying Govt. Budgetory Support.	Bankable Business Plan including design planning.	1	2026/7/8
	Project Finance (Convention Center).	Identification of funders and funding instruments for the projects.	NLM, DISTRICT MUNICIPALITY, THE AGENCY.	Budgetory Support. Project Support. Lobbying.	Finding partners to finance the project. Funding agreement.		2026/7/8
Conservation & Biodiversity Investment.	Development of attraction inventory including heritage sites, Caravan Parks and Public Communal Spaces.	Targeting specific market who prefer outdoor living. Promoting outdoor living as an alternative acommodation for revelers.	NLM, DEDEAT, ECPTA, NDT, NDE, DEDEAT	Facilitation, Coordination and provision of non-financial support.	Biodiversity Sites Identified. Caravan Parks identified for improvements including new sites.	2	2025/6/7/8
	Tourism Events Calendar (also linked to school holiday Calender)	Promoting Ndlambe as a viable site for Outdoor Living & Leisure.	NLM, LTOs, ECPTA, ECDC, DEDEAT	Coordination, Facilitation and Implementation.	Number of events per term.	2 per t erm = 8 annually.	2025/6/7/8
	Development of Social Enteprise.	Poverty alleviation. e.g establishment of Craft Hubs to be market at the LTO offices, and the Municiaplity's.	ELM , DSM, ECDC,	NLM, NDA, DEDEAT, ECDC	Number of Social Enterprises established.	5	2025/6

Strategic objective	Project objective	Project	Project stakeholders	Role of NLM	Key performance indicator	Target	Time frame
		Skills training and development for communities on Social Enterprise (Craft Hub in Alexandria)					
	Conservation of biodiversity	Environmental Management to promote Tourism. Skills Training & Development of communities on the importance of conservation and its impact on Tourism.	NDT, DEDEAT, NDE, NLM	Coordination & Facilitation.	Number of Community Projects established per Ward.	3	2025/6/7/8
	Greening Programs in Townships and Towns as a tool to attract and retain Tourists.	Environmental management. Tourism Investment & attraction.	NLM, NDT, NDE, DEDEAT	Strategic Partner, Facilitator and Coordinator.	Number of projects established per Ward.	3	2025/6/7/8
	Waste recycling	Environmental management	NDT, NDE, NLM, DEDEAT	Strategic Partner	Number of projects established per Ward.	3	2025/6/7/8

9.3.2 INVESTMENT IN SOCIO- ECONOMIC INFRASTRUCTURE, AND REAL ESTATE

Strategic Objectives	Project	Objective	Project stakeholders	Role of NLM	Key performance indicator	Target	Time frame
Increase local investment in economic infrastructure, land and property development.	Bulk infrastructure e.g. Water services.	Increase investment potential for the municipality.	NLM, COGTA, DBSA, SANRAL, DOT.	Implementer, Coordinator, Facilitator.	Increase in the number of litres (water) available for both industry and household.	Improve the literage of the RO PLANT.	2026/7/8
	Road network within the Municipal jurisdiction	Increase and improve investment in Real Estate. Improve Tourism for the Municipality.	DOT, NLM, DOT, COGTA	Implementer, Coordinator, Facilitator	Increase in the number of Kilometers tarred and paved.	Ref: IDP	2026/7/8
	Increase and improve Broadband connectivity.	To promote Ndlambe as a destination for Virtual Business Activity targeting Tourists.	Department of Communication, Private Sector.	Coordinating	Increase in the numbrer of households and business that can access broadband servi ces.	65000 population.	2026/7/8
	Establishment of Feedlot in Alexandria.	Turnery, Feed, livestock trading, Abattoir.	DRDA, DA, DEDEAT, ECRDA	Facilitation & Coordinatiom	Number of Feedlots established.	2	2025/6/7/8
Strategic Objective	Project	Objective	Project stakeholders	Role of NLM	Key performance indicator	Target	Time frame
Establishment of a Skill Development Hub.	Skills Development and Training for Small Business and Communities.	Improved business skills for SMMEs. Improved literacy levels on soci o economic matters and social enterprise.	NLM, SETAs, NATIONAL SKILLS FUND, Tertiary Institutions.	Coordination & Facilitation.	Number of people trained. Number of SMMEs trained and supported financially.	20	2026/7/8
	Mall development	Retail space management	NLM, DEDEAT, COGTA, ECDC, IDC	Facilitator, Coordinator	Appetite from Developers	1	2025/6/7

9.3.4 SMME DEVELOPMENT SUPPORT

Strategic Objective	Project	Objective	Project stakeholders	Role of NLM	Key performance indicator	Target	Timeframe
Strengthen the SMME development support programs to benefit individual businesses and cooperatives in urban and rural areas.	Tailored SMME support programs.	Provision of Packaged Programs for SMMEs.	DSB, DEDEAT, ECDC, NLM.	Strategic Partner.	Signed MOUs with Sector Departments and Agencies. Number of SMMEs supported. Number of successful SMMEs.	10	2025/6/7/8
	Establishment of Informal Trader Zones via By-Laws.	Provision of Infrastructure and trading platforms for Informal Traders.	DSB, DEDEAT, NLM & Informal Business Structures.	Strategic Partner, implementer.	Number of Trading zoned development and traders provided with stalls shelter	10	2025/6/7/8
	Establishment of a credible, viable, inclusive Business Chamber where PDIs have an agency. (Note, this does not have to be a parallel structure, PDIs can join an existing chamber where they can learn the tricks of trade).	Organised formal Business and Informal Business.	DSB, DEDEAT, NLM, Formal and Informal business.	Facilitator	Establishment of a functional and inclusive Business Chamber.	1	2025/6
	Provision of start-up capital to SMMEs. Provision of Non-Financial Support.	Responding to funding requirements of SMMEs. Technical support for SMMEs.	DSB, DEDEAT, Social Development, ECDC, SEDFA.	Facilitate AND coordinate.	Number of small businesses assisted with start-up capital and non-financial support.	20	2025/6/7/8
	Establishment of Business Information Hubs.	Business development and support services.	DSB, ECDC, DEDEAT, NLM	Leading Partner	Number of functional business information support centres	3	2026/7/8
SMME DEVELOPMENT SUPPORT (INFRASTRUCTURE)							
Elevate the Skills Development & Training of emerging contractors up to grade 6.	E -services for small business via the establishment of Tech Hubs for emerging contractors.	To improve business communication with SMMEs. .	DST , DSB, DEDEAT, ECDC, AIDC	Facilitator and Coordinator.	Number of small businesses with access to E service. Number of contractors able to access bigger contracts outside of the Ndlambe LM.	500 SMMEs accessing the E-service. Number of contractors able to access contracts	Continuous.

Strategic Objective	Project	Objective	Project stakeholders	Role of NLM	Key performance indicator	Target	Timeframe
						outside the municipality.	
	One –Stop Shop for SMMEs doing business with both government and the private sector	Provision of Business Advice and networking platform for SMME.	NLM, ECDC, DEDEAT, DSB, etc.	Project Leader	Site Identification. Bankable Business Plan/Funding Proposal. Project Funding.	1	2026/7/8
	SMME incubation Program.	Mentorship	NLM, DSB, SBDM	Project Leader	Number of Incubatees.	10	2026/7/8
ENABLING ENVIRONMENT FOR EXPANSION, RETENTION AND ATTRACTION OF BUSINESSES							
Create enabling environment for retention, attraction and expansion of business through policy by- laws.	Packaged Incentives to attract investment e.g. tax rebates, electricity concessions etc.	Business retention and attraction of new business investment.	NLM, DTIC, DEDEAT, National & Provincial Treasury, ECDC, DM, Business Chamber.	Strategic Partner, Facilitator, Coordinator.	Packaged Incentive Products. Signed Agreements with all stakeholders involved.	2	2025/6/7/8
	Locally Bias Procurement.	Locally retained capital and increased buying power. Increase circular flow of revenue locally.	NLM, DTIC, & Private sector	Partner	Local procurement plans. (Noteworthy: this is already being implemented in Ndlambe LM)	3 Businesses.	Annually
	Review of informal sector policy	Liberalise By-Laws to accommodate small traders	NLM,DSB,DEDEAT, COGTA.	Implementer, Facilitator	Number of policies reviewed.	1	2025/6
	Business compliance	By law enforcement, business licensing and Consumer awareness	NLM, DSB, DEDEAT, SARS, SAP, DTI	Strategic Partner, Implementer	New By-Laws Developed and approvded by Council. Number of businesses that are compliant and those that are non-compliant.	20	2025/6
	Business financing	Access to finance. Establish a Finance Hub for all DFIs within the Municipality.	DSB, SEDFA, ECDC, IDC, NEF, NDA	Partner, Facilitator, Coordinator.	Consulting desk for all small business financing institutions. Trained Interns by all the DFIs and Agencies who will attend to applications from SMMEs.	By-weekly visits by all the DFI's and Agencies.	2025/6/7
Development of an Investment Framework for the Municipality.	Bankable Investment Strategy, with bankable projects for the municipality.	Investment promotion.	NLM, DTIC, SBDM, ECDC, DEDEAT.	Strategic Partner	Investment Strategy Document. Priortised Investment Project.	2 Projects	2026/7/8

Strategic Objective	Project	Objective	Project stakeholders	Role of NLM	Key performance indicator	Target	Timeframe
					Public Private Partnership Agreements.		
Create enabling environment for retention, attraction and expansion of business through policy by-laws and implementation	Promotion of green building	Sustainable Development	Municipality, DEA	Facilitate	Policy development Project piloting	1	2022
	Land audit for municipal properties	Land Management	Municipality	Implementer	Number of Land audits	1	2020
	Land audit for other government properties	Land management	DRD	Implementer	Number of Land audits	1	2024
	Auctioning of unused properties – Owing rates and taxes	Land management	Municipality	Implementer	Implementation plan	All	2020
	Enforcement of building regulation compliance	Property management	Municipality	Implementer	Continuous	con	2019
	Property development Plan	Property development	Municipality	Implementer	Policy in place	1	2020

9.3.5 AGRICULTURE & AGRO-PROCESSING

Strategic Objective	Project/ Program	Objective	Project stakeholders	Role of NLM	Key performance indicator	Target	Time frame
Revitilisation of the Agricultural Sector as an Engine of Growth Leveraging on it's backward and forward linkages.	Emerging farmers support (Agro Processing, Dairy Farming, Crop Production)	Provision of Technical infrastructure support.	DRDAR & DALRR, DEDEAT, NLM	Facilitator, Coordinator, Co-Implementer.	Number of EMERGING Farmers supported.	10	2025/6/7/8
	New production technologies (Organic Farming with little interference to the natural soil nutrional value)	Increased access to Mechanisation for emergent farmers.	DRDAR & DALRR, DEDEAT, NLM, Private Commercial Farmers.	Facilitator, Coordinator, Co-Implementer.	Number of EMERGING Farmers with access to Mechanisation.	10	2025/6/7/8
	Beef Production	Increase pariticipation of PDIs in the Red Meat Industry.	DRDAR, DALRR, DM, DEDEAT	Facilitator, Coordinator, Co-Implementer.	Increase in the number of Livestock EMERGING Commercial Farmers.	10	2025/6/7/8
	Sheep Production	Increase pariticipation of PDIs in the Red Meat Industry.	DRDAR & DALRR, DM, NLM	Facilitator, Coordinator, Co-Implementer.	Increase in the number of Livestock EMERGING Farmers.	10	2025/6/7/8

Strategic Objective	Project/ Program	Objective	Project stakeholders	Role of NLM	Key performance indicator	Target	Time frame
	Dairy Farming	Establishment of Partnerships with Seasoned Dairy Commercial Farmers to increase participation of PDIs in the industry.	DRDAR, DALRR, DM, NLM, ECRDA	Facilitator, Coordinator, Co-Implementer.	Incease in the number of PDI Farmers participating in Dairy Farming.	5	2025/6/7
	Citrus Production	Improve the number of participants in Citrus Production.	DRDAR & DALRR, DM, NLM, ECRDA	Facilitator, Coordinator, Co-Implementer	Increase in the number EMERGING Growers.	5	2025/6/7
	Bee for honey production (SA imports 50% of its Honey)	Development of Social Enterprise (Trapps Valley)	DRDAR & DALRR, NDA, NLM, ECDC	Facilitator, Coordinator, Co-Implementer	Pilot and feasibility	3 Projects.	2025/6/7
	Community forestry	Expansion of existing parks and thus creating jobs.	DRDAR & DALRR & ELM & ECRDA	Facilitator, Coordinator, Co-Implementer	Indenfied Community Forest Parks for expansion.	2 Projects	2025/6/7/8
	Fodder Production	Leverage on the New Grain Elevator & 110k Beef Cattle in Alexandria. Establish partnerships with Commercial Farmers in Alexandria.	DRDAR & DALRR & ELM & ECRDA	Facilitator, Coordinator, Co-Implementer	Pilots & Feasibilities	1 site	2025/6/7/8

CHAPTER 10

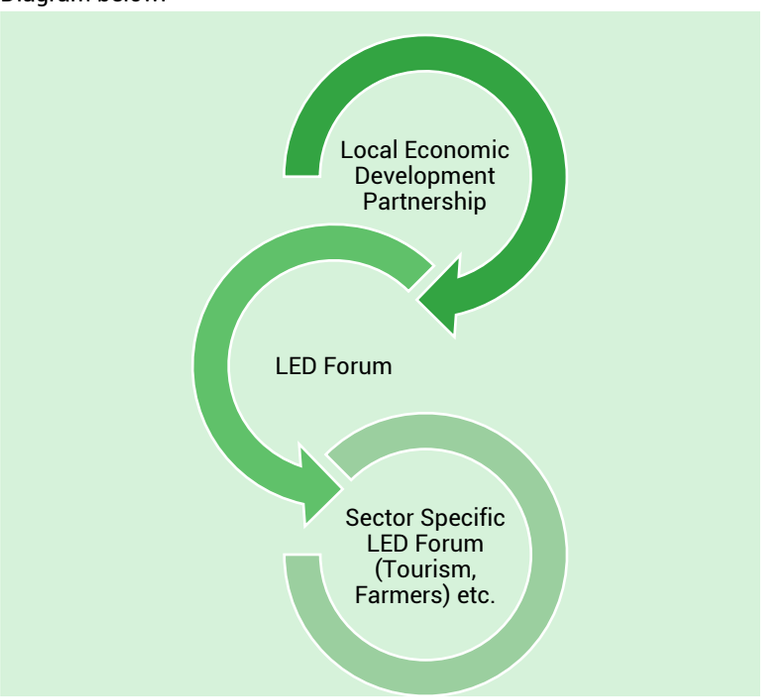

CHAPTER 10

INSTITUTIONAL ARANGEMENTS WITH MONITORING AND EVALUATION

10.1 LED Forums

The LED Forums are the backbone for monitoring of the implementation of LED projects.

The LED forums will be a function of the Partnership as indicated in the Diagram below:

These forums are important and critical tools required in bridging the communication gap and obtaining a common understanding between the local municipality, provincial and national government, private sector and the community at large. Furthermore, these forums also provide the platform for the Local Municipality to form partnerships with the different stakeholders in the implementation of the LED strategy. In general, a LED Forum consists of the private, public and community sectors. Ndlambe LM seeks to involve a greater number of representatives from various government departments whose programs resonate with the LED Strategy of the municipality. This will help increase access to resources as well as provide a different perspective on ensuring and enabling economic growth within the local municipality.

10.2 Relationship with Local Organisation

The economic synthesis of the Ndlambe LM reflects a burdened municipality with a responsibility to create jobs and livelyhood for a population of more than 65000 people parallel to delivering on its core business. The role of government and that of Local Government is to create and enabling environment for the private sector to prosper and thus create jobs, however, government finds itself having to play the dual role of delivering to its mandatory core business of delivering services and socio-economic infrastructure to its citizens at the same time mimic the job ceation. This is a very elusive balance to strike as government lacks the capacity to deliver on this objective of creating jobs. The private sector has to come out of its shell and increase its investment to create jobs, whilst meeting its objective of profit motive.

Ndlambe LM is no exception to the above as it finds itself in a quagmire of having to facilitate job creation with limited resources. It is against this backdrop that tacit agreements have to be entered into with like-minded institutuions, civil society, private sector in order to tackle the sincere objective of implementing the Local Economic Development Strategy.

The responsibility of creating jobs is massive and as such requires innovation from all affected to grow the economy of the municipality using the Mandatory Sectors as catalysts, namely: Agriculture and Agro-Processing, Tourism and Leisure, Construction /Built Environment.

Monitoring and Evaluation

- The strategy review session shall be held once yearly
- Planning and Economic Development shall develop a reporting tool which it will use to report the progress on the implementation of the LED strategy
- The LED Manager of the municipality shall solicit inputs through the internal municipal engagements, LED forum and other innovative engagement on the progress on the implementation of the strategy.
- The review reports shall be tabled once in a year with standing committees and, executive Committees and Council on the implementation of the LED strategy

CHAPTER 11

CHAPTER 11

CONCLUSION

Economic investment is a vexed concept within local government and LED implementors must appreciate this reality. The Eastern Cape does not have an Investment and Trade promotion agency contrary to other provinces, as a result there is no clarity in the strategic direction in terms of investment. The investment policy of the province must be revised and an agency focusing on Investment and trade promotion be established. The fragmented approach to investment promotion has not yielded any significant results. The investment flight and the closure of businesses within the automotive sector and its value chain bares testimony to this fragmentation albeit with other factors exogeneous to that effect. The Centre for Investment and Marketing (CIMEC) in the Eastern Cape folded in early 2000s, with ECDC taking over the responsibility for investment and trade promotoin, however, there has been minimal or no impact over the years. COEGA was given the responsibility of promoting investment and trade owing to the successful establishment of the industrial zone coupled with investing companies. The responsibility still rests with COEGA albeit not part of their mandate.

Ndlambe LM must develop an Investment Framework with an Industrial Strategy with specifically targeted sectors and the types of potential business investments. The framework will also be informed by investment appetite from private business. The public sector led investment and trade promotion not informed by investment appetite from industry captains will always yield no results as government does not have limitless resource to fund business. It is against this backdrop that investment and trade promotion does not fall squarely on the doorsteps of the LED Unit but the entire Ndlambe LM, District Municipality, DEDEAT, DTIC, Provincial Government.

The reconfiguration of the LED Unit as a leading implementer of LED programs is important and is encouraged. LED must be professionalised and properly resourced to create ability and the necessarily agility to be both reactive and proactive to LED opportunities for the municipality.

The critically important aspect for the successful implementation of the LED Strategy is the need to ensure that all stakeholders and parties involved in the LED process take ownership of the programmes and projects identified in the Implementation plan hence all such stakeholder must have been consulted and in concurrence with their expected participation as detailed in the strategy. This means beyond the development of the strategy, continuous engagements with all stakeholders to participate is vital. The Ndlambe LM, will through its yearly SDBIP, indicate projects which it will implement in contribution to the implementation of the strategy and performance of such will be incorporated into the performance management system of the municipality including contributions made by other stakeholders. The annual progress report and strategy reviews are pivotal to gauge the peformance of the municipality.

GLOSSARY OF TERMS

Allocations - Money received from Provincial or National Government or other municipalities.

Budget - The financial plan of the Municipality.

Budget related policy - Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

Capital expenditure - Spending on assets such as land, buildings, and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

Cash flow statement - A statement showing when actual cash will be received and spent by the Municipality.

DORA - Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable share - A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

Fruitless and wasteful expenditure - Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GRAP - Generally Recognised Accounting Practice. The new standard for municipal accounting.

IDP - Integrated Development Plan. The main strategic planning document of the Municipality

MBRR - Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

MFMA - Local Government: Municipal Finance Management Act (56/2003). The principal piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

MTREF - Medium Term Revenue and Expenditure Framework. A medium-term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current year's financial position.

Operating expenditure -Spending on the day-to-day expenses of the Municipality such as salaries and wages.

Rates - Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed ratable value is multiplied by the rate in the rand.

SDBIP - Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic objectives - The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure - Generally, is spending without, or more than, an approved budget.

Virement - A transfer of budget.

Virement policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote - one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and (b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned. In Ndlambe Local Municipality this means votes such as Executive & Council, Financial Services, Corporate Services, and Public Safety etc.

MIG - Municipal Infrastructure grant- Conditional grant capital in nature

INEP - Integrated Electrification (municipal) Programme grant capital in nature.

EPWP -Expanded Public Works Programme

FMG - Financial Management Grant

NRW- Non-Revenue Water

mSCOA- Municipal Standard chart Of Accounts

INTRODUCTION

The budget implementation report assesses the in-year financial performance of the municipality against the budgeted revenue and expenditure. The budget implementation report focuses on the credibility of municipal budget, covering capital and operating budgets as well as sustainability of the municipality that includes debtors, creditors, and cash flow position through compliance with relevant legislation and regulations.

LEGISLATIVE FRAMEWORK

In terms of section 52 (d) of the Municipal Finance Management Act, (Act 56 of 2003) (MFMA), the mayor of a municipality must within 30 days after the end of each quarter submit a report to council on the implementation of the budget and the financial situation of the Municipality. Section 74 of the MFMA requires accounting officers to submit such information, returns, documents, explanations, and motivations as may be required.

EXECUTIVE SUMMARY

The executive summary presented is aimed at providing Council with a high-level overview of the financial performance for quarter 1 of 2026/27 as well as a comprehensive overview of the Municipality's financial management and viability, and the extent to which the Municipality is meeting or exceeding planned performance as contained within the Service Delivery and Budget implementation plan.

Table C1 summarises the Municipality's financial performance, capital expenditure, financial position and cash flows for Quarter 1. The figures should be read with the detailed statements and supporting schedules, particularly where the timing of grant receipts, billing, supplier payments and project implementation affects the year-to-date position.

Revenue:

Year-to-date operating revenue is R197.284 million against a year-to-date budget of R182.990 million, resulting in revenue exceeding the budget profile by R14.294 million (approximately 8%). The reported collection rate is 77%, compared with 73% in the corresponding prior-year quarter, an improvement of four percentage points. While the revenue position is favourable overall, the performance varies by source: operational grants and property rates are above the budget profile, while water and wastewater service charges are below it. The Municipality should continue to monitor collection performance and investigate the sustainability of these variances.

Operating Expenditure:

Total year-to-date operating expenditure is R137.421 million against a year-to-date budget of R155.238 million, representing underspending of R17.816 million (11%). Material variances include bulk electricity purchases, inventory consumed, contracted services and operational costs. The explanations below indicate that timing differences and services not yet commenced contribute to the variance; departments should confirm whether these are temporary timing differences or delays that could affect service delivery.

Capital Expenditure:

Year-to-date capital expenditure is R15.170 million. The capital funding schedule reports total sources of R28.831 million for the first quarter budget, including grant-related funding and internally generated funds. The difference between funding received/recognised and expenditure incurred indicates that implementation and spending must be monitored against project milestones and grant conditions; it should not be interpreted as expenditure performance without confirming the relevant budget columns. Capital projects are substantially dependent on conditional allocations, which are generally transferred according to published payment schedules. Departments should prioritise procurement, contractor mobilisation and implementation while ensuring expenditure is eligible and supported.

Surplus/Deficit:

The statement of financial performance reports a year-to-date operating surplus of R59.863 million before capital transfers, calculated as operating revenue of R197.284 million less operating expenditure of R137.421 million. This is a positive operating result for the quarter and is materially influenced by revenue exceeding the budget profile and expenditure remaining below budget. The result should be interpreted cautiously because some underspending may relate to delayed implementation, and the timing of grant receipts affects revenue. The figure of R15.170 million relates to capital expenditure and should not be used as the operating surplus.

Capital transfers intended to fund capital projects are excluded from the operating surplus calculation. Based on operating revenue of R197.284 million and an operating surplus of R59.863 million, the operating surplus margin is approximately 30.3%. This is above the stated benchmark of zero or higher. The comparative operating surplus margin for the corresponding quarter of the prior year has been verified at 25%. This represents an increase of approximately 5.3 percentage points, indicating an improvement in the Municipality's operating surplus margin compared with the prior-year period.

Debtors:

Outstanding debtors comprise consumer and sundry balances arising from exchange and non-exchange transactions. The total debtor balance at the end of Quarter 1 is R334.409 million, compared with R267.249 million in the corresponding prior-year quarter, an increase of R67.160 million (approximately 25.1%). The increase places pressure on cash collection and requires analysis by age, service category, customer group and recoverability. Management should continue targeted debt-collection actions and reconcile balances that are disputed or outside the Municipality's direct collection control.

Creditors:

The report records outstanding creditors of approximately R2.228 million at the end of Quarter 1, compared with R0.806 million in the corresponding prior-year quarter. This represents an increase of approximately R1.422 million. The balance is reported as trade creditors, mainly within the current to 30-day ageing category. The ageing schedule is reconciled to the creditor's ledger, and invoice dates and payment dates are reviewed to ensure that the Municipality has complied with the 30-day payment requirement.

Functional analysis – Table C2: The functional statement shows revenue concentrated in governance and administration and trading services, while expenditure is concentrated in trading services. Revenue including capital grants performance is above the budget profile overall, but wastewater management expenditure is materially above its year-to-date budget, and energy services also show a notable adverse variance.

The variance analysis in Table C3 should be interpreted using the year-to-date actual and year-to-date budget columns. A favourable expenditure variance means actual expenditure is below budget; it does not, by itself, constitute unauthorised expenditure. Any determination of unauthorised expenditure must follow the MFMA definition and the Municipality's approved processes.

The vote-level figures indicate that actual expenditure for the quarter exceeded the year-to-date budget allocations for the Municipal Manager, Corporate Services and Community Services by R0.494 million, R1.258 million and R0.948 million, respectively. These variances should be treated as potential red flags requiring further monitoring and investigation, rather than automatically classified as unauthorised expenditure at this stage. As the financial year is still in its first quarter, it would be premature to conclude that unauthorised expenditure has occurred solely on the basis of these variances, as the expenditure may still be accommodated within the remaining annual budget. However, this is dependent on effective expenditure controls and appropriate management action to prevent further adverse variances.

Vote analysis – Table C3: The vote-level schedule provides accountability for revenue and expenditure by municipal department. It reflects favourable and adverse expenditure variances across the various votes, particularly Electricity Services, Water Works, Financial Services and Wastewater Management. Revenue performance is above the year-to-date budget in Electricity Services, Water Works and Financial Services, while Infrastructure Development and Wastewater Management are below their respective budget profiles.

The variances should be considered in the context of the first quarter of the financial year. Delays in procurement processes may have contributed to expenditure underspending, as some planned activities and projects may not yet have progressed to the implementation stage. In addition, budget constraints in areas where allocations may have been insufficient could have affected operational and service delivery requirements. These factors, among others, may contribute to the favourable and adverse variances reflected in the schedule and should be adjusted during the mid-year adjustment budget.

Table C4 above:

The municipality is on the accrual basis as a result revenue in this table reflects a breakdown of the actual revenue billed per revenue source (property rates, electricity, water, wastewater and waste), as well as “other” revenue received (including unconditional/conditional grant received /recognised). Material variances, including those exceeding 10% and R1 million, are analysed by expenditure and revenue items in Table C4.

Revenue:

Total year-to-date operating revenue is R197.284 million against a year-to-date budget of R182.990 million, a favourable variance of R14.294 million (8%). The overall favourable position masks differing trends across revenue sources, so management should monitor underperforming water and wastewater charges alongside the positive performance in electricity revenue, property rates and operational transfers. The figures in this narration follow the table's "YearTD actual" and "YTD budget" columns.

- Electricity service-charge revenue is R5.986 million (18%) above the year-to-date budget profile. The existing operational explanation attributes the favourable variance to higher winter consumption and consumers delaying changes to lower capacity.

- **Water Service Charges:** Revenue is R4.779 million (26%) below the year-to-date budget projection. The adverse variance is mainly attributable to an increase in the number of households qualifying for indigent support following the implementation of the revised indigent qualification criteria. The number of registered indigent households receiving water services increased by 2,371, from 6,574 to 8,945 households, representing an increase of approximately 36.1%. This increase was not fully anticipated during the budget preparation process, resulting in a higher level of subsidised water services than originally projected and consequently contributing to the revenue shortfall.
- **Wastewater Service Charges:** Revenue is R2.436 million (26%) below the year-to-date budget projection. The adverse variance is similarly attributable to an increase in households qualifying for indigent support under the revised qualification criteria. The number of registered indigent households receiving wastewater services increased by 2,164, from 5,442 to 7,606 households, representing an increase of approximately 39.8%. The additional households qualifying for subsidised wastewater services were not fully provided for in the approved budget, resulting in lower revenue than anticipated.

- Sales of goods and rendering of services reflect a variance of 15% for the period ending in September. The increase is as a result of increase in application fee for land usage and building plan fees.
- Interest earned for Receivables reflects a variance of -11%, due to a decrease in historical balances as a result of write-off done at year end whereas the budget was determined based on the full debtor's balance prior to write-off
- Rental from fixed assets on exchange reflects a variance of -27% for the period ending in September.
- Operational revenue reflects a increase of 98% for the month of September due to allocation received from LGSETA.
- Fines, penalties and forfeits reflets -39% due to amount received on traffic fines for the period ending in September.
- Licenses and permits on non-exchange reflets a variance of -45% for the period ending in September due to overstating on boat registration fees.
- Transfers and Subsidies – Operational reflects an underspending of 26% variance at the end of September, due to 1st trench of budgeted grants received. Equitable share's budget allocation for the first trench is less what is received

Operating Expenditure:

Total year-to-date operating expenditure amounts to R137.421 million against a budget of R155.238 million, resulting in underspending of approximately R17.816 million (11%). Material variances are noted in bulk electricity purchases, inventory consumed, contracted services and other operational costs. The explanations provided indicate that timing differences and services not yet commenced have contributed to the underspending. These variances are therefore expected to be temporary, subject to the timely implementation of planned activities. Procurement processes are being accelerated to facilitate the commencement of outstanding activities and improve expenditure performance in line with the approved budget.

- **Bulk electricity purchases:** Expenditure is R4.264 million (17%) below the year-to-date budget profile. The report indicates that actual payments relate to approximately one and a half months of consumption, compared with a three-month budget allocation. This suggests that the variance may primarily be attributable to a timing difference in payments

rather than a reduction in electricity consumption costs. The position should be monitored to determine whether the variance will reverse in subsequent months.

- **Inventory consumed:** Expenditure is R3.137 million (37%) below the year-to-date budget profile. The variance is attributed to improved fuel-management controls and delays in procuring materials. While the improved controls may have contributed to cost savings, the impact of procurement delays should be monitored to ensure that operational requirements and service delivery are not adversely affected.
- **Contracted services:** Expenditure is R3.402 million (11%) below the year-to-date budget profile, mainly due to services that have not yet commenced. The acceleration of outstanding procurement processes and the commencement of planned services will be necessary to improve expenditure performance in line with the approved budget.
- **Operational costs:** Expenditure is R3.879 million (21%) below the year-to-date budget profile. The variance is attributed to monthly budget projections that appear to have been overstated due to inadequate planning. This highlights the need to align the budget with the procurement plans and improve the accuracy of monthly expenditure projections to ensure that budget allocations reasonably reflect anticipated operational requirements.

Capital Expenditure – Table C5: Capital expenditure for the first quarter amounts to R15.170 million against a year-to-date budget of R28.831 million, resulting in underspending of R13.661 million (47%). It is important to note that this variance is measured against the first-quarter budget allocation and not the total approved annual capital budget. The Municipality has therefore utilised approximately 53% of its first-quarter capital budget. The underspending reflects the pace of capital expenditure during the reporting period and does not necessarily indicate that the annual capital budget will remain underspent at year-end.

Expenditure is predominantly concentrated in Water Works (R8.157 million) and Electricity Services (R3.093 million), while several votes reflect minimal or no expenditure against their respective budget allocations.

Capital expenditure funded through grants reflects relatively satisfactory progress, with a variance of less than 5% against the year-to-date budget. However, capital projects financed through internally generated funds reflect significant underspending of approximately 99% against the year-to-date budget, indicating that the majority of these projects had not commenced during the first quarter.

The significant underspending on internally funded projects highlights delays in project implementation and the need to strengthen alignment between procurement planning, project implementation schedules and monthly budget projections. Management should ensure adherence to approved procurement plans and accelerate outstanding procurement processes to facilitate the commencement of planned projects. Furthermore, monthly budget projections should be reviewed to ensure that they realistically reflect anticipated project implementation timelines and expenditure patterns, thereby improving budget performance and minimising significant variances in subsequent quarters.

Non-current liabilities amount to R178.324 million and include provisions and other long-term obligations relating to post-retirement medical benefits, long-service awards and landfill rehabilitation. These obligations are subject to periodic assessments and valuations to ensure that the reported balances reflect the Municipality's financial commitments.

It should be noted that the financial position reported for the first quarter does not incorporate the current-year movements in certain provisions and employee benefit obligations, including landfill rehabilitation, post-retirement medical benefits, long-service awards, bonus accruals and leave pay accruals. In line with the Municipality's established practice, the relevant specialists, including actuaries where applicable, are appointed annually to determine the required valuations for purposes of preparing the Annual Financial Statements. Consequently, the reported balances will be updated as part of the preparation of the 2026/27 Annual Financial Statements to reflect the reassessed obligations and provide a more complete financial position at year-end.

The Municipality's current ratio at the end of the first quarter is approximately 1.12:1, which is below the commonly applied benchmark range of 1.5:1 to 2:1. This indicates constrained short-term liquidity, as current assets only marginally exceed current liabilities. Furthermore, a significant portion of current assets comprises receivables and VAT-related balances, which are not immediately available to meet short-term financial obligations.

Cash/cash equivalents at month/year end:		48,093	44,520	–		71,852	26,717			44,520

Cash-flow figures for VAT-able transactions are VAT-inclusive and will therefore not agree directly to the accrual-based revenue and expenditure reported in the statement of financial performance. The cash-flow statement should be assessed in terms of actual receipts and payments and the resulting movement in available cash.

Cash and cash equivalents at the end of September 2026 are reported at R71.852 million compared to the prior corresponding quarter of R79.685 million reflecting a decrease of 10%. The cash balance must be considered together with the operating cash generated, investing outflows, grant receipts and the timing of supplier payments. Continued monitoring of daily cash positions and rolling cash-flow forecasts is recommended to ensure sufficient liquidity for service delivery and contractual commitments.

The first-quarter payments include the settlement of accruals recognised at the end of the previous financial year. Outstanding trade payables amounted to R60.711 million as at 30 June 2026, which contributed significantly to the 39% variance against the year-to-date budget for payments. The variance is therefore largely attributable to the settlement of prior-year obligations during the first quarter, resulting in payments exceeding the current period's budget projections.

With regard to financing activities, the Municipality has no outstanding borrowings. This explains the insignificant variance reported under financing activities, as there are no material borrowing-related cash flows during the reporting period.

PART 2: SUPPORTING TABLES

Supporting Table SC9 provides the age analysis of outstanding debtors by ageing category and income source. It should be read together with the collection-rate and indigent-household information to assess the age, composition and collectability of the debtor book.

- Outstanding debtors at the end of Quarter 1 total R334.409 million. The ageing schedule indicates that a substantial portion is older than 90 days; the reported balance of R256.059 million for debt older than 90 days should be reconciled to the ageing buckets in the table before publication. The concentration of long-outstanding balances increases collection risk and requires targeted follow-up, payment arrangements where appropriate, and continued application of the credit-control and debt-collection policy.

- The debtor profile identifies households as the largest category of debtors (78.79%), followed by commercial property owners (17.34%). Interest on arrear debt is reported as 17.86% of the total. These percentages describe different dimensions of the debtor book and should not be added together. The household concentration highlights the importance of distinguishing indigent support from collectable consumer debt and applying consistent credit-control measures.

- Government departments account for a reported 3.96% of arrears. These balances should be followed up through formal account reconciliations and direct engagement with the relevant departments, with unresolved disputes or delayed payments escalated appropriately.

- Of the reported total debtor balance of R334.409 million, R229.412 million (68.60%) is attributed to Eskom electricity supply areas, where the Municipality has limited direct control over electricity-related debt collection. This concentration affects the interpretation of the overall collection position.

The aged-creditors schedule reflects outstanding creditors of approximately R2.228 million as at 30 September 2026, predominantly comprising trade payables within the current to 30-day ageing category.

No significant individual creditor balances remained outstanding at the end of the first quarter, indicating that the Municipality had substantially settled its major creditor obligations during the reporting period. The schedule below provides a breakdown of the major creditors whose payments were processed during September 2026, the final month of the first quarter.

Top 20 Paid Creditors as of 30 September

2.3 Supporting Table SC16 - Investment portfolio and Loans – M03 - Quarter 1

Investments by maturity Name of institution & investment ID R thousands	Ref	Period of Investment Yrs/Months	Type of Investment	Capital Guarantee (Yes/ No)	Variable or Fixed interest rate	Interest Rate ₃	Commission Paid (Rands)	Commission Recipient	Expiry date of investment	Opening balance	Interest to be realised	Partial / Premature Withdrawal (4)	Investment Top Up	Closing Balance
Municipality														
FNB		3 Months	Call Account	Ye						15,626	267	(15,903)	16,990	16,980
ABSA		Month to Month	Call Account	Yes						11,524	811	(73,595)	115,244	53,983
INVESTEC		Month to Month	Call Account	No						3,791	62	(74)	31	3,809
STD BANK		Month to Month	Call Account	No						5,850	107	(2,831)	4,451	7,576
TOTAL INVESTMENTS AND INTEREST	2									**36,790**	**1,247**	**(92,403)**	**136,715**	**82,349**

The investment portfolio schedule reflects investments held by the Municipality as at the end of the first quarter, excluding balances maintained in current bank accounts. The total balance held in call account investments amounts to R82.349 million, comprising conditional grant funds of R47.919 million, sureties held in respect of Eskom guarantees amounting to R15.127 million, and internally generated funds of R19.303 million.

It is important to distinguish between restricted and unrestricted funds when assessing the Municipality's available cash resources. The investments relating to conditional grants and Eskom guarantees are earmarked for specific purposes and are therefore not available to finance the Municipality's general operational expenditure. Conditional grant funds must be utilised in accordance with the applicable grant conditions, while the sureties are maintained to meet the Municipality's obligations relating to Eskom guarantees.

Consequently, the R19.303 million held in internally generated funds represents the portion of the call account investments available to support the Municipality's operational cash flow requirements, subject to its cash management arrangements and other financial commitments. This distinction is important when assessing the Municipality's liquidity position, as the total investment balance of R82.349 million does not represent funds that are entirely available for day-to-day operations.

TOTAL RECEIPTS OF TRANSFERS & GRANTS		**228 262**	**227 613**	**–**	**115 529**	**115 529**	**75 917**	**39 612**	**52.2%**	**227 613**

Total receipts from transfers and grants exceeded the year-to-date budget projections by 52.2%. The favourable variance is mainly attributable to additional grant funding received during the first quarter, comprising R15.314 million for the Regional Bulk Infrastructure Grant (RBIG) and R5.000 million for the Disaster Recovery Grant. These additional allocations were not included in the original approved budget, resulting in actual receipts exceeding the year-to-date budget projections.

The additional grant allocations will be incorporated into the Municipality's budget through an adjustments budget to be tabled before Council during the second quarter of the 2026/27 financial year. This will ensure that the approved budget reflects the additional funding received and provides for the corresponding expenditure in accordance with the applicable grant conditions.

Supporting Table SC19 should be read in conjunction with the grant receipts schedule (Table SC18) and the capital expenditure report to assess the Municipality's performance in utilising conditional grants for their intended purposes and in accordance with the applicable grant conditions. The total expenditure of transfers & grants is 4.8% above the year-to-date budget.

The Municipality maintains a grant register to monitor the movement and utilisation of grant funding. The register records unspent grant balances brought forward from the previous financial year (opening balances), grant receipts during the current financial year and expenditure incurred against each grant. This enables the Municipality to monitor available funding, track expenditure performance and ensure that spending remains within the respective grant allocations.

The designated grant custodians are responsible for maintaining and updating their respective grant registers monthly. These registers are subsequently reconciled and reviewed by the Finance Department to verify the accuracy of reported balances, monitor expenditure against available funding and identify any potential overspending or underspending requiring management attention.

Supporting Table SC30 compares actual cash receipts against the revised cash-receipt targets and should be read in conjunction with Table C7 (Cash Flow Statement). The two schedules provide an overview of the Municipality's cash collection performance against budget projections and assist in assessing the impact of actual cash receipts on the Municipality's overall cash flow and liquidity position

- Supporting Table SC12 presents monthly capital expenditure trends. The table outlines the trends on spending capital expenditure monthly must be read in conjunction with table C5.

.

Capital expenditure: YTD actual v actual YTD target

The graph illustrates the Municipality's monthly capital expenditure performance against the approved budget projections for the 2026/27 financial year.

As at the end of the first quarter, cumulative capital expenditure amounted to R15.170 million against a year-to-date budget of R28.831 million, resulting in underspending of R13.661 million (47.4%). This indicates that approximately 52.6% of the first-quarter capital budget was utilised.

The monthly expenditure trend reflects actual expenditure of R1.327 million in July, R7.677 million in August and R6.166 million in September. Although expenditure increased significantly in August compared with July, it declined slightly in September. The cumulative expenditure remained below the projected budget throughout the quarter, indicating that capital project implementation is progressing at a slower pace than anticipated.

The approved annual capital budget amounts to R84.638 million, of which approximately 17.9% had been spent by the end of September 2026. It is important to distinguish between the 47.4% underspending against the first-quarter budget projections and the annual budget performance, as these measure expenditure against different reporting periods.

The expenditure trend highlights the need to accelerate capital project implementation, particularly projects that have not yet commenced. Management should ensure adherence to approved procurement plans, strengthen monitoring of project implementation schedules and align monthly budget projections with realistic expenditure timelines. These measures are necessary to improve capital expenditure performance during the remaining quarters and minimise the risk of significant underspending at the end of the financial year.

3.2 Staff and councillor accounts M03 - Quarter 1

The two tables below show the status of councilors and staff account balances.

REPORT ON MUNICIPAL STAFF ACCOUNTS		
Quantity of Debtors	**Explanation**	**Balance as of Sept 2026**
355	Staff on Age Analysis Coded as staff	1,098,147.63
272	Staff with current balance paying through staff deduction	334,563.80
10	Accounts with credit balances	-12,391.31
35	Staff with arrears with valid arrangements in place (Balance is R 146 367.82 of which R 42 965.94 relates to current for Sept 2026 which is paid monthly and instalments towards arrears is R11 099.27(debt will be settled in 0-24 months)	146,367.82
13	Staff with arrears with arrangements towards arrears but repayment periods are from 25-291 months therefore arrangements are not valid. Balance of these staff debtors' arrears is R 146 367.82 of which current is R23 440.00 and instalment towards arrears amounts to R 2 542.98 (debt will be paid back between 25-291 months).	253,246.53
1	Account 1200786 relates to a staff member living on mothers' property mother applied to rates and valuation committee for arrear write-off. Employee only pays R2 000.00 towards current account mother to pay rest of current account.	8,090.09
22	Staff accounts with queries to be resolved during October 2026	367,316.69
2	Staff account Pay Account Cash monthly	954.01
355		1,098,147.63
REPORT ON COUNCILLORS ACCOUNTS		
Quantity of Debtors	**Explanation**	**Balance as at Sept 2026**
20		52,732.78
16	Councillors in current balance - paying by staff deduction	20 172.93
1	Councilor is renting therefore no municipal account in their name	0
2	Councillors living in the information settlement areas (no accounts due)	0
1	Councillors Account within 24 months	32,559.85
20		52 732.78

A total of 272 of 355 employee accounts are in current, 10 employees have credit balances, and 48 employees have arrear balances. The

48 employees with arrear balances are further broken into those with valid arrangements being 35 and those with arrangements for a period longer than 24 months being 13. The 13 employee arrangements are not valid due to either affordability or that they will be valid as they will be paying a portion of their debt during December from their bonus payout.

Further 22 employees have accounts with enquiries which relate to high water consumption (air pressure or leaks) to be resolved during the month of October and November 2026

Of the twenty (20) Councillors, sixteen (16) is in current, two (2) Councillor does not have an account as they reside in an informal settlement area where municipal accounts are not applicable, one (1) Councillor is renting and therefore does not have a municipal bill and one (1) Councillor has an arrear balance.

Of the nineteen (20) accounts, nineteen (19) are up to date, and one (1) is in arrears. The details of the Councillor in arrears is as follows:

- **Councillor A:** The Councilors has raised a dispute regarding the debt, maintaining that the debt relates to her sister's company rather than to her in her personal capacity. The company is linked to the same property and therefore to the same account, being their parents' residence, and as a result, the debt appears against the account for which the Councilors is making payment.

Finance Credit Control compares the payroll and staff deduction listings on a Quarterly basis to identify municipal employees who are not included in the staff deduction list. A debt collection drive is conducted, during which these staff members are visited to establish payment arrangements, resulting in an increase in outstanding staff debt. This exercise remains ongoing.

3.3 Collection rate M03 - Quarter 1

Ndlambe collection levels: 2026/2027

The table below reflects the collection rate of the municipality for quarter 1 ending in September 2026.

The insurance premiums are paid monthly and occasionally they are updated either increase or decrease. In the end of 1st quarter, the municipality has made the premiums of R1,123 million which includes commission to the broker.

3.5 Irregular, Fruitless and Wasteful Expenditure – M03 – Quarter 1

IRREGULAR EXPENDITURE

The potential Irregular Expenditure identified for the period 01 July 2026 to 30 September 2026 is detailed in **Annexure D** and the expenditure amounted to approximately R18,984,034.40. The expenditure is linked to transactions from new deviations approved during the period under review, ongoing expired contracts and expenditure from previous contracts recorded from identified Auditor General findings.

Table C below provides a summary by the department, together with a detailed listing in Annexure E.

TABLE C - IRREGULAR EXPENDITURE FOR THE PERIOD JULY 2026 – 30 SEPTEMBER 2026

DEPARTMENT	NO OF TRANSACTIONS	SUM OF TRANSACTIONS
Corporate Services	2	R196,868.56
Finance	5	R77,134.41
Infrastructure	53	R18,293,781.43
Municipal Manager	5	R416,250.00
Grand Total	**65**	**R18,984,034.40**

CONTRACTS REGISTER

The contracts management register lists the contracts that are valid for the financial year. It provides a listing of the award amount, payments made and duration of the contracts.

End-user departments are provided with a monthly reminder of all contracts that are nearing expiration, noting those that will be expiring in a three-month period. This is to ensure that the end-user department liaises with the SCM unit to initiate and process a new tender/quotation process to ensure continuity of services.

This report is also used as a tool for procurement planning processes.

RECOMMENDATION

That the Supply Chain Management report for the quarter that ended 30 September 2026 and the supporting documentation annexed in this report are noted.

Deviations

Paragraph 36 of the SCM Policy allows the Accounting Officer to dispense with the official procurement processes established by this Policy and procure any required goods or services through any convenient process, which may include direct negotiations, but only –

(i) in an emergency.
(ii) if such goods or services are produced or available from a single provider only.
(iii) for the acquisition of special works of art or historical objects where specifications are difficult to compile.
(iv) acquisition of animals for zoos and/or nature and game reserves; or
(v) in any other exceptional case where it is impractical or impossible to follow the official procurement processes.

For the quarter under review, ten (10) deviations were processed by the SCM unit and approved by the Accounting Officer. The summary of the approved deviations is depicted in Table B below, for the period under review, indicating the values and number of approvals for each period. A full listing of all approved deviations is noted in **Annexure C.**

Departmental Analysis

The table below outlines the deviation approved amounts and the number of transactions by department for the Quarter under review:

TABLE B		
DEPARTMENT	**NO OF TRANSACTIONS**	**SUM OF TRANSACTIONS**
Infrastructure	3	R1,444,226.56
Finance	2	R46,254.00
Corporate Services	2	R29,768.00
Municipal Manager	3	R62,254.30
Grand Total	**10**	**R1,582,502.86**

A full listing of all approved deviations is noted in "**Annexure C"**

3.5.2 Fruitless and Wasteful Expenditure

The table below reflects the fruitless and wasteful expenditure incurred for quarter 1.

Inv Date	Supplier/ Creditor	Comment	Payment Number	Invoice	Total Amount of Potential Fruitless & Wastefull Exp	Amount Retrieved/ Recovered	Evidence /Proof Of Recovery	Receipt No	Total Fruitless and Wastefull Expenditure
	Gosani Enterprise		EF009662-0003-21/07/2026		1,887.12			-	1,887.12

3.6 Electricity and Water Losses – M03 – Quarter 1

- Electricity losses represent a comparison of purchased KWH to billed KWH. Billed KWH is a sum of time of use (TOU), conventional meter readings and prepaid electricity.
- Most of the losses are incurred in Alexandria but the volumes purchased for Alexandria are not material relative to Port Alfred Volumes, to date the calculated losses are 10%, this is higher than the 8% industry norm. According to CDR, these losses are because of line losses due to the old infrastructure. See detailed calculations in the electricity losses report.

WATER BALANCE REPORT – SEPTEMBER 2026

Overview of Non-Revenue Water (NRW) and Losses

The Non-Revenue Water (NRW) report for the Ndlambe Municipality for September 2026 indicates an overall NRW average of 26.3% across the water supply systems.

Summary of Non-Revenue Water Per Water Supply System

Water Supply System	Water Supplied (kL)	Water Billed (kL)	Non-Revenue Water (kL)	Non-Revenue Water (%)
Port Alfred	131 566	104 719.32	26 846.68	20.4%
Bathurst	14 985	12 230.00	2 755.00	18.4%
Kleinemonde	4 573	2 102.00	2 471.00	54.0%
Kenton-on-Sea	40 669	28 634.46	12 034.54	29.6%
Cannon Rocks	12 189	5 960.00	6 229.00	51.1%
Alexandria	41 852	27 457.00	14 395.00	34.4%
TOTAL	**245 834**	**181 102.78**	**64 731.22**	**26.3%**

3.7 Cost Containment Report – M03 – Quarter 1

Cost-containment category	Q1 budget R'000	Q1 actual R'000	Unutilised R'000	Utilisation %	Variance assessment	Additional savings R'000	Supporting explanation / evidence
Use of consultants	43,080	9,132	33,948	21.2%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
Vehicles used for political office-bearers	–	–	–	0.0%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
Travel and subsistence	1,038	165	873	15.9%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
Domestic accommodation (included in travel)	619	107	512	17.3%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
Sponsorships and events	4,286	1,272	3,014	29.7%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
Catering	161	47	114	29.2%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
Entertainment: senior management, Mayor and Speaker	10	1	9	10.0%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
Communication	4,248	800	3,448	18.8%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
Other related expenditure	–	–	–	0.0%	Pending mid-year assessment	–	Unutilised allocation; savings not yet determined
TOTAL	**53,442**	**11,524**	**41,918**	**21.6%**		**–**	

Note: The approved budget allocations already incorporate cost-containment reductions. Unutilised budget balances should not automatically be regarded as additional savings, as they may include timing-related variances or expenditure yet to be incurred. Additional savings will be determined and verified during the mid-year budget and performance assessment.

Cost Containment Performance – Quarter 1: 2026/27

The Municipality continues to implement cost-containment measures through prudent budgeting and expenditure management. The approved budget allocations for the identified cost-containment categories already incorporate expenditure reductions introduced during the budget preparation process.

During the first quarter of the 2026/27 financial year, actual expenditure across the identified cost-containment categories amounted to R11.524 million against a year-to-date budget of R53.442 million, representing budget utilisation of 21.6%. The remaining R41.918 million (78.4%) represents unutilised budget allocations at the end of the reporting period.

The largest expenditure was recorded under the use of consultants at R9.132 million, followed by sponsorships and events at R1.272 million and communication expenditure at R800 thousand. Expenditure across all identified categories remained within the respective quarterly budget allocations.

Although the expenditure performance indicates that spending has remained within the reduced budget allocations, it is premature to quantify additional cost savings at this stage. The Municipality will undertake a detailed assessment during the mid-year budget and performance review to determine the underlying reasons for the variances and identify any additional savings achieved through cost-containment measures.

Management will continue monitoring expenditure against the approved allocations to promote compliance with cost-containment requirements and ensure the efficient utilisation of municipal resources.

3.8 Virement Report

The total virements processed during Quarter 1 amounted to R17.088 million, compared with R10.946 million in the corresponding prior-year quarter, an increase of R6.142 million (approximately 56%). The virements are reported as being supported by the Council-approved Virement Policy.

PERIOD	REMARKS	AMOUNT	NOTES
202608	Budget Shifting	(6,599,130.00)	The Upgrading of Atherstone Phase 1 project was completed in June 2026. However, the budget intended for the continuation of Phase 2 was erroneously allocated to the completed and already unbundled Phase 1.
202608	Virement	(97,406.00)	The funds for the blue flag application fee as the segment was not budgeted for. These funds are needed so that Ndlambe blue flag team can be awarded blue flag status
202609	Budget Shifting	(1,385,217.00)	Budget shifting from incorrect project allocation of Upgrading of Ndlambe Roads to defined project description of Upgrading of Runeli Drive: Phase 4
202607	Virement	(75,000.00)	Shifting budget to grass cutting and hire charges segment created for assistance with upcoming election for assistance with upcoming election
202607	Virement	(75,000.00)	Shifting budget to grass cutting and hire charges segment created for assistance with upcoming election for assistance with upcoming election
202607	Shifting Funds	(20,000.00)	Shifting budget to Hire charges segment created for assistance with upcoming elections the initial virement processed was not sufficient
202608	Budget Shifting	(4,598,261.00)	Budget shifting from incorrect normalisation of receiving substations 2 of 2027 to normalisation of receiving substation of 2026
202607	Budget Shifting	(269,000.00)	Shifting budget from Personnel and labour segment to Capacitation of Internal Audit segment due to rejection of Personnel and labour segment on the FMG activity plan for 2027.
202607	Virement	(17,000.00)	There are insufficient funds in the own transport incidental costs and other transport provider shuttle segment this therefore necessitates a transfer of funds
202607	Virement	(100,000.00)	The budget was not split for piggery projects
202607	Virement	(50,000.00)	The budget was not split for piggery projects
202609	Virement	(35,000.00)	Additional funds for subsistence and travelling allowance are needed.
202609	Virement	(25,000.00)	Additional funds for subsistence and travelling allowance are needed.
202608	Virement	(10,000.00)	This segment had little money to accommodate the entire section that is under the municipal manager
202609	Virement	(20,000.00)	The segment was not budgeted for hence the need for the virement
202607	Budget Shifting	(3,600,000.00)	Shift budget that is incorrectly allocated. The budget was combined in monthly fees segments. It is now being allocated to annual license fee segment.

202607	Budget Shifting	(10,000.00)	Budget for the Mandela Day project was incorrectly allocated to item cleaning material instead of Transportation segment.
202607	Shifting Budget	(20,000.00)	Shifting budget to Hire Charges segment created for assistance with upcoming elections the initial virement processed was not sufficient
202607	Shifting Budget	(50,000.00)	Shifting budget to grass cutting created for assistance with upcoming elections the initial virement processed was not sufficient
202607	Shifting Budget	(32,000.00)	Shifting budget to grass cutting created for assistance with upcoming elections the initial virement processed was not sufficient

Note: The virements were undertaken in accordance with the Municipality's approved Virement Policy and within the prescribed policy restrictions. These virements represent the reallocation of budget provisions within projects and functions and do not constitute amendments to the approved budget that would require an adjustments budget. The movements remain within the permissible limits of the Virement Policy and do not alter the overall approved budget allocations.

	Consumer account enquiries.	Manager Revenue: Diane May	dmay@ndlambe.gov.za	01/03/2017	01/07/2017	100%	Completed	Ongoing		
	Debt collection procedure.	Manager Revenue: Diane May	dmay@ndlambe.gov.za	01/03/2017	01/07/2017	Ongoing	In Progress		The Munsoft Credit Control module has not yet been implemented, as it does not currently accommodate the full debt collection cycle effectively and is therefore not yielding the desired results. To address this, presentations will be requested from two external service providers whose systems integrate with Munsoft, in order to assess whether their solutions will better support the Municipality's credit control processes and deliver the required outcomes.	Presentation from 3 service providers were held in August 2026 and a specification needs to be drafted to go out on tender for these services which firstly needs a budget provision. Further procurement will take place on the 27/28 financial year. The munsoft credit control module as incomplete as it is will be implemented from 1 December 2026
	Indigent or ATTP Management.	Manager Revenue: Diane May	dmay@ndlambe.gov.za	01/03/2017	01/07/2017	100%	Completed	Ongoing	The RUMAS system is used for Indigent management and integrates with the MUNSOFT system.	The seamless integration between Munsoft and RUMAS have been implemented fully as at 30 June 2026.

	Prepaid Vending Integration or interface	Manager Revenue: Diane May	dmay@ndlambe.gov.za	01/03/2017	01/07/2017	Ongoing	In Progress		Meeting will be held with the service provider and MUNSOFT to assist with the integration setup	The integration meeting was held but further system amendments and test are being done to ensure the accuracy of the setup after which the implementation will be done.
	Generation of Reports. (Debtors Age Analysis, Billing run reports, etc.)	Manager Revenue: Diane May	dmay@ndlambe.gov.za	01/03/2017	01/07/2017	100%	Completed	Ongoing

CERTIFICATION

I Adv. **Rolly Dumezweni,** Municipal Manager of **Ndlambe Municipality,** hereby certifies that the monthly budget statement report and supporting documentation for quarter 1 of 2026 have been prepared in accordance with the Municipal Finance Management Act and the regulations made under the Act.

R Dumezweni
MUNICIPAL MANAGER

DATE 20/10/2026

OPEN NDLAMBE COUNCIL MEETING

HELD ON FRIDAY, 30 OCTOBER 2026

REPORT DATED 23 OCTOBER 2026 FROM THE MUNICIPAL MANAGER TO COUNCIL: MOTION OF EXIGENCY SUBMITTED BY COUNCILLOR ROSS PURDON: ELECTRICITY AVAILABILITY CHARGE PER METER

ANNEXURE C.10

MOTION OF EXIGENCY

MOTION OF CONCERN: ELECTRICITY AVAILABILITY CHARGE PER METER

Submitted to: The MUNICIPAL MANAGER AND SPEAKER of NDLAMBE MUNICIPALITY

MUNICIPAL MANAGERS OFFICE
P.O. BOX 13. PORT ALFRED, 6170
07 SEP 2026
TEL: 046 604 [illegible] FAX: 046 624 2669
NDLAMBE MUNICIPALITY

Submitted by: Councillor ROSS PURDON

Date: 7/9/26

MOTION

The Democratic Alliance notes with serious concern the electricity availability charges **per electricity meter**, which represents a substantial fixed financial burden on residents regardless of the amount of electricity consumed.

The Democratic Alliance further notes that residents are already experiencing significant financial pressure as a result of increases in the cost of living and other municipal services.

While The Democratic Alliance acknowledges the financial and operational costs associated with maintaining a reliable electricity distribution network, it is essential that municipal tariffs remain **fair, transparent, reasonable and affordable** for the communities they serve.

THEREFORE, IT IS RESOLVED THAT:

1. Council formally records the DA's concern regarding the current electricity availability charges **per meter** and its impact on residents.
2. The Municipal Manager and relevant officials are requested to provide Council with a **full written breakdown** of the availability charges, including the costs that the charges are intended to recover.
3. A comprehensive review of the questionable cost of supply study regarding the electricity tariff structure be undertaken to **reduce or restructure the electricity availability charge to make it more affordable and equitable.**
4. No further increase to the electricity availability charge be implemented until Council has considered the outcome of the review and the financial impact on residents.
5. The municipality conduct meaningful consultation with affected residents and stakeholders regarding the electricity tariff structure and proposed increases.
6. Particular consideration be given to the impact of the availability charge on **pensioners, retirees, low-income households, vulnerable residents and small businesses.**
7. The municipality investigate opportunities to reduce unnecessary operational costs and improve efficiency within the electricity service before placing additional financial pressure on consumers.
8. The Municipal Manager submit a detailed report to Council, including recommendations and alternative tariff options, within **30 days** of adoption of this motion.

9. Council requests that the relevant portfolio committee monitor the implementation of this resolution and report back to Council.

MOTIVATION

The purpose of this motion is not to undermine the municipality's responsibility to maintain a sustainable electricity service. Rather, it is to ensure that the cost of providing that service is distributed in a manner that is **fair, transparent and affordable**.

An availability charge per meter is a significant fixed cost for a household. For residents who use relatively little electricity, the availability charge can represent a particularly disproportionate burden because it is payable irrespective of actual consumption.

Council has a responsibility to consider ,not only the financial sustainability of municipal services ,but also the **ability of residents to afford those services.**

It is therefore in the public interest that the basis for the charges be properly scrutinised, that alternatives be considered and that residents are given an opportunity to understand or pcomment on the proposed tariff structure.

Council is accordingly requested to adopt the above resolutions.
